Open Budget Survey 2023

Questionnaire

Zambia

May 2024
Country Questionnaire: Zambia

PBS-1. What is the fiscal year of the PBS evaluated in this Open Budget Survey questionnaire?

Please enter the fiscal year in the following format: “FY YYYY” or “FY YYYY-YY.”

**Answer:**
FY 2023

**Source:**
https://www.mofnp.gov.zm/?page_id=4140

**Comment:**
The Ministry of Finance and National Planning (MOFNP) in May 2022 announced the preparation and commencement of the 2023-2025 Medium Term Expenditure Framework. In July 2022 the Medium Term Budget Plan and 2023 Annual Budget Green Paper were produced. However, the green paper is not available on the MOFNP website and was accessed by JCTR during a parliamentary submission with the National Assembly of Zambia Planning and Budgeting Committee as part of a consultative process.

**Peer Reviewer**
**Opinion:** Agree
**Comments:** The answer seems to confuse the definition of the PBS versus the EBP. The mixup is clear from the next dozen of questions. The researchers however seem to have decided (in spite of some contradictory answers) that the source given here above is the EBP. I agree with this throughout the questionnaire but now and then comment on the apparent confusion.

**Government Reviewer**
**Opinion:** Agree
**Comments:** The fiscal year being evaluated is FY 2023. However, it should be noted that the 2023-2025 Medium Term Budget Plan or Green Paper was published in FY 2022.

PBS-2. When is the PBS made available to the public?

Publicly available budget documents are defined as those documents that are published on the website of the public authority issuing the document within the time frame specified in the OBS methodology and that all citizens are able to obtain free of charge. (See the Open Budget Survey Guidelines on Public Availability of Budget Documents.) This is a change from previous rounds of the Open Budget Survey: now at minimum documents must be made available on the Internet and free of charge to be considered publicly available.

The OBS methodology requires that for a PBS to be considered publicly available, it must be made available to the public one month before the Executive’s Budget Proposal is submitted to the legislature for consideration. If the PBS is not released to the public at least one month before the Executive’s Budget Proposal is submitted to the legislature for consideration, option “d” applies. Option “d” should also be chosen for documents that are produced for internal purposes only (that is, produced but never released to the public) or are not produced at all. Some governments may publish budget documents further in advance than the latest possible dates outlined above. In these instances, researchers should choose options “a” or “b,” depending on the date of publication identified for the PBS.

**Answer:**
d. The PBS is not released to the public, or is released less than one month before the Executive’s Budget Proposal is introduced to the legislature

**Source:**
https://www.mofnp.gov.zm/?page_id=4140

**Comment:**
The PBS was not made publicly available (i.e. placed online). The EBP was however released on the last Friday of September (30th September 2022) in line with the National Planning and Budgeting Act no.1 of 2020.
PBS-3a. If the PBS is published, what is the date of publication of the PBS?

Answer: 08/07/2022

Source:

Comment: The MTBP (Green paper) was produced in July 2022 within the time frame accepted by the OBS methodology i.e. one month before the Executive's Budget Proposal is submitted to the legislature for consideration. However, as the document is not available on the MOFNP website the date of publication and source cannot be established (Green paper was accessed by JCTR during Parliamentary consultations to which a letter of invitation serves as the current source).

Peer Reviewer
Opinion: I choose not to review this question
Comments: Cannot agree or disagree since the date of publication could not be established. On top of the form for this question there appears a message which makes no sense to me

Government Reviewer
Opinion: Agree
Comments: According to the MoFNP facebook page, the 2023 - 2025 Medium Term Budget Plan was published on 08/07/2022.

PBS-3b. In the box below, please explain how you determined the date of publication of the PBS.

If the document is not published at all, researchers should mark this question "n/a."

Answer: N/A
PBS-4. If the PBS is published, what is the URL or weblink of the PBS?

Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. If the document is not published at all, researchers should leave this question blank.

Answer:

Source:

Comment:

N/A as PBS was not published online

Peer Reviewer

Opinion: Agree

Comments: Agree since PBS was NOT published ON LINE

Government Reviewer

Opinion: Agree

PBS-5. If the PBS is published, are the numerical data contained in the PBS available in a machine readable format?

Material (data or content) is machine readable if it is in a format that can be easily processed by a computer, such as .csv, .xls/.xlsx, and .json. Numerical data found in PDFs, Word (.doc/.docx) or HTML files do not qualify as machine readable. See more at: http://opendatahandbook.org/glossary/en/terms/machine-readable/

Option “d” applies if the PBS is not publicly available, therefore its machine readability cannot be assessed.

Answer:

d. Not applicable

Source:

Comment:
**PBS-6a. If the PBS is not publicly available, is it still produced?**

If the PBS is not considered publicly available under the OBS methodology (and thus the answer to Question PBS-2 was "d"), a government may nonetheless produce the document.

Option "a" applies if the document is produced and made available to the public online but not within the time frame specified in the OBS methodology (see Question PBS-2).

Option "b" applies if the document is produced and made available to the public within the time frame specified by the OBS methodology but only in hard copy (and is not available online). Option "b" also applies if the document is made available to the public within the time frame specified by the OBS methodology in soft electronic copy but is not available online.

Option "c" applies if the document is produced for internal purposes only and so is not made available to the public.

Option "d" applies if the document is not produced at all.

Option "e" applies if the document is publicly available.

If a document is not released to the public, researchers may need to write to or visit the relevant government office in order to determine whether answer "c" or "d" applies.

**Government Reviewer**

| Opinion: Disagree |

**Suggested Answer:** e. Not applicable (the document is publicly available)

| Comments: According to our social media channels i.e., MoFNP Facebook page, the 2023-2025 Medium Term Budget Plan or Green Paper was published on 8th July, 2022. |

**IBP Comment**

The PBS/MTEF 2023-2025 Green Paper is not available online. Researcher’s response is valid.

**PBS-6b. If you selected option "c" or "d" in question PBS-6a, please specify how you determined whether the PBS was produced for internal use only, versus not produced at all.**
If option “a,” “b,” or “e” was selected in question PBS-6a, researchers should mark this question “n/a.”

Answer:
N/A

Source:

Comment:

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion:
Comments: n/a

PBS-7. If the PBS is produced, please write the full title of the PBS.

For example, a title for the Pre-Budget Statement could be “Proposed 2023 State Budget” or “Guidelines for the Preparation of Annual Plan and Budget for 2022/23.”

If the document is not produced at all, researchers should mark this question “n/a.”

Answer:
n/a

Source:
Not available

Comment:
The PBS is not available online however the full title was extracted from the unpublished version of the document that was shared in soft copy during the parliamentary consultations.

THE 2023-2025 MEDIUM TERM BUDGET PLAN AND THE 2023 ANNUAL BUDGET GREEN PAPER

Peer Reviewer
Opinion: Agree
Comments: I think this is a well balanced answer. Since the full title is given in capitals above it indicates that the PBS IS produced. The researchers however use n/a which should be used if the document is NOT produced. This seems to be contradictory! I however agree with the researchers as the budget on one hand WAS produced but on the other hand an unpublished version was only shared in soft copy during parliamentary consultations. This must nearly qualify to deem it NOT produced. Researchers have done as well as they could in this contradictory situation.

Government Reviewer
Opinion: Agree
Comments: The 2023-2025 Medium Term Budget Plan and the 2023 Annual Budget.

PBS-8. Is there a “citizens version” of the PBS?

While the Citizens Budget was initially conceived as a simplified version of the Executive’s Budget Proposal or the Enacted Budget, good practice is now evolving and suggests that a “citizens” version of key budget documents should be produced during each of the four phases of the budget cycle. This would
serve to inform citizens of the state of public financial management throughout the entire budget cycle. While it is recognized that it may be unreasonable to expect that a citizens version is produced for each and every one of those key documents, it seems acceptable to expect that according to good practice, the executive releases a citizens version of key budget documents for each of the four stages of the budget process to allow citizens to be aware of what is happening, in terms of public financial management, throughout the entire budget cycle. For more information on Citizens Budget see: https://www.internationalbudget.org/publications/citizens-budgets/

EBP-1a. What is the fiscal year of the EBP evaluated in this Open Budget Survey questionnaire?

Please enter the fiscal year in the following format: "FY YYYY" or "FY YYYY-YY."

Answer:
FY 2023
Source:
Comment:

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Agree

EBP-1b. When is the EBP submitted to the legislature for consideration?

Please enter the date in the following format: "DD/MM/YYYY." For example, 5 September 2022 should be entered as 05/09/2022. If the document is not published or not produced, leave this question blank.

Answer:
30/09/2022
Source:
https://www.parliament.gov.zm/node/10630
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech
http://www.daily-mail.co.zm/ensure-effective-budget-implementation/
EBP-2. When is the EBP made available to the public?

Publicly available budget documents are defined as those documents that are published on the website of the public authority issuing the document within the time frame specified in the OBS methodology and that all citizens are able to obtain free of charge. (See the Open Budget Survey Guidelines on Public Availability of Budget Documents.) This is a change from previous rounds of the Open Budget Survey: now at minimum documents must be made available on the Internet and free of charge to be considered publicly available.

The OBS methodology requires that for an EBP to be considered publicly available, it must be made available to the public while the legislature is still considering it and before the legislature approves (enacts) it. If the EBP is not released to the public before the legislature approves it, option “d” applies. Option “d” should also be chosen for documents that are produced for internal purposes only (that is, produced but never released to the public) or are not produced at all. Some governments may publish budget documents further in advance than the latest possible dates outlined above. In these instances, researchers should choose options “a” or “b,” depending on the date of publication identified for the EBP.

The OBS definition of an Executive’s Budget Proposal is a document(s) that (i) the executive submits to the legislature as a formal part of the budget approval process and (ii) the legislature either approves or on which it approves proposed amendments.

The OBS will treat the Executive’s Budget Proposal as “Not Produced,” in the following cases:

- The executive does not submit the draft budget to the legislature; or
- The legislature receives the draft budget but does not approve it or does not approve recommendations on the draft budget; or
- The legislature rejects the draft budget submitted by the executive, but the executive implements it without legislative approval; or
- There is no legislature, or the legislature has been dissolved.

Answer:

a. At least three months in advance of the budget year, and in advance of the budget being approved by the legislature

Source:

https://www.parliament.gov.zm/node/10630
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:

Budget speech was made available online on 30th September 2022 (determined using javascript and time log evidenced on the MOFNP website). Noteworthy to mention that the yellow book (accessed through partner networks) is only uploaded online when the budget approval is done.

Peer Reviewer

Opinion: Disagree

Suggested Answer: d. The EBP is not released to the public, or is released after the budget has been approved by the legislature

Comments: Researchers refer to the budget speech while the question refers to the EBP. The EBP is not included in the budget speech in its entirety.

Government Reviewer

Opinion: Agree

IBP Comment

The Budget Speech meets the IBP criteria to qualify as the EBP. Response changed to "A"
EBP-3a. If the EBP is published, what is the date of publication of the EBP?

Note that the date of publication is not necessarily the same date that is printed on the document.

Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late.

Please enter the date in the following format: "DD/MM/YYYY." For example, 5 September 2022 should be entered as 05/09/2022. If the document is not published or not produced, leave this question blank.

In the comment boxes below, researchers should also list any supporting documents to the EBP and their date of publication.

**Answer:**

30/09/2022

**Source:**

https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

**Comment:**

EBP i.e. budget speech was uploaded online to the MOFNP website on 30th September 2022 in line with the provisions of the Planning and Budgeting Act of 2020

**Peer Reviewer**

**Opinion**: Disagree

**Suggested Answer**: I doubt that one can argue that the EBP in fact was published. The link used here is (1) to the Budget speech which does not contain the full data for a EBP and (2) the link to the actual budget document with all required information. But this has been called the PBS

**Government Reviewer**

**Opinion**: Agree

**IBP Comment**

The Budget Speech meets the IBP criteria to qualify as the EBP.

EBP-3b. In the box below, please explain how you determined the date of publication of the EBP.

*If the document is not published at all, researchers should mark this question "n/a."

**Answer:**

Using Javascript Code

**Source:**

**Comment:**

**Peer Reviewer**

**Opinion**: I choose not to review this question

**Comments**: Doubt that Javascript will giv the date for the actual publication

**Government Reviewer**
EBP-4. If the EBP is published, what is the URL or weblink of the EBP?

Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. If the document is not published at all, researchers should leave this question blank.

In the comment boxes below, researchers should also list any supporting documents to the EBP and their URL or weblink.

Answer:

Source:

Comment:
Additionally document is also available online on the National Assembly website

Peer Reviewer
Opinion: Disagree
Suggested Answer: The link to a full budget is https://www.mofnp.gov.zm/?page_id=4140 but this is also listed as a reference for the PBS. Unless one and the same document can be both the PBS and the EBP, this link is not correct
Comments: The EPB linked here is in fact the link to the budget speech. This does not contain all the information required for a full EPB. (See also my comments on this issue in the preceding question)

Government Reviewer
Opinion: Agree
Comments: Alternative link: https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

EBP-5. If the EBP is published, are the numerical data contained in the EBP or its supporting documents available in a machine readable format?

Material (data or content) is machine readable if it is in a format that can be easily processed by a computer, such as .csv, .xls/.xlsx, and .json. Numerical data found in PDFs, Word (.doc/.docx) and HTML files do not qualify as machine readable. See more at: http://opendatahandbook.org/glossary/en/terms/machine-readable/.

Option “d” applies if the EBP is not publicly available, therefore its machine readability cannot be assessed.

Answer:
c. No

Source:

Comment:

Peer Reviewer
Opinion: Agree
Comments: Pdf does not qualify as “machine readable” As I have stated before, I believe this is a strange regulation. There is lots of software available that can make a pdf file “machine readable”. I have stated my feelings on this point in preceeding reviews but IBPs idea about this is the opposite of mine.
EBP-6a. If the EBP is not publicly available, is it still produced?

If the EBP is not considered publicly available under the OBS methodology (and thus the answer to Question EBP-2 was "d"), a government may nonetheless produce the document.

Option "a" applies if the document is produced and made available to the public online but not within the time frame specified in the OBS methodology (see Question EBP-2).

Option "b" applies if the document is produced and made available to the public within the time frame specified by the OBS methodology but only in hard copy (and is not available online). Option "b" also applies if the document is made available to the public within the time frame specified by the OBS methodology in soft electronic copy but is not available online.

Option "c" applies if the document is produced for internal purposes only and so is not made available to the public.

Option "d" applies if the document is not produced at all.

Option "e" applies if the document is publicly available.

If a document is not released to the public, researchers may need to write to or visit the relevant government office in order to determine whether answer "c" or "d" applies.

Answer:

e. Not applicable (the document is publicly available)

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
As the budget speech meets the methodology criteria to qualify as the EBP the document is publicly available and was published online on 30th September 2022.

EBP-6b. If you selected option "c" or "d" in question EBP-6a, please specify how you determined whether the EBP was produced for internal use only, versus not produced at all.

If option "a," "b," or "e" was selected in question EBP-6a, researchers should mark this question "n/a."

Answer:
N/A N/A
EBP-7. If the EBP is produced, please write the full title of the EBP.

For example, a title for the Executive’s Budget Proposal could be "Draft Estimates of Revenue and Expenditure for BY 2022-23, produced by the Ministry of Finance, Planning and Economic Development."

If there are any supporting documents to the EBP, please enter their full titles in the comment box below.

If the document is not produced at all, researchers should mark this question "n/a."

Answer:
2023 BUDGET ADDRESS BY HONOURABLE DR. SITUMBEKO MUSOKOTWANE, MP, MINISTER OF FINANCE AND NATIONAL PLANNING DELIVERED TO THE NATIONAL ASSEMBLY ON FRIDAY, 30TH SEPTEMBER, 2022

Source: https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:

EB-2. When is the EB made available to the public?

Publicly available budget documents are defined as those documents that are published on the website of the public authority issuing the document within the time frame specified in the OBS methodology and that all citizens are able to obtain free of charge. (See the Open Budget Survey Guidelines on Public Availability of Budget Documents.) This is a change from previous rounds of the Open Budget Survey: now at minimum documents must be made available on the Internet and free of charge to be considered publicly available.

The OBS methodology requires that for an EB to be considered publicly available, it must be made available to the public three months after the budget is approved by the legislature. If the EB is not released to the public at least three months after the budget is approved by the legislature, option “d” applies. Option “d” should also be chosen for documents that are produced for internal purposes only (that is, produced but never released to the public) or are not produced at all. Some governments may publish budget documents further in advance than the latest possible dates outlined above. In these instances, researchers should choose options “a” or “b,” depending on the date of publication identified for the EB.

Answer:
a. Two weeks or less after the budget has been enacted

Source:

Comment:
Following assent on 23rd December, 2022. The Appropriation was made available on the NAZ website on 28th December 2022 according to document properties.
Note that the date of publication is not necessarily the same date that is printed on the document. Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. Please enter the date in the following format: "DD/MM/YYYY." For example, 5 September 2022 should be entered as 05/09/2022. If the document is not published or not produced, leave this question blank.

| Comment: | Determined using javascript on the NAZ website |

Peer Reviewer

- **Opinion:**
- **Comments:** Do not think javascript is a safe method for determining date of publication

Government Reviewer

- **Opinion:** Agree

---

**EB-3b. In the box below, please explain how you determined the date of publication of the EB.**

If the document is not published at all, researchers should mark this question "n/a."

| Answer: | Dates determined using creation document detail properties available on the website. |
| Comment: | |

Peer Reviewer

- **Opinion:** I choose not to review this question
- **Comments:** Creation of document can be very different from the date of publication. "Date of publication" means the date when the public has access to the contents of the EB. This may well not be the same date as the date when the EB document was created

Government Reviewer

- **Opinion:** Agree

---

**EB-4. If the EB is published, what is the URL or weblink of the EB?**

Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. If the document is not published at all, researchers should leave this question blank.

| Answer: | |

---
EB-5. If the EB is published, are the numerical data contained in the EB available in a machine readable format?

Material (data or content) is machine readable if it is in a format that can be easily processed by a computer, such as .csv, .xls/.xlsx, and .json. Numerical data found in PDFs, Word (.doc/.docx) and HTML files do not qualify as machine readable. See more at: http://opendatahandbook.org/glossary/en/terms/machine-readable/

Option “d” applies if the EB is not publicly available, therefore its machine readability cannot be assessed.

Answer:

c. No

EB-6a. If the EB is not publicly available, is it still produced?

If the EB is not considered publicly available under the OBS methodology (and thus the answer to Question EB-2 was “d”), a government may nonetheless produce the document.

Option “a” applies if the document is produced and made available to the public online but not within the time frame specified in the OBS methodology (see Question EB-2)
Option “b” applies if the document is produced and made available to the public within the time frame specified by the OBS methodology but only in hard copy (and is not available online). Option “b” also applies if the document is made available to the public within the time frame specified by the OBS methodology in...
soft electronic copy but is not available online.

Option “c” applies if the document is produced for internal purposes only and so is not made available to the public.
Option “d” applies if the document is not produced at all.
Option “e” applies if the document is publicly available.

If a document is not released to the public, researchers may need to write to or visit the relevant government office in order to determine whether answer “c” or “d” applies.

EB-8. Is there a "citizens version" of the EB?

While the Citizens Budget was initially conceived as a simplified version of the Executive’s Budget Proposal or the Enacted Budget, good practice is now evolving and suggests that a “citizens” version of key budget documents should be produced during each of the four phases of the budget cycle. This would serve to inform citizens of the state of public financial management throughout the entire budget cycle. While it is recognized that it may be unreasonable to expect that a citizens version is produced for each and every one of those key documents, it seems acceptable to expect that according to good practice, the executive releases a citizens version of key budget documents for each of the four stages of the budget process to allow citizens to be aware of what is happening, in terms of public financial management, throughout the entire budget cycle. For more information on Citizens Budget see: https://www.internationalbudget.org/publications/citizens-budgets/
CB-2a. For the fiscal year indicated in CB-1, what is the public availability status of the CB?

If more than one Citizens Budget is produced, please complete this question for one of them, specifying in the comment box below which document (Executive’s Budget Proposal or Enacted Budget) you are referring to, and – in the same comment box – which other Citizens Budget is produced and its public availability status.

Remember that publicly available budget documents are defined as those documents that are published on the website of the public authority issuing the document within the time frame specified by the OBS methodology and that all citizens are able to obtain free of charge. This is a change from previous rounds of the Open Budget Survey: now at minimum documents must be made available on the Internet and free of charge to be considered publicly available.

Option “a” applies if the document is produced and made available to the public online but not within the time frame specified in the OBS methodology Option “b” applies if the document is produced and made available to the public within the time frame specified by the OBS methodology but only in hard copy (and is not available online). Option “b” also applies if the document is made available to the public within the time frame specified by the OBS methodology in soft electronic copy but is not available online. Option “c” applies if the document is produced for internal purposes only and so is not made available to the public. Option “d” applies if the document is not produced at all. Option “e” applies if the document is publicly available.

<td>Document is made available to the public within the time frame specified by the OBS methodology in soft electronic copy but is not available online. The 2023 national budget CB was produced but only placed online after the cutoff date of 31st December, 2022. The same applies to the 2022 citizens budget that was only placed online in January 2023.</td>
</tr>
</tbody>
</table>

Peer Reviewer
- Opinion: Disagree
- Suggested Answer: a. Produced but made available online to the public too late (published after the acceptable time frame)
- Comments: the researchers comment points out that the CB was placed online after the cut off date but the answer is still b while it should be a

Government Reviewer
- Opinion: Disagree
- Suggested Answer: e. Not applicable (the document is publicly available)
- Comments: It should be noted that a copy of the Citizen’s Budget was made available online. Further, unlike the National Budget, the Citizens Budget is not tied a legal timeframe. However, the ideal scenario is that it is published after the presentation of the EBP.

IBP Comment
- Citizens Budget was designed but published online too late and after the cut-off date. The response is changed to "C" based on OBS methodology.
CB-2b. If you selected option "c" or "d" in question CB-2a, please specify how you determined whether the CB was produced for internal use only, versus not produced at all.

If option "a," "b," or "e" was selected in question CB-2a, researchers mark this question "n/a."

CB-3a. If the CB is published, what is the date of publication of the CB?

Note that the date of publication is not necessarily the same date that is printed on the document. Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. Please enter the date in the following format: "DD/MM/YYYY." For example, 5 September 2022 should be entered as 05/09/2022. If the document is not published or not produced, leave this question blank.

If more than one Citizens Budget is published, please complete this question for one of them, specifying in the comment box below which document you are referring to, and – in the same comment box – which other Citizens Budget is produced and its dates of publication.

Answer:

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-citizens-budget

Comment:
Citizens budgets produced for the years 2018 to 2023 were only uploaded to the MOFNP website in January 2023 outside the cut-off date of this cycle.

IYRs-1. What is the fiscal year of the IYRs evaluated in this Open Budget Survey questionnaire?

Please enter the fiscal year in the following format: “FY YYYY” or “FY YYYY-YY.”
IYRs-2. When are the IYRs made available to the public?

Publicly available budget documents are defined as those documents that are published on the website of the public authority issuing the document within the time frame specified in the OBS methodology and that all citizens are able to obtain free of charge. (See the Open Budget Survey Guidelines on Public Availability of Budget Documents.) This is a change from previous rounds of the Open Budget Survey: now at minimum documents must be made available on the Internet and free of charge to be considered publicly available.

The OBS methodology requires that for IYRs to be considered publicly available, IYRs must be made available to the public no later than three months after the reporting period ends. If at least seven of the last 12 monthly IYRs, or at least three of the last four quarterly IYRs are not released to the public at least three months after the reporting period ends, option “d” applies. Option “d” should also be chosen for documents that are produced for internal purposes only (that is, produced but never released to the public) or are not produced at all. Some governments may publish budget documents further in advance than the latest possible dates outlined above. In these instances, researchers should choose options “a” or “b,” depending on the date of publication identified for the IYRs.

Answer:

d. The IYRs are not released to the public, or are released more than three months after the period covered

Comment:

Q4 2021 Quarterly was published online on 19/08/2022 over the three months timeliness requirement
Q1 2022 Quarterly was published on 19/08/2022 outside the required time requirement
Q2 and Q3 2022 Quarterly were placed online on 19/08/2022 and 30/11/2022 meeting the required timeline under the OBS methodology. Two out of four reports were therefore published online in a timely manner.

MEI reports on the other hand were produced and published online from the period May to November 2022. Some did not meet the reporting requirements.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Agree
IYRs-3a. If the IYRs are published, what are the dates of publication of the IYRs?

Specifically: if quarterly In-Year Reports are published, indicate the dates of publication of at least three of the last four IYRs that were publicly available. If monthly IYRs are published, indicate the dates of publication of at least seven of the last 12 IYRs that were publicly available.

Note that the date of publication is not necessarily the same date that is printed on the document. Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late.

Please enter the date in the following format: "DD Month YYYY." For example, 5 September 2022 should be entered as 05 September 2022. If the document is not published or not produced, please mark this question "n/a."

**Answer:**
- Q4 2021 19 August 2022 (document properties indicate that this created on 09 March 2022)
- Q1 2022 19 August 2022
- Q2 2022 19 August 2022
- Q3 2022 30 November 2022
- Jan and Feb monthly IYR 31 May 2022
- March, April, May and June monthly IYR 09 September 2022
- July monthly IYR 01 November 2022
- August monthly IYR 07 November 2022
- September monthly IYR 30 November 2022

Government Reviewer
Opinion: Agree
**IYRs-6a. If the IYRs are not publicly available, are they still produced?**

If the IYRs are not considered publicly available under the OBS methodology (and thus the answer to Question IYRs-2 was “d”), a government may nonetheless produce the document.

Option “a” applies if the document is produced and made available to the public online but not within the time frame specified in the OBS methodology (see Question IYRs-2).

Option “b” applies if the document is produced and made available to the public within the time frame specified by the OBS methodology but only in hard copy (and is not available online). Option “b” also applies if the document is made available to the public within the time frame specified by the OBS methodology in soft electronic copy but is not available online.

Option “c” applies if the document is produced for internal purposes only and so is not made available to the public.

Option “d” applies if the document is not produced at all.

Option “e” applies if the document is publicly available.

If a document is not released to the public, researchers may need to write to or visit the relevant government office in order to determine whether answer “c” or “d” applies.

**Answer:**

a. Produced but made available online to the public too late (published after the acceptable time frame)

**Source:**

Q4 2021 19 August 2022 (document properties indicate that this created on 09 March 2022)

IYRs-8. Is there a "citizens version" of the IYRs?

While the Citizens Budget was initially conceived as a simplified version of the Executive’s Budget Proposal or the Enacted Budget, good practice is now evolving and suggests that a "citizens" version of key budget documents should be produced during each of the four phases of the budget cycle. This would serve to inform citizens of the state of public financial management throughout the entire budget cycle. While it is recognized that it may be unreasonable to expect that a citizens version is produced for each and every one of those key documents, it seems acceptable to expect that according to good practice, the executive releases a citizens version of key budget documents for each of the four stages of the budget process to allow citizens to be aware of what is happening, in terms of public financial management, throughout the entire budget cycle. For more information on Citizens Budget see:
https://www.internationalbudget.org/publications/citizens-budgets/
MYR-1. What is the fiscal year of the MYR evaluated in this Open Budget Survey questionnaire?

YER-6a. If the YER is not publicly available, is it still produced?

If the YER is not considered publicly available under the OBS methodology (and thus the answer to Question YER-2 was “d”), a government may nonetheless produce the document.

Option “a” applies if the document is produced and made available to the public online but not within the time frame specified in the OBS methodology (see Question YER-2)

Option “b” applies if the document is produced and made available to the public within the time frame specified by the OBS methodology but only in hard copy (and is not available online). Option “b” also applies if the document is made available to the public within the time frame specified by the OBS methodology in soft electronic copy but is not available online.

Option “c” applies if the document is produced for internal purposes only and so is not made available to the public.

Option “d” applies if the document is not produced at all.

Option “e” applies if the document is publicly available.

If a document is not released to the public, researchers may need to write to or visit the relevant government office in order to determine whether answer “c” or “d” applies.

**Answer:**
e. Not applicable (the document is publicly available)

**Source:**

**Comment:**
YER-6b. If you selected option "c" or "d" in question YER-6a, please specify how you determined whether the YER was produced for internal use only, versus not produced at all.

If option "a,""b," or "e" was selected in question YER-6a, researchers should mark this question "n/a."

Answer:
N/A

YER-8. Is there a "citizens version" of the YER?

While the Citizens Budget was initially conceived as a simplified version of the Executive’s Budget Proposal or the Enacted Budget, good practice is now evolving and suggests that a "citizens" version of key budget documents should be produced during each of the four phases of the budget cycle. This would serve to inform citizens of the state of public financial management throughout the entire budget cycle. While it is recognized that it may be unreasonable to expect that a citizens version is produced for each and every one of those key documents, it seems acceptable to expect that according to good practice, the executive releases a citizens version of key budget documents for each of the four stages of the budget process to allow citizens to be aware of what is happening, in terms of public financial management, throughout the entire budget cycle. For more information on Citizens Budget see: https://www.internationalbudget.org/publications/citizens-budgets/

Answer:
b. No

AR-2. When is the AR made available to the public?

Publicly available budget documents are defined as those documents that are published on the website of the public authority issuing the document within the time frame specified in the OBS methodology and that all citizens are able to obtain free of charge. (See the Open Budget Survey Guidelines on Public Availability of Budget Documents.) This is a change from previous rounds of the Open Budget Survey: now at minimum documents must be made available on the Internet and free of charge to be considered publicly available.
The OBS methodology requires that for an AR to be considered publicly available, it must be made available to the public no later than 18 months after the end of the fiscal year to which it corresponds. If the AR is not released to the public at least 18 months after the end of the fiscal year to which it corresponds, option “d” applies. Option “d” should also be chosen for documents that are produced for internal purposes only (that is, produced but never released to the public) or are not produced at all. Some governments may publish budget documents further in advance than the latest possible dates outlined above. In these instances, researchers should choose options “a” or “b,” depending on the date of publication identified for the AR.

AR-3a. If the AR is published, what is the date of publication of the AR?

Note that the date of publication is not necessarily the same date that is printed on the document. Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late.

Please enter the date in the following format: “DD/MM/YYYY.” For example, 5 September 2022 should be entered as 05/09/2022. If the document is not published or not produced, leave this question blank.

Answer:
12/10/2022

Source:
https://www.ago.gov.zm/?wpfb_dl=266

Comment:
Document created on 30/9/2022 and was modified on 04/10/2022

AR-3b. In the box below, please explain how you determined the date of publication of the AR.

If the document is not published at all, researchers should mark this question “n/a.”

Answer:
AR-4. If the AR is published, what is the URL or weblink of the AR?

Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. If the document is not published at all, researchers should leave this question blank.

Answer:
https://www.ago.gov.zm/?wpfb_dl=266

AR-5. If the AR is published, are the numerical data contained in the AR available in a machine readable format?

Material (data or content) is machine readable if it is in a format that can be easily processed by a computer, such as .csv, .xls/.xlsx, and .json. Numerical data found in PDFs, Word (.doc/.docx) and HTML files do not qualify as machine readable. See more at: http://opendatahandbook.org/glossary/en/terms/machine-readable/

Option “d” applies if the AR is not publicly available, therefore its machine readability cannot be assessed.

Answer:
c. No

AR-8. Is there a "citizens version" of the AR?

While the Citizens Budget was initially conceived as a simplified version of the Executive’s Budget Proposal or the Enacted Budget, good practice is now evolving and suggests that a "citizens" version of key budget documents should be produced during each of the four phases of the budget cycle. This would serve to inform citizens of the state of public financial management throughout the entire budget cycle. While it is recognized that it may be unreasonable to expect that a citizens version is produced for each and every one of those key documents, it seems acceptable to expect that according to good practice, the executive releases a citizens version of key budget documents for each of the four stages of the budget process to allow citizens to be aware of what is happening, in terms of public financial management, throughout the entire budget cycle. For more information on Citizens Budget see: https://www.internationalbudget.org/publications/citizens-budgets/

Answer:
b. No

Source:
https://www.ago.gov.zm/?page_id=5440

Comment:
While the SAI produced a first simplified Report of the Auditor General for the financial year ended 31st December 2019 this is the only version available on the official website of the SAI. Further research also revealed that the 2021 report was disseminated using key finding infographics and not necessarily a full simplified report.
GQ-1a. Are there one or more websites or web portals for disseminating government fiscal information? If yes, please provide the necessary links in the comment/citation.

GQ-1a asks the researcher to list any government websites or portals where fiscal information can be found. For example, in New Zealand the Treasury website (http://www.treasury.govt.nz/) hosts important budget-related information, including the Pre-Budget Statement, the Executive's Budget Proposal, the Citizens Budget, In-Year Reports, the Mid-Year Review, and the Year-End Report. In addition, New Zealand’s Parliamentary Counsel Office (http://www.legislation.govt.nz/) posts the Enacted Budget while the Controller and Auditor-General website (http://www.oag.govt.nz/) publishes the annual Audit Report. The New Zealand researcher would provide the links to each of these sites. Other countries have developed portals that include fiscal information, though not in the “documents” format. For example, these portals have been created by Mexico (https://www.transparenciapresupuestaria.gob.mx/) and Brazil (http://www.portaltransparencia.gov.br/). Some countries have both a website and a portal. The Brazilian government, for example, apart from the Transparency Portal, has a dedicated website for the federal budget, where all key documents and other information can be found (https://www.gov.br/economia/pt-br/assuntos/planejamento-e-orcamento/orcamento). Researchers should include details about all of the relevant websites and/or portals that can be used to access budget information.

Answer:

GQ-1b. On these websites/portals, can revenue and/or expenditure data for the current fiscal year be downloaded as a consolidated, machine readable file (or set of files)? If yes, please provide the necessary links in the comment/citation. For more information on machine readability, see: http://opendatahandbook.org/glossary/en/terms/machine-readable/.

GQ-1b, GQ-1c, and GQ-1d ask about whether governments publish specific types of content on their websites/portals: (a) consolidated files that contain disaggregated revenue and/or expenditure information for the current fiscal year; (b) consolidated files that contain disaggregated revenue and/or expenditure information for multiple years in consistent formats; and (c) infographics/visualizations or other similar tools used to simplify data access and analysis. Researchers should provide the links to relevant webpages and some explanations of what they contain.

Answer:
d. No, neither expenditure or revenue data can be downloaded as a consolidated file

Source:

Comment:
Economic data is available on the Zambia Ministry of Finance data portal (https://zambiamf.opendataforafrica.org/ZMED2015/economic-data-for-zambia-2015). However, at interface this is not up-to-date (time period 1964 January - 2015 January)
GQ-1c. On these websites/portals, can disaggregated revenue and/or expenditure data in consolidated, machine readable files be downloaded for multiple years in consistent formats? If yes, please provide the necessary links and details in the comment/citation. For more information on machine readability, see: http://opendatahandbook.org/glossary/en/terms/machine-readable/.

**Answer:**

d. No, neither expenditure or revenue data can be downloaded for multiple years in consistent formats

**Source:**

**Comment:**

Data is not up to date (available up to 2015). It can however be downloaded to the following file formats csv, xslx and atomsvc

---

GQ-1d. On these websites/portals, are infographics/visualizations or other similar tools used to simplify data access and analysis? If yes, please provide the necessary links and details in the comment/citation.

**Answer:**

b. No

**Source:**

**Comment:**

The data portal provides for infographics such as donut chart, ranking, pie chart, area stacking chart, pictogram, bar stacking chart, table, line chart, column chart, bar chart etc.

However, in as far as data access the portal is out of date and does not contain updated information

GQ-2. Are there laws in place guiding public financial management and/or auditing? If yes, please provide the necessary details and links in the comment/citation, and specify whether and where the law(s) contains specific provisions for budget transparency and/or participation.

GQ-2 asks about the existence of any national laws governing public financial management and auditing. These may include a public finance act, a section of the constitution, or an organic budget law. In some countries, fiscal responsibility legislation may also be relevant. For example, the Kenya researcher may include the link to its Public Finance Management Act, 2012 (http://kenyalaw.org:8181/exist/kenyalex/actview.xql?actid=No.%2018%20of%202012), and the Macedonian researcher may include a link to its State Audit Law (https://finance.gov.mk/wp-content/uploads/2009/05/Audit-law.pdf). Researchers should provide links to websites where such laws are published, if possible, or an electronic copy of the law itself. They should also indicate if and where (e.g. which article) these laws include specific provisions for budget transparency and citizen participation in budget processes.

Answer:
a. Yes

Source:

Comment:
The Public Debt Management Act No.15 of 2022 (from a debt management perspective in as far raising of loans and grants, approval of loans, establishment of a debt management office among others. The act speaks to public financial management).
The Public Procurement Act No.8 of 2020 (part 3 and 4 display tenets of non-discrimination from participation)
The National Planning and Budgeting Act No.1 of 2020 (entire law promotes the participation of state and non-state actors in the planning and budgeting process)
The Public Finance Management Act 2018 (document deals with accountability and transparency in the management of public funds)
The Public Audit Act No.29 of 2016 (whole document deals with the audit processes)
The Constitution (Amendment) Act No. 2 of 2016 (Sections 114, 183, 198 - 212)
The third and last question asks researchers to list any additional laws regulating access to information, transparency, or citizens’ participation that are relevant for the promotion of budget transparency and citizen participation in budget processes. These might include legislation related to access to information, to planning processes, or to public administration more generally. India’s Right to Information Act of 2005 (https://www.ncess.gov.in/facilities/central-public-information-officer/rti-act-details.html) is an example of this type of law. For more information on access to information legislation (constitutional provisions, laws, and regulations), including examples of model laws, see: https://www.rti-rating.org/country-data/ and https://www.constituteproject.org/.

Answer:
b. No

Comment:

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer:
Comments: Section 8 (4) of the Public Debt Management Act No. 15 of 2022 has a provision for an Annual Borrowing Plan which is presented to Parliament within the similar timeframe as the National Budget. This promotes transparency and accountability in the loans being contracted by the country.

IBP Comment
IBP agrees with the researcher’s response. The PDM Act submitted by the Government does not speak to any of the three areas checked but the function of the DMO.

1. Does the Executive’s Budget Proposal or any supporting budget documentation present expenditures for the budget year that are classified by administrative unit (that is, by ministry, department, or agency)?

GUIDELINES:

Question 1 addresses the presentation of expenditure by administrative unit. This information indicates which government entity (ministry, department, or agency, or MDAs) will be responsible for spending the funds and, ultimately, held accountable for their use.

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditures for all administrative units, accounting for all expenditures, in the budget year. To answer “b,” the administrative units shown individually, in the Executive’s Budget Proposal or its supporting documentation, must account for at least two-thirds of all expenditures in the budget year. In other words, the sum of the expenditures assigned to the individual MDAs (education, health, infrastructure, interior, defense, etc.) must account for at least two-thirds of the total expenditure budgeted for that particular year. A “c” answer applies if the Executive’s Budget Proposal or its supporting documentation presents administrative units that account for less than two-thirds of expenditures. Answer “d” applies if expenditures are not presented by administrative unit.

Answer:
d. No, expenditures are not presented by administrative unit.

Source: https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
The budget speech does not present expenditure by administrative unit but rather by functional of government. It is noteworthy to mention that the 2023 Output Based Budget (only available on the NAZ website) does present expenditure by head (agency or government department).
2. Does the Executive’s Budget Proposal or any supporting budget documentation present expenditures for the budget year by functional classification?

**GUIDELINES:**

Question 2 addresses the presentation of expenditure by functional classification. This classification indicates the programmatic purpose, sector, or objective for which the funds will be used, such as health, education, or defense. Administrative units are not necessarily aligned with functional classifications. For instance, in one country all functions connected with water supply (which fall into the “Housing” function) may be undertaken by a single government agency, while in another country they may be distributed across the Ministries of Environment, Housing, and Industrial Development. In the latter case, three ministries have programs addressing water supply, so three ministries contribute to one function. Similarly, some administrative units may conduct activities that cut across more than one function. For instance, in the example above, some programs of the Ministry of Environment would also be classified in the “environmental protection” function.

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditures for the budget year organized by functional classification.

**Answer:**

a. Yes, expenditures are presented by functional classification.

**Source:**

https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

**Comment:**

Budget speech provides expenditure by functional classification as seen on page 43

---

3. If the Executive’s Budget Proposal or any supporting budget documentation presents expenditures for the budget year by functional classification, is the functional classification compatible with international standards?

**GUIDELINES:**

Question 3 asks whether a country’s functional classification meets international standards. To answer “a,” a country’s functional classification must be aligned with the OECD and the UN’s Classification of the Functions of Government (COFOG), or provide a cross-walk between the national functional presentation and COFOG.

**Answer:**

a. Yes, the functional classification is compatible with international standards.

**Source:**

https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

**Comment:**

Aligned to COFOG standard as seen from page 45

**Opinion:** Agree

**Government Reviewer**

**Opinion:** Agree

---

4. Does the Executive’s Budget Proposal or any supporting budget documentation present expenditures for the budget year by economic classification?

**GUIDELINES:**

Question 4 asks whether the Executive’s Budget Proposal or its supporting documentation presents expenditures for the budget year organized by economic classification. Economic classification provides information on the nature of the expenditure, such as whether funds are being used to pay for wages and salaries, capital projects, or social assistance benefits. Please note that a presentation of expenditures by current and capital expenditures without additional disaggregation or detail will not qualify as an economic classification.

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditures for the budget year organized by economic classification.

**Answer:**

a. Yes, expenditures are presented by economic classification.

**Source:**

**Comment:**

The yellow book does present expenditure by economic classification (personal emoluments, goods and services, and liabilities). This was determined using the 2023 OBB that is available online (NAZ website) but not on the Ministry of Finance and National website who have guided that they can only post the OBB after the budget is enacted.

Government Reviewer
Opinion: Agree

6. Does the Executive’s Budget Proposal or any supporting budget documentation present expenditures for individual programs for the budget year?

GUIDELINES:

Question 6 asks whether expenditures are presented by program. There is no standard definition for the term “program,” and the meaning can vary from country to country. However, for the purposes of answering the questionnaire, researchers should treat the term “program” as meaning any level of detail below an administrative unit — that is, any programmatic grouping that is below the ministry, department, or agency level. For example, the Ministry of Health’s budget could be broken down into several subgroups, such as “primary health care,” “hospitals,” or “administration.” These subgroups should be considered programs even if they could be, but are not, broken down into smaller, more detailed units.

A note for francophone countries: “Program” level detail is sometimes referred to as le plan comptable or le plan comptable detaille. These data are typically coded in the financial management database, following the chart of budgetary accounts, so that they can be organized by administrative and functional classification.

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditures for all individual programs, accounting for all expenditures, in the budget year. To answer “b,” the programs shown individually in the Executive’s Budget Proposal or its supporting documentation must account for at least two-thirds of all expenditures in the budget year. A “c” answer applies if the Executive’s Budget Proposal or its supporting documentation presents programs that account for less than two-thirds of expenditures. Answer “d” applies if expenditures are not presented by program.

Budget decisions for the upcoming year can also affect the parameters of future budgets. It is therefore useful to estimate revenues and expenditures for multi-year periods, understanding that these estimates might be revised as circumstances change. Sometimes referred to as a Medium Term Expenditure Framework (MTEF), a three-year period — that is, the budget year plus two more years — is generally considered an appropriate horizon for budgeting and planning.

Answer:

a. Yes, programs accounting for all expenditures are presented.

Source:
7. Does the Executive's Budget Proposal or any supporting budget documentation present expenditure estimates for a multi-year period (at least two years beyond the budget year) by any of the three expenditure classifications (by administrative, economic, or functional classification)?

GUIDELINES:

Question 7 asks if multi-year expenditure estimates are presented by any one of the three expenditure classifications — by administrative, economic, and functional classifications — which were addressed in Questions 1-5 above. Each of the classifications answers a different question: administrative unit indicates who spends the money; functional classification shows for what purpose is the money spent; and economic classification displays what the money is spent on.

To answer “a,” the Executive's Budget Proposal or its supporting documentation must present expenditure estimates by all three of the expenditure classifications for at least two years beyond the budget year. To answer “b,” multi-year expenditure estimates must be presented by two of these three classifications. A “c” answer applies if multi-year expenditure estimates are presented by one of the three classifications. Answer “d” applies if multi-year expenditure estimates are not presented by any of the three classifications.

Answer:

| d. No, multi-year expenditure estimates are not presented by any expenditure classification. |

Source:

Comment:

Multi year estimates only exist in the MTEF or green paper and not in the EBP

Peer Reviewer

Opinion: Agree

Government Reviewer

Opinion: Agree

Comments: Zambia uses the Medium-Term Budget Plan or Fiscal Framework as a fiscal tool to project revenues and expenditures on a three (3) year rolling basis. The Fiscal Framework is available in supporting budget documents such as the Medium-Term Budget Plan or Green Paper. For example, the 2023 Medium Term Budget Plan or Green Paper has a medium-term projection of the economic classification highlighted in the Fiscal Framework and the functional classifications highlighted in the CoFOG. The administrative classifications can be found in the Yellow Books which highlights expenditures by Ministries and Spending Agencies (MPA’s) as well as the Budget Call Circulars which highlight expenditure ceilings for MPA’s.

7b. Based on the response to Question 7, check the box(es) to identify which expenditure classifications have estimates for a multi-year period in the Executive's Budget Proposal?

Answer:

None of the above
8. Does the Executive’s Budget Proposal or any supporting budget documentation present expenditure estimates for a multi-year period (at least two-years beyond the budget year) by program?

**GUIDELINES:**
Question 8 asks if multi-year expenditure estimates are presented by program. There is no standard definition for the term “program,” and the meaning can vary from country to country. However, for the purposes of answering the questionnaire, researchers should understand the term “program” to mean any level of detail below an administrative unit, such as a ministry or department. For example, the Ministry of Health’s budget could be broken down into several subgroups, such as “primary health care,” “hospitals,” or “administration.” These subgroups should be considered programs even if they could be, but are not, broken down into smaller, more detailed units.

**A note for francophone countries:** “Program” level detail is sometimes referred to as le plan comptable or le plan comptable detailé. (These data are typically coded in the financial management database, following the chart of budgetary accounts, so that they can be organized by administrative and functional classification.)

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditures for all individual programs, accounting for all expenditures, for at least two years beyond the budget year. To answer “b,” the programs shown individually in the Executive’s Budget Proposal or its supporting documentation must account for at least two-thirds of all expenditures over the multi-year period. A “c” answer applies if the Executive’s Budget Proposal or its supporting documentation presents multi-year estimates for programs that account for less than two-thirds of expenditures. Answer “d” applies if multi-year estimates are not presented by program.

Revenues generally are separated into two major categories: “tax” and “non-tax” revenues. Taxes are compulsory transfers that result from government exercising its sovereign power. The largest sources of tax revenue in some countries are taxes on personal and business income and taxes on goods and services, such as sales or value-added taxes. The category of non-tax revenues is more diverse, ranging from grants from international institutions and foreign governments to funds raised through the sale of government-provided goods and services. Note that some forms of revenue, such as contributions to social security funds, can be considered either a tax or non-tax revenue depending on the nature of the approach to these contributions. Particularly because different revenues have different characteristics, including who bears the burden of paying the tax and how collections are affected by economic conditions, it is helpful when estimates for revenues are disaggregated and displayed based on their sources.

**Answer:**
d. No, multi-year estimates for programs are not presented.

**Source:**

**Comment:**
Multi year estimates are only provided for in the MTEF
9. Does the Executive's Budget Proposal or any supporting budget documentation present the individual sources of tax revenue (such as income tax or VAT) for the budget year?

GUIDELINES:
Question 9 assesses the degree to which the individual sources of "tax" revenue are disaggregated in the budget. The largest sources of tax revenue in some countries are taxes on personal and business income and taxes on goods and services, such as sales or value-added taxes.

To answer "a," the Executive's Budget Proposal or its supporting documentation must present all individual sources of tax revenue for the budget year, and "other" or "miscellaneous" revenue must account for three percent or less of all tax revenue. To answer "b," the Executive's Budget Proposal or its supporting documentation must present individual sources of tax revenue that when combined account for at least two-thirds of all tax revenue, but not all revenue. A "c" answer applies if the Executive's Budget Proposal or its supporting documentation presents individual sources of tax revenue that account for less than two-thirds of tax revenues. Answer "d" applies if individual sources of tax revenue are not presented.

Answer:

a. Yes, individual sources of tax revenue accounting for all tax revenue are presented.

Source:

Comment:
Budget speech has individual sources of tax revenue outlined on page 49. Using the 2023 OBB (page xv) "other collections" accounts for less than 3% of all tax revenue therefore qualifying selection of this answer.

10. Does the Executive's Budget Proposal or any supporting budget documentation present the individual sources of non-tax revenue (such as grants, property income, and sales of government-produced goods and services) for the budget year?

GUIDELINES:
Question 10 assesses the degree to which the individual sources of "non-tax" revenue are disaggregated in the budget. The category of non-tax revenues is diverse, and can include revenue ranging from grants from international institutions and foreign governments to funds raised through the sale of government-produced goods and services.

To answer "a," the Executive's Budget Proposal or its supporting documentation must present all individual sources of non-tax revenue for the budget year, and "other" or "miscellaneous" revenue must account for three percent or less of all non-tax revenue. To answer "b," the Executive's Budget Proposal or its supporting documentation must present individual sources of non-tax revenue that when combined account for at least two-thirds of all non-tax revenue, but not all revenue. A "c" answer applies if the Executive's Budget Proposal or its supporting documentation presents individual sources of non-tax revenue that account for less than two-thirds of non-tax revenues. Answer "d" applies if individual sources of non-tax revenue are not presented.

Answer:

a. Yes, individual sources of non-tax revenue accounting for all non-tax revenue are presented.

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
11. Does the Executive's Budget Proposal or any supporting budget documentation present revenue estimates by category (such as tax and non-tax) for a multi-year period (at least two-years beyond the budget year)?

GUIDELINES:
Question 11 evaluates whether revenue estimates are presented for a multi-year period (at least two years beyond the budget year) by "category," that is, whether tax and non-tax sources of revenue are shown separately.

To answer "a," the Executive's Budget Proposal or its supporting documentation must present multi-year estimates of revenues classified by category for at least two years following the budget year in question.

Answer:
b. No, multi-year estimates of revenue are not presented by category.

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
Multiyear estimates are not provided (estimates available for the fiscal year in question).

12. Does the Executive's Budget Proposal or any supporting budget documentation present estimates for individual sources of revenue presented for a multi-year period (at least two-years beyond the budget year)?

GUIDELINES:
Question 12 evaluates whether revenue estimates for individual sources of revenue are presented for a multi-year period (at least two years beyond the budget year). The question applies to both tax and non-tax revenue.

To answer "a," the Executive's Budget Proposal or its supporting documentation must present multi-year estimates of all sources of revenue individually, accounting for all revenue, and "other" or "miscellaneous" revenue must account for three percent or less of all revenue. To answer "b," the Executive's Budget Proposal or its supporting documentation must present multi-year estimates of individual sources of revenue that when combined account for at least two-thirds of all revenue, but not all revenue. A "c" answer applies if the Executive's Budget Proposal or its supporting documentation presents multi-year estimates of individual revenue sources that account for less than two-thirds of revenue. Answer "d" applies if individual sources of revenue are not presented for a multi-year period.

Comments: The Medium Term Budget Plan or Green Paper highlights the Fiscal Framework which indicates the tentative revenue position i.e., tax and non tax, over a three (3) year rolling basis.
Question 13 asks about three key estimates related to borrowing and debt that the budget should include:

- the amount of net new borrowing required during the entire budget year;
- the central government’s total debt burden at the end of the budget year; and
- the interest payments on the outstanding debt for the entire budget year.

Debt is the accumulated amount of money that the government borrows. The government can borrow from its citizens and banks and businesses within the country (domestic debt) or from creditors outside the country (external debt). External debt is typically owed to private commercial banks, other governments, or international financial institutions such as the World Bank and the IMF.

Net new borrowing is the additional amount of new borrowing that is required for the budget year to finance expenditures in the budget that exceed available revenues. Net new borrowing adds to the accumulated debt. It is distinct from gross borrowing, which also includes borrowing needed to repay existing debt that matured during the budget year; debt that is replaced (or rolled over) does not add to the total of accumulated debt. For the purposes of this question, the deficit may be accepted as a proxy for net new borrowing.

Interest payments on the debt (or debt service costs) are typically made at regular intervals, and these payments must be made on a timely basis in order to avoid defaulting on the debt obligation. Interest payments are separate from the repayment of principal, which occurs only when the loan has matured and must be paid back in full.

To answer "a," the Executive’s Budget Proposal or its supporting documentation must present all three estimates of borrowing and debt. For a "b" answer, the Executive’s Budget Proposal or its supporting documentation must present two of those three estimates. For a "c" answer, the Executive’s Budget Proposal or its supporting documentation must present one of the three estimates. Answer "d" applies if no information on borrowing and debt is presented for the entire budget year.
billion will be financing in accordance with the Annual Borrowing Plan

Total debt outstanding at end of 2021: Provided (end December 2021) with additional information on page 6 external debt as of end-June 2022, and end-August 2022 for domestic debt.

Interest payments during 2023: page 49 in partiality as it a combined estimate of principal and interest payments

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer:
a. Yes, all three estimates related to government borrowing and debt are presented.

Comments: Supporting documents such as the Annual Borrowing Plan which is presented in a similar timeframe as the budget has this information.

IBP Comment
IBP agrees with the researcher's response.

13b. Based on the response to Question 13, check the box(es) below to identify which estimates of government borrowing and debt are presented in the Executive’s Budget Proposal:

Answer:
The amount of net new borrowing required during the budget year
The interest payments on outstanding debt for the budget year

Source:

Comment:

Peer Reviewer
Opinion: I choose not to review this question

Government Reviewer
Opinion: Disagree
Suggested Answer: All items are included as you will find central government debt under the 'Debt Position' section of the budget speech.

14. "Does the Executive’s Budget Proposal or any supporting budget documentation present information related to the composition of the total debt outstanding at the end of the budget year?"

(The core information must include interest rates on the debt instruments; maturity profile of the debt; and whether it is domestic or external debt.)"

GUIDELINES:

Question 14 focuses on the composition of government debt at the end of the budget year, asking whether "core" information related to its composition is presented. These core components include:

- interest rates on the debt;
- maturity profile of the debt; and
- whether the debt is domestic or external.

The interest rates affect the amount of interest that must be paid to creditors. The maturity profile indicates the final payment date of the loan, at which point
the principal (and all remaining interest) is due to be paid; government borrowing typically includes a mix of short-term and long-term debt. As discussed in Question 13, domestic debt is held by a country’s citizens, banks, and businesses, while external debt is held by foreigners. These factors related to the composition of the debt give an indication of the potential vulnerability of the country’s debt position, and ultimately whether the cost of servicing the accumulated debt is affordable.

Beyond these core elements, a government may also provide additional information related to the composition of its debt, including for instance: whether interest rates are fixed or variable; whether debt is callable; the currency of the debt; a profile of the creditors (bilateral institutions, multilateral institutions, commercial banks, Central Bank, etc.); an analysis of the risk associated with the debt; and where appropriate, what the debt is being used to finance.

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present all of the core information related to the composition of government debt at the end of the budget year as well as some additional information beyond the core elements. To answer “b,” the Executive’s Budget Proposal or supporting documentation must present all of the core components noted above. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to the composition of government debt is presented, but some of the core pieces of information are not included. Answer “d” applies if no information is presented on the composition of the debt outstanding at the end of the budget year.

Answer:

b. Yes, the core information is presented for the composition of the total debt outstanding.

c. Yes, information is presented for the composition of the total debt outstanding, but it excludes some core elements.

Source:

Comment:

EBP does not present the information on debt composition as at the end of the budget year in question. Neither does it provide information on maturity profile nor interest rates. It does however state in summary whether the debt is domestic or external (pg 43)

The Annual borrowing plan does provide the core information of the debt instruments and borrowing terms. These are in broad indicative terms for the loans to the be contracted in the year 2023. However it still meets what is classified as core information although broad terms (total debt outstanding presented separately as external and domestic).

Peer Reviewer

Opinion: I choose not to review this question

Government Reviewer

Opinion: Disagree
Suggested Answer:
b. Yes, the core information is presented for the composition of the total debt outstanding.
Comments: The EBP is presented with the Annual Borrowing Plan which has core information related to the nation’s debt position. Link: https://www.mofnp.gov.zm/?page_id=4864

IBP Comment

IBP notes the government’s response but agrees with The researcher’s choice “c”

14b. Based on the response to Question 14, check the box(es) to identify which elements of the composition of the total debt outstanding are are presented in the Executive’s Budget Proposal:

Answer:

Whether the debt is domestic or external

Source:

Comment:

Consolidated information is provided in the EBP.
15. "Does the Executive’s Budget Proposal or any supporting budget documentation present information on the macroeconomic forecast upon which the budget projections are based?"

(The core information must include a discussion of the economic outlook with estimates of nominal GDP level, inflation rate, real GDP growth, and interest rates.)

GUIDELINES:
Question 15 focuses on the macroeconomic forecast that underlies the budget’s revenue and expenditure estimates, asking whether “core” information related to the economic assumptions is presented. These core components include a discussion of the economic outlook as well as estimates of the following:

- nominal GDP level;
- inflation rate;
- real GDP growth; and
- interest rates.

While the core macroeconomic information should be a standard feature of the Executive’s Budget Proposal, the importance of some types of macroeconomic assumptions may vary from country to country. For example, the budget estimates of some countries are particularly affected by changes in the price of oil and other commodities.

Beyond these core elements, some governments also provide additional information related to the economic outlook, including for instance: short and long-term interest rates; rate of employment and unemployment; GDP deflator; price of oil and other commodities; current account; exchange rate; and composition of GDP growth.

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present all of the core information related to the macroeconomic forecast as well as some additional information beyond the core elements. To answer “b,” the Executive’s Budget Proposal or supporting documentation must present all of the core components noted above. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to the macroeconomic forecast is presented, but some of the core pieces of information are not included. Answer “d” applies if no information on the macroeconomic forecast is presented.

Answer:
c. Yes, information is presented, but it excludes some core elements.

interest rates: Not presented

**Peer Reviewer**
Opinion: Agree

**Government Reviewer**
Opinion: Agree
Comments: Additional information on macroeconomic indicators is clearly highlighted in supporting budget documents such as the Green Paper.

16. *Does the Executive’s Budget Proposal or any supporting budget documentation show the impact of different macroeconomic assumptions (i.e., sensitivity analysis) on the budget?*

(The core information must include estimates of the impact on expenditures, revenue, and debt of different assumptions for the inflation rate, real GDP growth, and interest rates.)*

**GUIDELINES:**

Question 16 focuses on the issue of whether the Executive’s Budget Proposal shows how different macroeconomic assumptions affect the budget estimates (known as a “sensitivity analysis”). It asks whether “core” information related to a sensitivity analysis is presented, estimating the impact on expenditures, revenue, and debt of different assumptions for:

- inflation rate;
- real GDP growth; and
- interest rates.
A sensitivity analysis shows the effect on the budget of possible changes in some macroeconomic assumptions, and is important for understanding the impact of the economy on the budget; for instance, what would happen to revenue collections if GDP growth were slower than what is assumed in the budget proposal? Or what would happen to expenditure if inflation were higher than estimated? Or how will revenue be affected by a decrease in the price of oil?

As noted for Question 15, changes in certain macroeconomic assumptions, such as the price of oil and other commodities, can have a significant impact on the budget estimates. As a result, some sensitivity analyses may also examine the impact on the budget estimates of changes in assumptions such as the price of oil that are beyond the core elements of the inflation rate, real GDP growth, and interest rates.

For an example of how a sensitivity analysis may be presented in the Executive’s Budget Proposal, see the following:

- The United States in its 2021 Budget Analytical Perspectives includes a section titled Sensitivity of the Budget to Economic Assumptions along with a table that shows the impact of each economic scenario on revenues, spending, and the deficit. (see pages 16 – 17, https://www.govinfo.gov/content/pkg/BUDGET-2021-PER/pdf/BUDGET-2021-PER.pdf).

To answer "a," the Executive’s Budget Proposal or supporting documentation must present all of the core information related to a “sensitivity analysis” as well as some additional information beyond the core elements. To answer "b," the Executive’s Budget Proposal or supporting documentation must present all of the core components noted above. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if some information related to a "sensitivity analysis” is presented, but some of the core pieces of information are not included. Answer “d” applies if no information on “sensitivity analysis” is presented.

Answer:
d. No, information related to different macroeconomic assumptions is not presented.

Source:

Comment:
Information presenting different macroeconomic assumptions is not provided. Only projections are stated.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer:
c. Yes, information is presented, but it excludes some core elements.
Comments: The Annual Borrowing Plan has information on the impact debt assumptions with have on the fiscus. Additionally, supporting budget documents such as the Green Paper include a component on ‘Risks’ which highlight issues that may affect the macroeconomic assumptions e.g., climate change, fuel increments due to geopolitical tensions etc.

IBP Comment
The Green Paper suffices as a PBS, which is not publicly available. Therefore, it is not valid for review here. Researcher’s response is valid.

17. Does the Executive’s Budget Proposal or any supporting budget documentation present information for at least the budget year that shows how new policy proposals, as distinct from existing policies, affect expenditures?

GUIDELINES:
Questions 17 and 18 ask about new policy proposals in the budget. In any given year, most of the expenditures and revenues in the budget reflect the continuation of existing policies. However, much of the attention during the budget debate is focused on new proposals – whether they call for eliminating an existing program, introducing a new one, or changing an existing program at the margins. Typically, these new proposals are accompanied by an increase, a decrease, or a shift in expenditures or revenues. Because these changes may have different impacts on people’s lives, the budget proposal should present sufficient detail about new policies and their budgetary impact.
Question 17 asks about new expenditure policies, and Question 18 asks about new revenue policies. To answer "a," the Executive’s Budget Proposal or supporting documentation must present both estimates of how all new policy proposals affect expenditures (for Question 17) or revenues (for Question 18) and a narrative discussion of the impact of these new policies. To answer "b" for either question, the Executive’s Budget Proposal or supporting documentation must present estimates that show the impact of all new policy proposals, but no narrative discussion is included. A "c" response applies if the presentation includes only a narrative discussion of the impact of the new policies, or if it includes estimates that show the impact of only some, but not all, policy proposals (regardless of whether it also includes a narrative discussion). Answer "d" applies if no information is presented on the impact of new policy proposals.

Answer:

<table>

https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
EBP mentions some new policy proposals that would potential shift expenditure e.g. Comprehensive Agriculture Support Programme. However, this information is limited.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer: c. Yes, information that shows how some but not all new policy proposals affect expenditure is presented.
Comments: The EBP does note the impact an adjustment in policy will have on the fiscus e.g., an adjustment in the farming inputs policy will see a corresponding adjustment in the allocation towards the policy.

IBP Comment
IBP agrees with researcher’s response.

18. Does the Executive’s Budget Proposal or any supporting budget documentation present information for at least the budget year that shows how new policy proposals, as distinct from existing policies, affect revenues?

GUIDELINES:
Questions 17 and 18 ask about new policy proposals in the budget. In any given year, most of the expenditures and revenues in the budget reflect the continuation of existing policies. However, much of the attention during the budget debate is focused on new proposals – whether they call for eliminating an existing program, introducing a new one, or changing an existing program at the margins. Typically, these new proposals are accompanied by an increase, a decrease, or a shift in expenditures or revenues. Because these changes may have different impacts on people’s lives, the budget proposal should present sufficient detail about new policies and their budgetary impact.

Question 17 asks about new expenditure policies, and Question 18 asks about new revenue policies. To answer "a," the Executive’s Budget Proposal or supporting documentation must present both estimates of how all new policy proposals affect expenditures (for Question 17) or revenues (for Question 18) and a narrative discussion of the impact of these new policies. To answer "b" for either question, the Executive’s Budget Proposal or supporting documentation must present estimates that show the impact of all new policy proposals, but no narrative discussion is included. A "c" response applies if the presentation includes only a narrative discussion of the impact of the new policies, or if it includes estimates that show the impact of only some, but not all, policy proposals (regardless of whether it also includes a narrative discussion). Answer "d" applies if no information is presented on the impact of new policy proposals.

Prior-year information constitutes an important benchmark for assessing the proposals for the upcoming budget year. Estimates of prior years should be presented in the same formats (in terms of classification) as the budget year to ensure that year-to-year comparisons are meaningful. For example, if the budget proposes shifting responsibility for a particular program from one administrative unit to another — such as shifting responsibility for the training of nurses from the health department to the education department — the prior-year figures must be adjusted before year-to-year comparisons of administrative budgets can be made.

Typically, when the budget proposal is submitted, the year prior to the budget year (BY-1), also known as the current year, has not ended, so the executive will provide estimates of the anticipated outcome for BY-1. The soundness of these estimates is directly related to the degree to which they have been updated to
reflect actual expenditures to date, legislative changes that have occurred, and anticipated changes in macroeconomic, caseload, and other relevant factors for the remainder of the year.

The first year that can reflect actual outcomes, therefore, is generally two years before the budget year (BY-2). Thus the OECD recommends that data covering at least two years before the budget year (along with two years of projections beyond the budget year) are provided in order to assess fully the trends in the budget.

**Answer:**
c. Yes, information that shows how some but not all new policy proposals affect revenues are presented.

**Source:**
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

**Comment:**
The EBP does provide some limited information for example on Pg 50/51 with some revenue losses declared in paragraph 227. Discussion are not in depth on exactly how this will affect revenue.

**19. Does the Executive’s Budget Proposal or any supporting budget documentation present expenditures for the year preceding the budget year (BY-1) by any of the three expenditure classifications (by administrative, economic, or functional classification)?**

**GUIDELINES:**
Question 19 asks if expenditure estimates for the year prior to the budget year (BY-1) are presented by one of the three expenditure classifications — by administrative, economic, and functional classifications. Each of the classifications answers a different question: administrative unit indicates who spends the money; functional classification shows for what purpose is the money spent; and economic classification displays what the money is spent on. (See Questions 1-5 above.)

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditure estimates for BY-1 by all three of the expenditure classifications. To answer “b,” expenditure estimates for BY-1 must be presented by two of these three classifications. A “c” answer applies if expenditure estimates for BY-1 are presented by one of the three classifications. Answer “d” applies if expenditure estimates for BY-1 are not presented by any of the three classifications.

**Answer:**
b. Yes, expenditure estimates for BY-1 are presented by two of the three expenditure classifications.

**Source:**

**Comment:**
Approved expenditure estimates for BY-1 are presented by Administrative and Economic classification.

**Peer Reviewer**
**Opinion:** Agree

**Government Reviewer**
**Opinion:** Agree
20. Does the Executive’s Budget Proposal or any supporting budget documentation present expenditures for individual programs for the year preceding the budget year (BY-1)?

GUIDELINES:
Question 20 asks if expenditure estimates for the year before the budget year (BY-1) are presented by program. There is no standard definition for the term “program,” and the meaning can vary from country to country. However, for the purposes of answering the questionnaire, researchers should understand the term “program” to mean any level of detail below an administrative unit, such as a ministry or department. For example, the Ministry of Health’s budget could be broken down into several subgroups, such as “primary health care,” “hospitals,” or “administration.” These subgroups should be considered programs even if they could be, but are not, broken down into smaller, more detailed units.

A note for francophone countries: “Program” level detail is sometimes referred to as le plan comptable or le plan comptable detailé. (These data are typically coded in the financial management database, following the chart of budgetary accounts, so that they can be organized by administrative and functional classification.)

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditures for all individual programs, accounting for all expenditures, for BY-1. To answer “b,” the programs shown individually in the Executive’s Budget Proposal or its supporting documentation must account for at least two-thirds of all expenditures for BY-1. A “c” answer applies if the Executive’s Budget Proposal or its supporting documentation presents programs that account for only less than two-thirds of expenditures. Answer “d” applies if expenditures are not presented by program.

Answer:
b. Yes, programs accounting for at least two-thirds of, but not all, expenditures are presented for BY-1.

Source:

Comment:
The 2023 OBB presents expenditures for majority of programmes by BY-1. In cases where 2022 estimates are unavailable it is necessary are a result of omission but circumstance; i.e the Emoluments Commission (pg 305) was established in 2022 and therefore only operationalised later in the year.

21. In the Executive’s Budget Proposal or any supporting budget documentation, have expenditure estimates of the year prior to the budget year (BY-1) been updated from the original enacted levels to reflect actual expenditures?

GUIDELINES:
Question 21 asks whether the expenditure estimates for the year before the budget year (BY-1) have been updated from the original enacted levels. Updates can reflect actual experience to date; revised estimates due to shifting of funds by the executive, as permitted under the law; enactment of supplemental budgets; and revised assumptions regarding macroeconomic conditions, caseload, and other relevant factors for the remainder of the year.

Answer “a” applies if the estimates have been updated; answer “b” applies if the original estimates are still being used.

Answer:
b. No, expenditure estimates for BY-1 have not been updated from the original enacted levels.

Source:

Comment:
Most expenditure estimates relating to BY-1 are that of approved expenditures and not actuals.
22. Does the Executive’s Budget Proposal or any supporting budget documentation present estimates of expenditure for more than one year prior to the budget year (that is, BY-2 and prior years) by any of the three expenditure classifications (by administrative, economic, or functional classification)?

GUIDELINES:
Question 22 asks if expenditure estimates for more than one year prior to the budget year (BY-2 and prior years) are presented by any of the three expenditure classifications – by administrative, economic, and functional classifications. Each of the classifications answers a different question: administrative unit indicates who spends the money; functional classification shows for what purpose is the money spent; and economic classification displays what the money is spent on. (See Questions 1-5 above.)

To answer “a,” the Executive’s Budget Proposal or its supporting documentation must present expenditure estimates for BY-2 and prior years by all three of the expenditure classifications. To answer “b,” expenditure estimates for BY-2 and prior years must be presented by two of these three classifications. A “c” answer applies if expenditure estimates for BY-2 and prior years are presented by one of the three classifications. Answer “d” applies if expenditure estimates for BY-2 and prior years are not presented by any of the three classifications.

Answer “d” applies if expenditures are not presented by program.

**Answer:**

b. Yes, programs accounting for at least two-thirds of, but not all, expenditures are presented for BY-2 and prior years.

**Source:**

**Comment:**
Subprogramme estimates for the majority are provided for the period relating to BY-2.

---

24. In the Executive’s Budget Proposal or any supporting budget documentation, what is the most recent year presented for which all expenditures reflect actual outcomes?

**GUIDELINES:**
Question 24 asks for which year the actual outcomes for expenditures are shown. In most cases, the most recent year for which budget data on actual outcomes are available will be BY-2, as BY-1 is generally not yet finished when the budget proposal is drafted. So a government that has updated all its expenditure data for BY-2 to reflect what actually occurred, as opposed to estimating the outcome for that year, shows good public financial management practice.

For an “a” answer, a country must meet the good practice of having the figures for BY-2 reflect actual outcomes.

**Answer:**

d. No actual data for all expenditures are presented in the budget or supporting budget documentation.
25. Does the Executive's Budget Proposal or any supporting budget documentation present revenue by category (such as tax and non-tax) for the year preceding the budget year (BY-1)?

**GUIDELINES:**
Questions 25 through 30 cover the same topics about prior-year information as the previous six questions, only they ask about information provided for revenues rather than expenditures.

**Answer:**
a. Yes, revenue estimates for BY-1 are presented by category.

**Opinion:** Agree
31. "Does the Executive's Budget Proposal or any supporting budget documentation present information on government borrowing and debt, including its composition, for the year preceding the budget year (BY-1)?

(The core information must include the total debt outstanding at the end of BY-1; the amount of net new borrowing required during BY-1; interest payments on the debt; interest rates on the debt instruments; maturity profile of the debt; and whether it is domestic or external debt.)"

GUIDELINES:

Question 31 focuses on prior-year debt information, rather than on prior-year expenditures or revenues, asking whether "core" information is provided on government borrowing and debt, including its composition, for the year preceding the budget year (BY-1).

The "core" information includes:

- total debt outstanding at the end of BY-1;
- amount of net new borrowing required during BY-1;
- interest payments on the debt;
- interest rates on the debt instruments;
- maturity profile of the debt; and
- whether it is domestic or external debt.

This core information for BY-1 is consistent with the budget year information for borrowing and debt, which is examined in Questions 13 and 14. Please note that for the purposes of this question, the deficit may be accepted as a proxy for net new borrowing.

In addition, some governments provide information beyond the core elements, such as gross new borrowing required during BY-1; currency of the debt; whether the debt carries a fixed or variable interest rate; whether it is callable; a profile of the creditors (bilateral institutions, multilateral institutions, commercial banks, Central Bank, etc.); where appropriate, what the debt is being used to finance.

To answer "a," the Executive's Budget Proposal or supporting documentation must present all of the core information related to government borrowing and debt, including its composition, for BY-1 as well as some additional information beyond the core elements. To answer "b," the Executive's Budget Proposal or supporting documentation must present all of the core components noted above. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if some information related to government borrowing and debt, including its composition, but some of the core pieces of information are not included. Answer "d" applies if no information is presented on government borrowing and debt for BY-1.

Answer:

c. Yes, information is presented, but it excludes some core elements.

Comment:

total debt outstanding at the end of BY-1; Not presented as information on external debt is as at end-June 2022 and end August 2022 for domestic debt (full year provided for BY-2 2021 as at December).

amount of net new borrowing required during BY-1; Not presented however yellow book provides estimates of domestic and external borrowing in BY-1 on xxxvi

interest payments on the debt; not presented as 2023 OBB presents a consolidated figure (pg 972) for External Debt Service Sub-programme to cater for interest and principal repayments on debt obligations

interest rates on the debt instruments; not presented

maturity profile of the debt; not presented

domestic or external debt: presented (pg 972 2023 OBB)

Peer Reviewer

Opinion: Agree
Government Reviewer
Opinion: Disagree
Suggested Answer:
   b. Yes, the core information is presented for government debt.
Comments: The EBP is presented with the Annual Borrowing Plan in line with the Public Debt Management Act No. 15 of 2022 which provides core information on government debt.

IBP Comment
IBP agrees with the researcher’s response.

32. In the Executive’s Budget Proposal or any supporting budget documentation, what is the most recent year presented for which the debt figures reflect actual outcomes?

GUIDELINES:
Question 32 asks for which year the actual outcome for total debt outstanding is shown. In most cases, the most recent year for which budget data on actual outcomes are available will be BY-2, as BY-1 is generally not yet finished when the budget proposal is drafted. So a government that has updated its debt data for BY-2 to reflect what actually occurred, as opposed to estimating the outcome for that year, shows good public financial management practice.

For an “a” answer, a country must meet the good practice of having the figures for BY-2 reflect actual outcomes.

It is essential that all government activities that may have an impact on the budget — in the current budget year or in future budget years — be fully disclosed to the legislature and the public in budget documents. In some countries, for instance, entities outside central government (such as public corporations) undertake fiscal activities that could affect current and future budgets. Similarly, activities that can have a significant impact on the budget, such as payment arrears and contingent liabilities, sometimes are not properly captured by the regular presentations of expenditure, revenue, and debt.

Answer:
a. Two years prior to the budget year (BY-2).

33. "Does the Executive’s Budget Proposal or any supporting budget documentation present information on extra-budgetary funds for at least the budget year?"
(The core information must include a statement of purpose or policy rationale for the extra-budgetary fund; and complete income, expenditure, and financing data on a gross basis.)"

GUIDELINES:
Question 33 focuses on extra-budgetary funds, asking whether “core” information related to these funds, which exist outside the budget, are presented. These core components include:

- a statement of purpose or policy rationale for the extra-budgetary fund (i.e., why was a particular fund set up? what is it used for?); and
- estimates of its income, expenditure, and financing. (These estimates should be presented on a gross basis so that it is possible to tell how much money flows through each extra-budgetary fund.)
In most countries, governments engage in certain budgetary activities that are not included in the central government’s budget. Known as extra-budgetary funds, they can range in size and scope. For example, countries frequently set up pension and social security programs as extra-budgetary funds, where the revenues collected and the benefits paid are recorded in a separate fund outside the budget. Another example of an extra-budgetary fund can be found in countries dependent on hydrocarbon/mineral resources, where revenues from producing and selling those resources are channeled through systems outside the annual budget.

In some cases, the separation engendered by an extra-budgetary fund serves a legitimate political purpose, and the finances and activities of these funds are well documented. In other cases, however, this structure is used for obfuscation, and little or nothing is known about a fund’s finances and activities.

The availability of information related to extra-budgetary funds is essential for a comprehensive understanding of the government’s true fiscal position. In addition to the core information, other information about extra-budgetary funds is also desirable. Such information includes a discussion of the risks associated with the extra-budgetary fund; expenditures classified by economic, functional, or administrative unit; and the rules and procedures that govern the operations and management of the extra-budgetary fund.

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present all of the core information related to extra-budgetary funds as well as some additional information beyond the core elements. A “b” answer applies if the Executive’s Budget Proposal or supporting documentation presents all of the core information. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to extra-budgetary funds is presented, but some of the core pieces of information are not included. Answer “d” applies if no information is presented on extra-budgetary funds.

Please provide in the comments a list of all known extra-budgetary funds.

Answer:
- d. No, information related to extra-budgetary funds is not presented.

34. Does the Executive’s Budget Proposal or any supporting budget documentation present central government finances (both budgetary and extra-budgetary) on a consolidated basis for at least the budget year?

GUIDELINES:
Question 34 asks whether the Executive’s Budget Proposal or supporting documents present the finances of the central government on a consolidated basis, showing both its budgetary and extra-budgetary activities. Virtually all of the questions in the OBS questionnaire focus on budgetary central government — the activities of the ministries, departments, or agencies of central government. In addition, Question 33 asks about extra-budgetary funds, such as social security funds that are not included in the budget.

Coverage is an important aspect of fiscal reporting. Budget documents should cover the full scope of government’s financial activity. In many countries, extra-budgetary activities are substantial, and can represent a sizable share of the central government’s activities. To get a full picture of the central government’s finances, therefore, it is necessary to examine both activities that are included in the budget and those that are extra-budgetary. This question asks whether such a consolidated presentation of central government finances, including both revenues and expenditures, is provided.

The central government is only one component of the overall public sector. The public sector also includes other levels of government, such as state and local government, and public corporations. (See Box 2.1 under Principle 1.1.1 of the IMF’s Fiscal Transparency Handbook (2018): https://www.elibrary.imf.org/view/IMF069/24788-9781484331859/24788-9781484331859.xml) For the purpose of answering this question, please consider only the central government level.
In order to answer “a,” the Executive’s Budget Proposal or supporting documentation must present central government finances (both budgetary and extra-budgetary) on a consolidated basis for at least the budget year.

**Answer:**

b. No, central government finances are not presented on a consolidated basis.

**Source:**

**Comment:**
Extra budgetary information is not presented in any publicly available document. The public financial management handbook on page 240 however guides that where the use of extra-budgeted operations are necessary, for example in connection with off-budget state entities (e.g. the electricity corporation), financial statements from these form part of the financial information flow to Parliament.

Additional guidelines include;

1. that the use of extra budgetary transactions is inconsistent with effective public financial management and principles of comprehensiveness and transparency in budgeting and budget implementation.
2. The annual budget and the financial reports produced by the Ministry of Finance provide Parliament with an accurate picture of the financial position of the country, the use of extrabudgetary funds and transactions should be kept at a minimum.

**Peer Reviewer**
**Opinion:** Agree

**Government Reviewer**
**Opinion:** Agree
**Comments:** It should be noted that there is a component of intergovernmental transfers to local authorities as is the case with the Constituency Development Fund (CDF).

---

**35. Does the Executive’s Budget Proposal or any supporting budget documentation present estimates of intergovernmental transfers for at least the budget year?**

**GUIDELINES:**
Question 35 asks about intergovernmental transfers. In many cases, the central government supports the provision of a good or service by a lower level of government through an intergovernmental transfer of funds. This is necessary because, independent from the level of administrative decentralization that exists in a given country, the capacity for revenue collection of a local government is unlikely to be sufficient to pay for all its expenses. However, because the activity is not being undertaken by an administrative unit of the central government, it is unlikely to receive the same level of review in the budget. Thus it is important to include in the budget proposal a statement that explicitly indicates the amount and purposes of these transfers.

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present for at least the budget year both estimates covering all intergovernmental transfers and a narrative discussing these transfers. If a narrative discussion is not included, but estimates for all intergovernmental transfers are presented, then a “b” answer is appropriate. A “c” response applies if the presentation includes estimates covering only some, but not all, intergovernmental transfers (regardless of whether it also includes a narrative discussion). Answer “d” applies if no estimates of intergovernmental transfers are presented.

**Answer:**

a. Yes, estimates of all intergovernmental transfers are presented, along with a narrative discussion.

**Source:**
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

**Comment:**
The 2023 EBP does not display estimates of intergovernmental transfers.
36. Does the Executive’s Budget Proposal or any supporting budget documentation present alternative displays of expenditures (such as by gender, by age, by income, or by region) to illustrate the financial impact of budget policies on different groups of citizens, for at least the budget year?

GUIDELINES:
Question 36 asks about “alternative displays” of expenditures that highlight the financial impact of policies on different groups of citizens. As discussed above, expenditures are typically presented by at least one of three classifications – administrative, functional, and economic classifications (see Questions 1-5) – and by individual program (Question 6). In addition, governments can provide alternative displays to emphasize different aspects of expenditure policies and to show who benefits from these expenditures.

For the purpose of answering this question, the alternative presentation must differ from the presentations (such as administrative, functional, or economic classifications or presentation by program) used to answer other questions. The alternative display can cover all expenditures or only a portion of expenditures. For instance, it can show how all expenditures are distributed according to geographic region or it can show how selected expenditures (such as the health budget or the agriculture budget) are distributed to different regions. But such a geographic display must be something different than the presentation of intergovernmental transfers used to answer question 35. One exception is when a country includes a special presentation of all policies intended to benefit the most impoverished populations (and is used to answer Question 52) then that can be considered an alternative display for purposes of answering this question as well. Finally, brief fact sheets showing how proposals in the budget benefit particular groups would be insufficient; only more detailed presentations would be considered.

The IBP Budget Brief, “How Transparent are Governments When it Comes to Their Budget’s Impact on Poverty and Inequality?” (https://www.internationalbudget.org/wp-content/uploads/government-transparency-of-budgets-impact-on-poverty-inequality-ibp-2019.pdf) includes a discussion of the importance of alternative displays of budget information and provides a number of examples. For instance,

- Bangladesh in its 2017-18 Budget included a detailed supplementary Gender Budgeting Report, which presents the spending dedicated to advancing women across various departments. (https://mof.portal.gov.bd/site/page/3bb14732-b5b1-44df-9921-efedf1496295)
- The UK’s 2017 budget included a supplementary analysis that provided a distributional analysis of the budget by households in different income groups (see https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/661465/distributional_analysis_autumn_budget_2017.pdf)
- South Africa’s 2017 Budget Review goes beyond the standard presentation of intergovernmental transfers, discussing the redistribution that results from national revenue flowing to the provinces and municipalities and presenting the allocations on a per capita basis (see chapter 6, http://www.treasury.gov.za/documents/national%20budget/2017/review/FullBR.pdf).

To answer “a,” the Executive’s Budget Proposal or supporting documentation must include at least three different presentations that illustrate the financial impact of policies on different groups of citizens for at least the budget year. To answer “b,” the Executive’s Budget Proposal or supporting documentation must include at least two different alternative displays of expenditures. A “c” applies if only one type of alternative display of expenditure is presented. Answer “d” applies if no alternative display of expenditure is presented.

Answer:
c. Yes, one alternative display of expenditures is presented to illustrate the financial impact of policies on different groups of citizens.

Source:
Comment:
Budget speech and OBB show intentions to improve livelihoods for targeted groupings through social protection, pensions (reducing waiting times to receive benefits in paragraph 144 of the budget speech) among others. In regions the OBB displays targeted programmes like skills development relevant to the region.

Peer Reviewer
Opinion: Agree
Comments: Mention in Budget speech in passing would not be enough alone to justify a «c». The researchers say that «in regions» the OBB displays targeted programmes but is the «regions» information presented here? I wonder about the message presented in red on top of this form?

Government Reviewer
Opinion: Agree

36b. Based on the response to Question 36, select the box(es) below to identify which types of alternative displays are included in the Executive’s Budget Proposal:

Answer:
Other alternative displays of expenditure (please specify)

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
social protection components target vulnerable groups such as women and children

Peer Reviewer
Opinion: Agree
Comments: Ok although mention in the Budget speech can hardly be called an «alternative display»

Government Reviewer
Opinion: Disagree
Suggested Answer: Impact of budget policies on climate change should also be included because there are expenditure and revenue measures on environmental protections in the EBP. Additionally, climate change is cross cutting, as its impact is often indirect e.g., water and sanitation has components of climate change adaptation and mitigation through reduced impacts of droughts on communities etc.,

IBP Comment
IBP notes the government’s response but agrees with the researcher’s choice.

37. Does the Executive’s Budget Proposal or any supporting budget documentation present estimates of transfers to public corporations for at least the budget year?

GUIDELINES:

Question 37 asks about transfers to public corporations. It is often the case that governments have a stake in enterprises that manage resources that are particularly relevant for the public good (such as electricity, water, and oil). While these public corporations can operate independently, in some cases the government will provide direct support by making transfers to these corporations, including to subsidize capital investment and operating expenses.
38. Does the Executive's Budget Proposal or any supporting budget documentation present information on quasi-fiscal activities for at least the budget year?

(The core information must include a statement of purpose or policy rationale for the quasi-fiscal activity and the intended beneficiaries.)

GUIDELINES:
Question 38 focuses on quasi-fiscal activities, asking whether "core" information related to such activities is presented. These core components include:

- A statement of purpose or policy rationale for the quasi-fiscal activity (i.e., what is the reason for engaging in this activity?);
- The identification of intended beneficiaries of the quasi-fiscal activity.

The term "quasi-fiscal activities" refers to a broad range of activities that are fiscal in character and could be carried out through the regular budget process but are not. For example, a quasi-fiscal activity could take place if, instead of providing a direct subsidy through the budget for a particular activity, a public financial institution provides an indirect subsidy by offering loans at below-market rates for that activity. Similarly, it is a quasi-fiscal activity when an enterprise provides goods or services at prices below commercial rates to certain individuals or groups to support the government's policy goals.

The above examples are policy choices that may be approved by the government and legislature. However, quasi-fiscal activities can also involve activities that violate or circumvent a country's budget process laws or are not subject to the regular legislative approval process for expenditures. For example, the executive may issue an informal order to a government entity, such as a public commercial enterprise, to provide the executive with goods and services that normally would have to be purchased with funding authorized by the legislature. All quasi-fiscal activities should be disclosed to the public and subject to public scrutiny.

Beyond the core information, some governments may also provide other information about quasi-fiscal activities, including for example: the anticipated duration of the quasi-fiscal activity; a quantification of the activity and the assumptions that support these estimates; and a discussion of the fiscal significance and potential risks associated with the activity, including the impact on the entity carrying out the activity. Principle 3.3.2 of the IMF’s Fiscal Transparency Handbook (2018) ([https://www.elibrary.imf.org/view/IMF069/24788-9781484331859/24788-9781484331859/24788-9781484331859.xml](https://www.elibrary.imf.org/view/IMF069/24788-9781484331859/24788-9781484331859/24788-9781484331859.xml)) provides examples of quasi-fiscal activities that can be consulted as needed. And more details on quasi-fiscal activities can be found in the Guide to Transparency in Public Finances: Looking Beyond the Core Budget ([http://internationalbudget.org/wp-content/uploads/Looking-Beyond-the-Budget.pdf](http://internationalbudget.org/wp-content/uploads/Looking-Beyond-the-Budget.pdf)).

To answer "a," the Executive's Budget Proposal or supporting documentation must present all of the core information related to all quasi-fiscal activities for at least the budget year as well as some additional information beyond the core elements. To answer "b," the Executive's Budget Proposal or supporting documentation must present all of the core components noted above. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if some information related to quasi-fiscal activities is presented, but some of the core pieces of information are not included. Answer "d" applies if no information is presented on quasi-fiscal activities.
If quasi-fiscal activities do not represent a significant problem in your country, please mark "e." However, please exercise caution in answering this question.

**Answer:**

| d. No, information related to quasi-fiscal activities is not presented. |

**Source:**

**Comment:**

---

**Peer Reviewer**

**Opinion:** Agree

**Government Reviewer**

**Opinion:** Disagree

**Suggested Answer:**

c. Yes, information is presented, but it excludes some core elements or some quasi-fiscal activities.

**Comments:** There is often provision for quasi fiscal activities in the EBP and the Yellow Book i.e., OBB. For example, there is often an allocation in the budget for recapitalization of State-Owned Enterprises. However, the purpose is to assist them in becoming commercially viable as opposed to subsidizing them.

---

39. Does the Executive’s Budget Proposal or any supporting budget documentation present information on financial assets held by the government for at least the budget year?

(The core information must include a listing of the assets, and an estimate of their value.)

**GUIDELINES:**

Question 39 focuses on financial assets held by the government, asking whether "core" information related to these assets is presented. These core components include:

- A listing of the financial assets; and
- An estimate of their value.

Governments own financial assets such as cash, bonds, or equities. Unlike private sector businesses, however, few governments maintain balance sheets that show the value of their assets and liabilities.

Beyond the core information, some governments may also provide other information about financial assets, including for example: a discussion of their purpose; historical information on defaults; differences between reported values and market values; and a summary of financial assets as part of the government’s balance sheet.

To answer "a," the Executive’s Budget Proposal or supporting documentation must present for at least the budget year all of the core information related to all financial assets held by the government as well as some additional information beyond the core elements. To answer "b," the Executive’s Budget Proposal or supporting documentation must present all of the core components noted above. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if some information related to financial assets is presented, but some of the core pieces of information are not included. Answer "d" applies if no information is presented on financial assets held by the government.

**Answer:**

| d. No, information related to financial assets is not presented. |

**Source:**

**Comment:**

While pg 243 under the Loans and Investment MOFNP presents the allocation of resources to assets (some listed by name) to make them profitable. There is no listing of financial assets nor their estimate value.
40. Does the Executive’s Budget Proposal or any supporting budget documentation present information on nonfinancial assets held by the government for at least the budget year?

(The core information must include a listing of the assets by category.)

GUIDELINES:
Question 40 focuses on nonfinancial assets held by the government, asking whether “core” information related to these assets is presented. The core information is a listing of nonfinancial assets, grouped by the type (or category) of asset.

Nonfinancial assets are things of value that the government owns or controls (excluding financial assets) such as land, buildings, and machinery. The valuation of public nonfinancial assets can be problematic, particularly in cases where the asset is not typically available on the open market (such as a government monument). In these cases, it is considered acceptable to provide summary information in budget documents from a country’s register of assets. But, in some cases, governments are able to value their nonfinancial assets; some present a summary of nonfinancial assets as part of their balance sheets. For an example of how nonfinancial assets are presented in one of the many supporting documents to the New Zealand Executive’s Budget Proposal, see the Forecast Financial Statement 2011, Notes to the Financial Statements (Continued), Note 14, accessible here: https://treasury.govt.nz/sites/default/files/2011-05/befu11-pt6of8.pdf.

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present for at least the budget year a listing by category of all nonfinancial assets held by the government as well as some additional information beyond the core elements. To answer “b,” the Executive’s Budget Proposal or supporting documentation must present all of the core components noted above. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to nonfinancial assets is presented, but some nonfinancial assets are not included. Answer “d” applies if no information is presented on nonfinancial assets held by the government.

Answer:
d. No, information related to nonfinancial assets is not presented.

Source:

Comment:

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Agree

Comments: It should be noted that the Fiscal Framework present in the Green Paper highlights both financial and non-financial assets as general categories with some explicit expenditures.

41. Does the Executive’s Budget Proposal or any supporting budget documentation present estimates of expenditure arrears for at least the budget year?

GUIDELINES:
Question 41 asks about estimates of expenditure arrears, which arise when government has entered into a commitment to spend funds but has not made the payment when it is due. (For more information see sections 3.49-3.50 of the IMF’s GFS Manual 2001, http://www.imf.org/external/pubs/ft/gfs/manual/pdf/all.pdf (page 29)). Though equivalent to borrowing, this liability is often not recorded in the budget, making it difficult to assess fully a government’s financial position. Moreover, the obligation to repay this debt affects the government’s ability to pay for other activities.
To answer "a," the Executive’s Budget Proposal or supporting documentation must present for at least the budget year both estimates covering all expenditure arrears and a narrative discussing the arrears. If a narrative discussion is not included, but estimates for all expenditure arrears are presented, then a "b" answer is appropriate. A "c" response applies if the presentation includes estimates covering only some, but not all, expenditure arrears (regardless of whether it also includes a narrative discussion). Answer "d" applies if no estimates of expenditure arrears are presented. Answer "d" also applies if information is only available for the changes in arrears, and not the stock or balance of arrears.

If expenditure arrears do not represent a significant problem in your country, please mark "e." However, please exercise caution in answering this question. Public expenditure management laws and regulations often will allow for reasonable delays, perhaps 30 or 60 days, in the routine payment of invoices due. Expenditure arrears impacting a small percentage of expenditure that are due to contractual disputes should not be considered a significant problem for the purpose of answering this question.

Answer:

a. Yes, estimates of all expenditure arrears are presented, along with a narrative discussion.

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
Budget speech page 7 gives a narrative discussion and also provides a stock as at end December 2021 (page 7). Estimates of expenditure also in the OBB page 243 as dismantling of domestic arrears

42. Does the Executive’s Budget Proposal or any supporting budget documentation present information on contingent liabilities, such as government loan guarantees or insurance programs, for at least the budget year?

(The core information must include a statement of purpose or policy rationale for each contingent liability; the new guarantees or insurance commitments proposed for the budget year; and the total amount of outstanding guarantees or insurance commitments (the gross exposure) at the end of the budget year.)

GUIDELINES:

Question 42 focuses on contingent liabilities, asking whether "core" information related to these liabilities is presented. These core components include:

- a statement of purpose or policy rationale for each contingent liability;
- the new contingent liabilities for the budget year, such as new guarantees or insurance commitments proposed for the budget year; and
- the total amount of outstanding guarantees or insurance commitments at the end of the budget year. This reflects the gross exposure of the government in the case that all guarantees or commitments come due (even though that may be unlikely to occur).

Contingent liabilities are recognized under a cash accounting method only when the contingent event occurs and the payment is made. An example of such liabilities is the case of loans guaranteed by the central government, which can include loans to state-owned banks and other state-owned commercial enterprises, subnational governments, or private enterprises. Under such guarantees, government will only make a payment if the borrower defaults. Thus a key issue for making quantitative estimates of these liabilities is assessing the likelihood of the contingency occurring.

In the budget, according to the OECD, “[w]here feasible, the total amount of contingent liabilities should be disclosed and classified by major category reflecting their nature; historical information on defaults for each category should be disclosed where available. In cases where contingent liabilities cannot be quantified, they should be listed and described.”

Beyond the core information, some governments may also provide other information about contingent liabilities, including for example: historical default rates for each program; and likely default rates in the future; the maximum guarantee that is authorized by law; any special financing associated with the guarantee (e.g., whether fees are charged, whether a reserve fund exists for the purpose of paying off guarantees, etc.); the duration of each guarantee; and an estimate of the fiscal significance and potential risks associated with the guarantees.

For more details on contingent liabilities, see Guide to Transparency in Public Finances: Looking Beyond the Core Budget (http://internationalbudget.org/wp-
To answer "a," the Executive's Budget Proposal or supporting documentation must present for at least the budget year all of the core information related to contingent liabilities as well as some additional information beyond the core elements. To answer "b," the Executive's Budget Proposal or supporting documentation must present all of the core components noted above. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if some information related to contingent liabilities is presented, but some of the core pieces of information are not included. ### Question 43

Does the Executive's Budget Proposal or any supporting budget documentation present projections that assess the government's future liabilities and the sustainability of its finances over the longer term?

(The core information must cover a period of at least 10 years and include the macroeconomic and demographic assumptions used and a discussion of the fiscal implications and risks highlighted by the projections.)

**GUIDELINES:**

Question 43 focuses on government’s future liabilities and the sustainability of its finances over the longer term, asking whether "core" information related to these issues is presented. These core components must include:

- Projections that cover a period of at least 10 years.
- The macroeconomic and demographic assumptions used in making the projections.
- A discussion of the fiscal implications and risks highlighted by the projections.

Good public financial management calls for budgets to include fiscal sustainability analyses.

The IMF’s Fiscal Transparency Handbook (2018) recommends that governments regularly publish the projected evolution of the public finances over the longer term (see Principle 3.1.3.). Future liabilities are a particularly important element when assessing the sustainability of public finances over the long term. Future liabilities are the result of government commitments that, unlike contingent liabilities, are virtually certain to occur at some future point and result in an expenditure. A typical example consists of government obligations to pay pension benefits or cover health care costs of future retirees. Under a cash accounting system, only current payments associated with such obligations are recognized in the budget. To capture the future impact on the budget of these liabilities, a separate statement is required.

Beyond the core information, some governments may also provide other information about the sustainability of their finances, including for example: projections that cover 20 or 30 years; multiple scenarios with different sets of assumptions; assumptions about other factors (such as the depletion of natural resources) that go beyond just the core macroeconomic and demographic data; and a detailed presentation of particular programs that have long time horizons, such as civil service pensions.

To answer "a," the Executive’s Budget Proposal or supporting documentation must present all of the core information related to future liabilities and the sustainability of government finances over the longer term as well as some additional information beyond the core elements. To answer "b," the Executive’s Budget Proposal or supporting documentation must present all of the core components noted above. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if some information related to future liabilities is presented, but some of the core pieces of information are not included. Answer "d" applies if no information is presented on future liabilities and the sustainability of government’s finances.

---

**Answer:**

d. No, information related to future liabilities and the sustainability of finances over the longer term is not presented.

### 44. Does the Executive’s Budget Proposal or any supporting budget documentation present estimates of the sources of donor assistance, both financial and in-kind, for at least the budget year?

**GUIDELINES:**

Question 44 asks about estimates of donor assistance, both financial and in-kind assistance. Such assistance is considered non-tax revenue, and the sources of this assistance should be explicitly identified. In terms of in-kind assistance, the concern is primarily with the provision of goods (particularly those for which there is a market that would allow goods received as in-kind aid to be sold, thereby converting them into cash) rather than with in-kind aid like advisors from a donor country providing technical assistance.

To answer "a," the Executive’s Budget Proposal or supporting documentation must present for at least the budget year both estimates covering all donor assistance and a narrative discussing the assistance. If a narrative discussion is not included, but estimates for all donor assistance are presented, then a "b" answer is appropriate. A "c" response applies if the presentation includes estimates covering only some, but not all, donor assistance (regardless of whether it also includes a narrative discussion). Answer "c" also applies if the sources of donor assistance are not presented, but the total amount of donor assistance is presented as a single line item. Answer "d" applies if no estimates of donor assistance are presented. Select answer "e" if your country does not receive donor assistance.

---

**Answer:**

b. Yes, estimates of all sources of donor assistance are presented, but a narrative discussion is not included.

**Source:**

**Comment:**

Page xxxiv of the 2023 OBB provides sources of donor assistance in the budget year with (estimates in BY-1 and actuals in BY-2). No narrative discussion is presented.

45. Does the Executive’s Budget Proposal or any supporting budget documentation present information on tax expenditures for at least the budget year?

(The core information must include a statement of purpose or policy rationale for each tax expenditure, the intended beneficiaries, and an estimate of the revenue foregone.)

GUIDELINES:
Question 45 focuses on tax expenditures, asking whether “core” information related to these tax preferences is presented. These core components must include for both new and existing tax expenditures:

- a statement of purpose or policy rationale;
- a listing of the intended beneficiaries; and
- an estimate of the revenue foregone.

Tax expenditures arise as a result of exceptions or other preferences in the tax code provided for specified entities, individuals, or activities. Tax expenditures often have the same impact on public policy and budgets as providing direct subsidies, benefits, or goods and services. For example, encouraging a company to engage in more research through a special tax break can have the same effect as subsidizing it directly through the expenditure side of the budget, as it still constitutes a cost in terms of foregone revenues. However, expenditure items that require annual authorization are likely to receive more scrutiny than tax breaks that are a permanent feature of the tax code.

Beyond the core information, some governments may also provide other information about tax expenditures, including for example: the intended beneficiaries by sector and income class (distributional impact); a statement of the estimating assumptions, including the definition of the benchmark against which the foregone revenue is measured; and a discussion of tax expenditures as part of a general discussion of expenditures for those program areas that receive both types of government support (in order to better inform policy choices). For more details on tax expenditures, see Guide to Transparency in Public Finances: Looking Beyond the Core Budget (http://internationalbudget.org/wp-content/uploads/Looking-Beyond-the-Budget.pdf) and Principle 1.1.4 of the IMF’s Fiscal Transparency Handbook (2018) (https://www.elibrary.imf.org/view/IMF769/24788-9781484331859/24788-9781484331859/24788-9781484331859.xml).

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present, for at least the budget year, all of the core information related to tax expenditures as well as some additional information beyond the core elements. To answer “b,” the Executive’s Budget Proposal or supporting documentation must present all of the core components noted above. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to tax expenditures is presented, but some of the core pieces of information are not included. Answer “d” applies if no information is presented on tax expenditures.

Answer:

d. No, information related to tax expenditures is not presented.

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

Comment:
Limited information on some tax expenditure measures is provided i.e. direct tax measure to adjust non taxable threshold on the Pay As You Earn threshold which will increase disposable income for salaried households by K1.0 billion does not mention the revenue forgone.

46. Does the Executive’s Budget Proposal or any supporting budget documentation present estimates of earmarked revenues for at least the budget year?

GUIDELINES:
Question 46 asks about estimates of earmarked revenues, which are revenues that may only be used for a specific purpose (for example, revenues from a tax on fuel that can only be used for building roads). This information is important in determining which revenues are available to fund the government’s general expenses, and which revenues are reserved for particular purposes.
To answer “a,” the Executive’s Budget Proposal or supporting documentation must present for at least the budget year both estimates covering all individual earmarked revenues and a narrative discussing the earmarks. If a narrative discussion is not included, but estimates for all individual earmarked revenues are presented, then a “b” answer is appropriate. A “c” response applies if the presentation includes estimates covering only some, but not all, earmarked revenues (regardless of whether it also includes a narrative discussion). Answer “d” applies if no estimates of earmarked revenues are presented. An “e” response applies if revenue is not earmarked or the practice is disallowed by law or regulation.

Answer:
c. Yes, estimates of some but not all earmarked revenues are presented.

47. Does the Executive’s Budget Proposal or any supporting budget documentation present information on how the proposed budget (both new proposals and existing policies) is linked to government’s policy goals for the budget year?

GUIDELINES:
Questions 47 and 48 ask about information that shows how the budget (both new proposals and existing policies) is linked to the government’s policy goals. The budget is the executive’s main policy document, the culmination of the executive’s planning and budgeting processes. Therefore, it should include a clear description of the link between policy goals and the budget — that is, an explicit explanation of how the government’s policy goals are reflected in its budget choices. For an example of a discussion of a government’s policy goals in the budget, see pages 13-18 of New Zealand’s 2011 Statement of Intent (http://www.treasury.govt.nz/publications/abouttreasury/soi/2011-16), one of the many documents supporting its budget.

In some countries the government prepares strategic/development plans. These plans include all the policies the government is planning to implement for the budget year and very often cover a multi-year perspective. In some cases, these plans do not match the budget documentation, and it is possible that they are completely disconnected from the Executive’s Budget Proposal. So the question is examining whether government policy plans are “translated” into revenue and expenditure figures in the actual budget documents.

Question 47 asks about the information covering the budget year, and Question 48 asks about the period at least two years beyond the budget year. To answer “a,” the Executive’s Budget Proposal or supporting documentation must present both estimates of how the budget is linked to government’s policy goals for the budget year (for Question 47) or for a multi-year period beyond the budget year (for Question 48) and a narrative discussion of how these policy goals are reflected in the budget. To answer “b” for either question, the Executive’s Budget Proposal or supporting documentation must present estimates that show how the budget is linked to government’s policy goals, but no narrative discussion is included. A “c” response applies if the presentation includes only a narrative discussion, or if it includes estimates that show how the budget is linked to some, but not all, of the government’s policy goals (regardless of whether it also includes a narrative discussion). Answer “d” applies if no information is presented on how the budget is linked to government’s policy goals.

Answer:
c. Yes, information that shows how the proposed budget is linked to some but not all of the government’s policy goals for the budget year is presented.

Source:

Comment:
budget speech paragraph 42 and OBB also provides this linkage under each head 8NDP which gives governments development policy direction from 2022 to 2026
48. Does the Executive’s Budget Proposal or any supporting budget documentation present information on how the proposed budget (both new proposals and existing policies) is linked to government’s policy goals for a multi-year period (for at least two years beyond the budget year)?

GUIDELINES:
Questions 47 and 48 ask about information that shows how the budget (both new proposals and existing policies) is linked to the government’s policy goals. The budget is the executive’s main policy document, the culmination of the executive’s planning and budgeting processes. Therefore, it should include a clear description of the link between policy goals and the budget — that is, an explicit explanation of how the government’s policy goals are reflected in its budget choices. For an example of a discussion of a government’s policy goals in the budget, see pages 13-18 of New Zealand’s 2011 Statement of Intent (http://www.treasury.govt.nz/publications/abouttreasury/soi/2011-16), one of the many documents supporting its budget.

In some countries the government prepares strategic/development plans. These plans include all the policies the government is planning to implement for the budget year and very often cover a multi-year perspective. In some cases, these plans do not match the budget documentation, and it is possible that they are completely disconnected from the Executive’s Budget Proposal. So the question is examining whether government policy plans are “translated” into revenue and expenditure figures in the actual budget documents.

Question 47 asks about the information covering the budget year, and Question 48 asks about the period at least two years beyond the budget year. To answer “a,” the Executive’s Budget Proposal or supporting documentation must present both estimates of how the budget is linked to government’s policy goals for the budget year (for Question 47) or for a multi-year period beyond the budget year (for Question 48) and a narrative discussion of how these policy goals are reflected in the budget. To answer “b” for either question, the Executive’s Budget Proposal or supporting documentation must present estimates that show how the budget is linked to government’s policy goals, but no narrative discussion is included. A “c” response applies if the presentation includes only a narrative discussion, or if it includes estimates that show how the budget is linked to some, but not all, of the government’s policy goals (regardless of whether it also includes a narrative discussion). Answer “d” applies if no information is presented on how the budget is linked to government’s policy goals.

Answer:

d. No, information on the link between the budget and the government’s stated policy goals for a multi-year period is not presented.

Source:

Comment:
In looking at the cut off period of December 31st 2022, the process to develop the MTEF begun but did not make much progress. Noteworthy to mention that policy framework and objectives to be pursued during the 2023-2025 Medium-Term Budget Plan (MTBP) were presented to parliament in 2022.

49. Does the Executive’s Budget Proposal or any supporting budget documentation present nonfinancial data on inputs to be acquired for at least the budget year?

GUIDELINES:
Question 49 asks about the availability of nonfinancial data on inputs for the budget year. (Nonfinancial data on outputs and outcomes are addressed in Question 50.)

The budget should disclose not only the amount of money that is being allocated on a program but also any information needed to analyze that expenditure. Nonfinancial data and performance targets associated with budget proposals are used to assess the success of a given policy. For example, even when allocated funds are spent according to plan, there remains the question of whether the policy delivered the results that it aimed to achieve.

Nonfinancial data can include information on:

Inputs - These are the resources assigned to achieve results. For example, in regards to education, nonfinancial data on inputs could include the number of books to be provided to each school or the materials to be used to build or refurbish a school.

Outputs - These are products and services delivered as a result of inputs. For example, the number of pupils taught every year, the number of children that received vaccines, or the number of beneficiaries of a social security program.

Outcomes - These are the intended impact or policy goals achieved. For example, an increase in literacy rates among children under 10, or a reduction in rates of maternal mortality.

In addition, governments that set performance targets must use nonfinancial data for outputs and outcomes to determine if these targets have been met.

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present, for at least the budget year, nonfinancial data on inputs for each individual program within all administrative units (ministries, departments, and agencies). It is also acceptable if nonfinancial data on inputs for each individual program is organized by functions. To answer “b,” the Executive’s Budget Proposal or supporting documentation must present nonfinancial data on inputs for all administrative units or all functions, but not for each individual program (or even for any programs) within those administrative units or functions. A “c” response applies if nonfinancial data on inputs are presented only for some programs and/or some administrative units or some functions. Answer “d” applies if no nonfinancial data on inputs is presented.

Answer:  
d. No, nonfinancial data on inputs are not presented.

Source:  

Comment:  
OBB shows only non financial data for outputs and outcomes

Peer Reviewer  
Opinion: Agree

Government Reviewer  
Opinion: Disagree  
Suggested Answer:  
c. Yes, nonfinancial data on inputs are presented for some programs and/or some administrative units (or functions).

Comments: The non-financial data is presented through the output indicators in the Yellow Book i.e., OBB, which ties allocations to expected outputs.

IBP Comment  
IBP agrees with researcher’s response.

---

50. Does the Executive’s Budget Proposal or any supporting budget documentation present nonfinancial data on results (in terms of outputs or outcomes) for at least the budget year?

GUIDELINES:  
Question 50 asks about the availability of nonfinancial data on results for the budget year. Nonfinancial data on results can include data on both outputs and outcomes, but not on inputs (which are addressed in Question 49).

To answer “a,” the Executive’s Budget Proposal or supporting documentation must present, for at least the budget year, nonfinancial data on results for each individual program within all administrative units (ministries, departments, and agencies). It is also acceptable if nonfinancial data on results for each individual program is organized by functional classification. To answer “b,” the Executive’s Budget Proposal or supporting documentation must present nonfinancial data on results for all administrative units or all functional classifications, but not for each individual program (or even for any programs) within those administrative units or functions. A “c” response applies if nonfinancial data on results are presented only for some programs and/or some
administrative units or some functions. Answer "d" applies if no nonfinancial data on results is presented.

**Answer:**
c. Yes, nonfinancial data on results are presented for some programs and/or some administrative units (or functions).

**Source:**

**Comment:**
The budget year provides outputs (by target for the BY). This is complemented by narrations. Where targets are missing in the BY it is as result of shifts e.g. remuneration management moved from cabinet office and now sits as Head 28 Emoluments commission. Pg 524 also has missing targets under output related to the MTEF that is not yet produced. Hence "c" has been selected.

**51. Are performance targets assigned to nonfinancial data on results in the Executive's Budget Proposal or any supporting budget documentation?**

**GUIDELINES:**
Question 51 asks about performance targets assigned to nonfinancial data on results for the budget year. The question applies to those nonfinancial results shown in the budget, and that were identified for purposes of Question 50.

To answer "a," the Executive’s Budget Proposal or supporting documentation must assign performance targets to all nonfinancial data on results shown in the budget for at least the budget year. To answer "b," the Executive’s Budget Proposal or supporting documentation must assign performance targets to a majority (but not all) of the nonfinancial data on results shown in the budget. A "c" response applies performance targets are assigned only to less than half of the nonfinancial data on results. Answer "d" applies if no performance targets are assigned to nonfinancial data on results shown in the budget, or the budget does not present nonfinancial results.

**Answer:**
d. No, performance targets are not assigned to nonfinancial data on results, or the budget does not present nonfinancial data on results.

**Source:**
https://www.mofnp.gov.zm/?wpdmpro=2023-budget-speech

**Comment:**
Not provided for all as seen from the budget speech

**Peer Reviewer**
Opinion: Disagree

**Suggested Answer:**
d. No, performance targets are not assigned to nonfinancial data on results, or the budget does not present nonfinancial data on results.

**Comments:** The "performance targets" given in the Budget Speech are so few and so vague that they can hardly be called "performance targets".

**Government Reviewer**
Opinion: Agree

**IBP Comment**
IBP agrees with the peer reviewer. Response changed to "D"
52. Does the Executive’s Budget Proposal or any supporting budget documentation present estimates of policies (both new proposals and existing policies) that are intended to benefit directly the country’s most impoverished populations in at least the budget year?

GUIDELINES:
Question 52 asks whether the budget highlight policies, both new and existing, that benefit the poorest segments of society. This question is intended to assess only those programs that directly address the immediate needs of the poor, such as through cash assistance programs or the provision of housing, rather than indirectly, such as through a stronger national defense. This information is of particular interest to those seeking to bolster government’s commitment to anti-poverty efforts. For purposes of answering this question, a departmental budget (such for the Department of Social Welfare) would not be considered acceptable. In general, this question is asking whether the EBP includes a special presentation that pulls together estimates of all the relevant policies in one place. However, if the country uses “program budgeting,” where programs are presented as expenditure categories with specific and identified objectives, and it identifies anti-poverty programs within each administrative unit, then that is also acceptable for this question.

To answer “a,” the Executive’s Budget Proposal or supporting documentation must for at least the budget year both present estimates covering all policies that are intended to benefit the most impoverished populations and include a narrative discussion that specifically addresses these policies. (For countries using program budgeting that breaks out individual anti-poverty programs, there should be a separate narrative associated with each such program.) Answer “b” if a narrative discussion is not included, but estimates for all policies that are intended to benefit the most impoverished populations are presented. Answer “c” if the presentation includes estimates covering only some, but not all, policies that are intended to benefit the most impoverished populations (regardless of whether it also includes a narrative discussion). Answer “d” if no estimates of policies that are intended to benefit the most impoverished populations are presented.

Answer:
a. Yes, estimates of all policies that are intended to benefit directly the country’s most impoverished populations are presented, along with a narrative discussion.

Source:

Comment:
OBB details spending under all heads and provides narrations on policies intended to benefit the most improvised. For example, away from obvious programme such as social cash transfer and food security pack. The Ministry of Energy (pg 599) noted that capital expenditure under the Rural Electrification Programme which has increased from K362.2 million in 2022 to K743.6 million in 2023 is aimed at supporting the growth of small scale businesses in rural areas and achieving 51 percent electrification in rural areas by 2030.

Peer Reviewer
Opinion: Agree
Comments: The comments above states that narrations on policies intended to benefit “the most improvised” in stead of “the most impoverished”

Government Reviewer
Opinion: Agree

53. Does the executive release to the public its timetable for formulating the Executive’s Budget Proposal (that is, a document setting deadlines for submissions from other government entities, such as line ministries or subnational government, to the Ministry of Finance or whatever central government agency is in charge of coordinating the budget’s formulation)?

GUIDELINES:
Question 53 asks about the budget timetable. An internal timetable is particularly important for the executive’s management of the budget preparation
process, in order to ensure that the executive accounts for the views of the different departments and agencies in the proposed budget. The timetable would, for instance, set deadlines for submissions from other government entities, such as line ministries or subnational government, to the Ministry of Finance or whatever central government agency is in charge of coordinating the budget’s formulation. So that civil society is aware of the various steps in the budget formulation process, and when opportunities may exist to engage the executive, it is essential that this timetable be made available to the public.

To answer “a,” the executive must prepare a detailed budget timetable and release it to the public. A “b” answer applies if the timetable is made public, but some details are not included. A “c” response applies if the timetable is made public, but many important details are excluded, reducing its value for those outside government. Answer “d” applies if no timetable is made available to the public. As long as a timetable for formulating the Executive’s Budget Proposal is released, answer “a,” “b,” or “c” may be selected, even if the Executive’s Budget Proposal is not made publicly available.

| Answer: | d. No, a timetable is not issued to the public. |
| Source: | https://www.facebook.com/zambiafinanceministry/posts/pfbid02tCaPBVVhPhbmjCJCHPycviD8ErcGblWWVDoVurYKE14BustRCK2RyUmps9eRsLC |
| Comment: | Information on deadlines of submissions from the public is shared with the public (as per source above and through print media) however this was not adequately detailed to show the timetable of activities to be followed by the executive in engaging with the public on the 2023 budget (including deadlines for submissions from other government entities). MOFNP website only outlines a general process as per planning and budgeting act (https://www.mofnp.gov.zm/?page_id=5100) |
| Peer Reviewer | Opinion: Agree |
| Government Reviewer | Opinion: Disagree |
| Suggested Answer: | e. Not applicable/other (please comment). |
| Comments: | The Planning and Budgeting Act No. 1 of 2020 has timelines attached to the release of each policy document and can be accessed publicly. Link: https://www.parliament.gov.zm/node/8573 |
| IBP Comment | IBP agrees with the researcher’s response. |

54. Does the Pre-Budget Statement present information on the macroeconomic forecast upon which the budget projections are based?

(The core information must include a discussion of the economic outlook with estimates of nominal GDP level, inflation rate, real GDP growth, and interest rates.)

GUIDELINES:

Question 54 focuses on the macroeconomic forecast that underlies the Pre-Budget Statement, asking whether “core” information related to the economic assumptions is presented. These core components include a discussion of the economic outlook as well as estimates of the following:

- nominal GDP level;
- inflation rate;
- real GDP growth; and
- interest rates.

Beyond these core elements, some governments also provide additional information related to the economic outlook, including for instance: short- and long-term interest rates; the rate of employment and unemployment; GDP deflator; price of oil and other commodities; current account; exchange rate; and composition of GDP growth.

To answer “a,” the Pre-Budget Statement must present all of the core information related to the macroeconomic forecast as well as some additional information beyond the core elements. To answer “b,” the Pre-Budget Statement must present all of the core components noted above. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to the macroeconomic forecast is presented, but some of the core pieces of information are not included. Answer “d” applies if no information on the macroeconomic forecast is presented.
55. Does the Pre-Budget Statement present information on the government’s expenditure policies and priorities that will guide the development of detailed estimates for the upcoming budget?

(The core information must include a discussion of expenditure policies and priorities and an estimate of total expenditures.)

**GUIDELINES:**

Question 55 focuses on the government’s expenditure policies and priorities in the Pre-Budget Statement, asking whether "core" information related to these policies is presented. These core components include:

- a discussion of expenditure policies and priorities; and
- an estimate of total expenditures.

Although a Pre-Budget Statement is unlikely to include detailed programmatic proposals (such detailed information is typically only presented in the budget itself), it should include a discussion of broad policy priorities and a projection of at least total expenditures associated with these policies for the budget year. The Pre-Budget Statement can include some detail, for instance, estimates provided by any of the three expenditure classifications — by administrative, economic, and functional classifications.

To answer "a," the Pre-Budget Statement must present for the upcoming budget year all of the core information related to the government’s expenditure policies and priorities as well as some additional information beyond the core elements. To answer "b," the Pre-Budget Statement must present all of the core components noted above for the upcoming budget year. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if some information related to the government’s expenditure policies and priorities is presented, but some of the core pieces of information are not included. Answer "d" applies if no information on the government’s expenditure policies and priorities is presented.

**Answer:**

d. No, information related to the government’s expenditure policies and priorities is not presented.

56. Does the Pre-Budget Statement present information on the government’s revenue policies and priorities that will guide the development of detailed estimates for the upcoming budget?

(The core information must include a discussion of revenue policies and priorities and an estimate of total revenues.)

GUIDELINES:
Question 56 focuses on the government’s revenue policies and priorities in the Pre-Budget Statement, asking whether “core” information related to these policies is presented. These core components include:

- a discussion of revenue policies and priorities; and
- an estimate of total revenue.

Although a Pre-Budget Statement is unlikely to include detailed revenue proposals, it should include a discussion of broad policy priorities and a projection of at least the total revenue associated with these policies for the budget year. The Pre-Budget Statement can also include more detail, for instance, with estimates provided by revenue category — tax and non-tax — or some of the major individual sources of revenue, such as the Value Added Tax or the income tax.

To answer “a,” the Pre-Budget Statement must present for the upcoming budget year all of the core information related to the government’s revenue policies and priorities as well as some additional information beyond the core elements. To answer “b,” the Pre-Budget Statement must present all of the core components noted above for the upcoming budget year. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to the government’s revenue policies and priorities is presented, but some of the core pieces of information are not included. Answer “d” applies if no information on the government’s revenue policies and priorities is presented.

Answer:

d. No, information related to the government’s revenue policies and priorities is not presented.

57. Does Pre-Budget Statement present three estimates related to government borrowing and debt: the amount of net new borrowing required during the budget year; the total debt outstanding at the end of the budget year; and interest payments on the debt for the budget year?

GUIDELINES:

Question 57 asks whether the Pre-Budget Statement includes three key estimates related to borrowing and debt:

- the amount of net new borrowing needed in the upcoming budget year;
- the central government’s total debt burden at the end of the upcoming budget year; and
- the interest payments on the outstanding debt for the upcoming budget year.

Debt is the accumulated amount of money that the government borrows. The government can borrow from its citizens, banks, and businesses within the country (domestic debt) or from creditors outside the country (external debt). External debt is typically owed to private commercial banks, other governments, or international financial institutions such as the World Bank and the International Monetary Fund.

Net new borrowing is the additional amount of new borrowing that is required for the budget year to finance expenditures in the budget that exceed available revenues. Net new borrowing adds to the accumulated debt. It is distinct from gross borrowing, which also includes borrowing needed to repay existing debt that matured during the budget year; debt that is replaced (or rolled over) does not add to the total of accumulated debt. For the purposes of this question, the deficit may be accepted as a proxy for net new borrowing.

Interest payments on the debt (or debt service costs) are typically made at regular intervals, and these payments must be made on a timely basis in order to avoid defaulting on the debt obligation. Interest payments are separate from the repayment of principal, which occurs only when the loan has matured and must be paid back in full.

To answer "a," the Pre-Budget Statement must present all three estimates of borrowing and debt for at least the upcoming budget year. For a "b" answer, the Pre-Budget Statement must present two of those three estimates. For a "c" answer, the PBS must present one of the three estimates. Answer "d" applies if no information on borrowing and debt is presented in the PBS.

Answer:

d. No, none of the three estimates related to government borrowing and debt are not presented.

Comment:
Green paper is not publicly available on the official website of the government body (MOFNP) that produced it. It was posted online (9th July 2022) to the MOFNP social media Facebook page as per link above which would not be the official website.

58. Does the Pre-Budget Statement present estimates of total expenditures for a multi-year period (at least two-years beyond the budget year)?

GUIDELINES:
Question 58 asks about multi-year expenditure estimates in the Pre-Budget Statement.

To answer "a," expenditure estimates for at least two years beyond the upcoming budget year must be presented. The estimates must be for at least total expenditures, but could include more detail than just the aggregate total.

Answer:
b. No, multi-year expenditure estimates are not presented.

Document was also accessed via soft copy (Medium Term Budget Plan 2023-25) to CSOs that appeared before the parliamentary committee on budget.

59. Does the Enacted Budget present expenditure estimates by any of the three expenditure classifications (by administrative, economic, or functional classification)?

GUIDELINES:
Question 59 asks if expenditure estimates in the Enacted Budget are presented by any one of the three expenditure classifications — by administrative, economic, and functional classifications — which were addressed in Questions 1-5 above. Each of the classifications answers a different question: administrative unit indicates who spends the money; functional classification shows for what purpose is the money spent; and economic classification displays what the money is spent on. Unlike classification by administrative unit, which tends to be unique to each country, functional and economic classifications for government budgeting have been developed and standardized by international institutions. Cross-country comparisons are facilitated by adherence to these international classification standards.

To answer "a," the Enacted Budget must present expenditure estimates by all three of the expenditure classifications. To answer "b," expenditure estimates must be presented by two of the three classifications. A "c" answer applies if expenditure estimates are presented by one of the three classifications. Answer "d" applies if expenditure estimates are not presented by any of the three classifications.

Answer:
c. Yes, the Enacted Budget presents expenditure estimates by only one of the three expenditure classifications.

Source:

Comment:
Presented only by administrative classification - i.e who spends the money
59b. Based on the response to Question 59, check the box(es) to identify which expenditure classifications are included in the Enacted Budget:

Answer:
Administrative classification

60. Does the Enacted Budget present expenditure estimates for individual programs?

GUIDELINES:
Question 60 asks if expenditure estimates in the Enacted Budget are presented by program. There is no standard definition for the term "program," and the meaning can vary from country to country. However, for the purposes of answering the questionnaire, researchers should understand the term "program" to mean any level of detail below an administrative unit, such as a ministry or department.

A note for francophone countries: “Program” level detail is sometimes referred to as le plan comptable or le plan comptable detailé. (These data are typically coded in the financial management database, following the chart of budgetary accounts, so that they can be organized by administrative and functional classification.)

To answer "a," the Enacted Budget must present all programs, which account for all expenditures, in the budget year. To answer "b," the Enacted Budget must present expenditures for individual programs that when combined account for at least two-thirds of expenditures, but not all expenditures. A "c" answer applies if the Enacted Budget presents programs that account for less than two-thirds of expenditures. Answer "d" applies if expenditures are not presented by program in the Enacted Budget.

Answer:
a. Yes, the Enacted Budget presents estimates for programs accounting for all expenditures.

Source:

Comment:
The Enacted Budget presents estimates for programs accounting for all expenditures as shown in the Act (sub-administrative level which qualifies as program level detail)
61. Does the Enacted Budget present revenue estimates by category (such as tax and non-tax)?

GUIDELINES:
Question 61 asks whether revenue estimates in the Enacted Budget are presented by “category”—that is, whether tax and non-tax sources of revenue are shown separately.

To answer “a,” the Enacted Budget must present revenue estimates classified by category.

Answer:
b. No, the Enacted Budget does not present revenue estimates by category.

Source:

Comment:
The Act does present revenue estimates but only expenditure.

62. Does the Enacted Budget present individual sources of revenue?

GUIDELINES:
Question 62 asks whether revenue estimates for individual sources of revenue are presented in the Enacted Budget. The question applies to both tax and non-tax revenue.

To answer “a,” the Enacted Budget must present all individual sources of revenue, and “other” or “miscellaneous” revenue must account for three percent or less of all revenue. To answer “b,” the Enacted Budget must present individual sources of revenue that when combined account for at least two-thirds of all revenue, but not all revenue. A “c” answer applies if the Enacted Budget presents individual sources of revenue that account for less than two-thirds of revenues. Answer “d” applies if individual sources of revenue are not presented.

Answer:
d. No, the Enacted Budget does not present individual sources of revenue.

Source:

Comment:
The Appropriation act does not present individual sources of revenue
63. Does the Enacted Budget present three estimates related to government borrowing and debt: the amount of net new borrowing required during the budget year; the total debt outstanding at the end of the budget year; and interest payments on the debt for the budget year?

GUIDELINES:

Question 63 asks about three key estimates related to borrowing and debt:

- the amount of net new borrowing required during the budget year;
- the total debt outstanding at the end of the budget year;
- the interest payments on the outstanding debt for the budget year.

Debt is the accumulated amount of money that the government borrows. The government can borrow from its citizens, banks, and businesses within the country (domestic debt) or from creditors outside the country (external debt). External debt is typically owed to private commercial banks, other governments, or international financial institutions such as the World Bank and the International Monetary Fund.

Net new borrowing is the additional amount of new borrowing that is required for the budget year to finance expenditures in the budget that exceed available revenues. Net new borrowing adds to the accumulated debt. It is distinct from gross borrowing, which also includes borrowing needed to repay existing debt that matured during the budget year; debt that is replaced (or rolled over) does not add to the total of accumulated debt. For the purposes of this question, the deficit may be accepted as a proxy for net new borrowing.

Interest payments on the debt (or debt service costs) are typically made at regular intervals, and these payments must be made on a timely basis in order to avoid defaulting on the debt obligation. Interest payments are separate from the repayment of principal, which occurs only when the loan has matured and must be paid back in full.

To answer "a," the Enacted Budget must present all three estimates of borrowing and debt. For a "b" answer, the Enacted Budget must present two of those three estimates. For a "c" answer, the Enacted Budget must present one of the three estimates. Answer "d" applies if no information on borrowing and debt is presented in the Enacted Budget.

Answer:

c. Yes, one of the three estimates related to government borrowing and debt are presented.

Source:

Comment:
Public Debt Service Management costs under Head 99 - Constitutional and Statutory expenditure are presented in the Appropriation Act No. 30 of 2022.
64. What information is provided in the Citizens Budget?

(The core information must include expenditure and revenue totals, the main policy initiatives in the budget, the macroeconomic forecast upon which the budget is based, and contact information for follow-up by citizens.)

GUIDELINES:

Question 64 focuses on the content of the Citizens Budget, asking whether "core" information is presented. These core components include:

- expenditure and revenue totals;
- the main policy initiatives in the budget;
- the macroeconomic forecast upon which the budget is based; and
- contact information for follow-up by citizens.

To answer "a," the Citizens Budget or supporting documentation must present all of the above core information as well as some additional information beyond the core elements. To answer "b," the Citizens Budget must present all of the core components noted above. Answer "b" is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A "c" answer applies if the Citizens Budget includes some of the core components above, but other core pieces of information are not included. Answer "d" applies if a Citizens Budget is not published.

Answer:
d. The Citizens Budget is not published.

Source:
https://www.mofnp.gov.zm/?wpdmpro=2023-citizens-budget

Comment:
A citizens budget was developed for the EBP FY 2023. However, this was placed onto the MOFNP website on 16th January 2023 (document properties indicate that it was created on 28th November, 2023). CB is therefore not published (not publicly available).

65. How is the Citizens Budget disseminated to the public?

GUIDELINES:

Question 65 asks how the Citizens Budget is disseminated to the public. Citizens Budgets should be made available to a variety of audiences. Therefore paper versions and an Internet posting of a document might not be sufficient.

To answer "a," the executive must use three or more different types of creative media tools to reach the largest possible share of the population, including those who otherwise would not normally have access to budget documents or information. Dissemination would also be pursued at the very local level, so that the coverage is targeted both by geographic area and population group (e.g., women, elderly, low income, urban, rural, etc.). Option "b" applies if significant dissemination efforts are made through a combination of two means of communications, for instance, both posting the Citizens Budget on the executive's official website and distributing printed copies of it. Option "c" applies if the Citizens Budget is disseminated through only posting on the executive's official website. Option "d" applies when the executive does not publish a Citizens Budget.

Answer:

Government Reviewer
Opinion: Disagree
Suggested Answer:
b. The Citizens Budget provides the core information.
Comments: The C8 does not have a legal timeframe attached to its publication as is the case with the National Budget.

IBP Comment
Citizens’ Budget is considered not publicly available. The researcher’s response is valid.
66. Has the executive established mechanisms to identify the public’s requirements for budget information prior to publishing the Citizens Budget?

GUIDELINES:
Question 66 asks whether the executive has established mechanisms to identify the public’s requirements for budget information before publishing a Citizens Budget. What the public wants to know about the budget might differ from the information the executive includes in technical documents that comprise the Executive’s Budget Proposal or the Enacted Budget; similarly, different perspectives might exist on how the budget should be presented, and this may vary depending on the context. For this reason the executive should consult with the public on the content and presentation of the Citizens Budget.

To answer “a,” the executive must have established mechanisms to consult with the public, and these mechanisms for consultation are both accessible and widely used by the public. Such mechanisms can include focus groups, social networks, surveys, hotlines, and meetings/events in universities or other locations where people gather to discuss public issues. In countries where Citizens Budgets are consistently produced and released, it may be sufficient for the government to provide the public with contact information and feedback opportunities, and subsequently use the feedback to improve its management of public resources.

Option “b” applies if the executive has established mechanisms for consultation that are accessible to the public, but that the public nonetheless does not use frequently. That is, the public does not typically engage with the executive on the content of the Citizens Budget, even though the executive has created opportunities for such consultation. Option “c” applies if the executive has established mechanism for consultation with the public, but they are poorly designed and thus not accessible to the public. Option “d” applies if the executive has not created any mechanisms to seek feedback from the public on the content of the Citizens Budget.

Answer:
d. No, the executive has not established any mechanisms to identify the public’s requirements for budget information in the Citizen’s Budget.

Source:
MOF budget office

Comment:
“You are, therefore, encouraged to read the Citizens’ Budget and if you have any comments, please contact your area Member of Parliament (MP) to raise the matter during the Parliamentary debates on the Budget, before it is approved by Parliament. You are also encouraged to listen to Parliament Radio to follow the debates by Members of Parliament (MP) on the proposed 2023 National Budget.”
67. Are “citizens” versions of budget documents published throughout the budget process?

GUIDELINES:
Question 67 asks if “citizens” versions of budget documents are published throughout the budget process. While the Citizens Budget was initially conceived as a simplified version of the Executive’s Budget Proposal or the Enacted Budget, good practice is now evolving and suggests that a “citizens” version of key budget documents should be produced during each of the four phases of the budget cycle. This would serve to inform citizens of the state of public financial management throughout the entire budget cycle.

To answer “a,” a citizens version of at least one budget document is published for each of the four stages of the budget process (budget formulation, enactment, execution, and audit) — for a total of at least four citizens budget documents throughout the process. Option “b” applies if a citizens version of a budget document is published for at least two of the four stages of the budget process. Option “c” applies if a citizens version of a budget document is published for at least one of the four stages of the budget process. Select option “d” if no “citizens” version of budget documents is published.

Answer:

d. No citizens version of budget documents is published.

Source:
https://www.mofnp.gov.zm/?page_id=4888
https://www.ago.gov.zm/?wpfb_dl=236

Comment:
Citizens budget is currently only produced as a simplified version of the EBP. It was not publicly available for the FY in question. The OAG has only produced one version of the audit report in 2021 for the FY 2019. Therefore there is not consistency in this regard throughout the budget cycle.
country comparisons are facilitated by adherence to these international classification standards.

To answer “a,” In-Year Reports must present actual expenditures by all three of the expenditure classifications. To answer “b,” actual expenditures must be presented by two of these three classifications. A “c” answer applies if actual expenditures are presented by one of the three classifications. Answer “d” applies if actual expenditures are not presented by any of the three classifications in In-Year Reports.

Answer:
d. No, the In-Year Reports do not present actual expenditures by any expenditure classification.

Source:
https://www.mofnp.gov.zm/?wpdmpro=2022-third-quarter-economic-review (pg 14)

Comment:
Actual expenditure performance is presented by economic classification. However, reports were not released on time to be considered publicly available.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer:
c. Yes, the In-Year Reports present actual expenditures by only one of the three expenditure classifications.
Comments: The IYR has information on budget performance for the quarter both revenue and expenditure in the Annex.

IBP Comment
IYR is considered not publicly available; therefore, the researcher's response is valid.

68b. Based on the response to Question 68, check the box(es) to identify which expenditure classifications are included in the In-Year Reports:

Answer:
None of the above

Source:
https://www.mofnp.gov.zm/?wpdmpro=2022-third-quarter-economic-review (pg 14)

Comment:
IYRs were produced outside the required timelines. Therefore not applicable.

IYR is considered not publicly available; therefore, the researcher’s response is valid.

Do In-Year Reports present the individual sources of revenue for actual revenues collected?

GUIDELINES:
Question 72 asks whether In-Year Reports present actual collections of individual sources of revenue (such as income taxes, VAT, etc.). The question applies
to both tax and non-tax revenue.

To answer “a,” In-Year Reports must present actual collections for all individual sources of revenue, and “other” or “miscellaneous” revenue must account for three percent or less of all revenue. To answer “b,” In-Year Reports must present actual collections for individual sources of revenue that when combined account for at least two-thirds of all revenue collected, but not all revenue. A “c” answer applies if In-Year Reports present individual sources of actual revenue that account for less than two-thirds of all revenue collected. Answer “d” applies if individual sources of actual revenue are not presented.

Answer:  
d. No, In-Year Reports do not present individual sources of actual revenue.

Source:  
https://www.mofnp.gov.zm/?wpdmpro=2022-first-quarter-economic-review (pg 12)  
https://www.mofnp.gov.zm/?wpdmpro=2022-second-quarter-economic-review (pg 12)  

Comment:  
in-Year Reports present individual sources of actual revenue accounting for at least two-thirds of, but not all, revenue. However, IYR are not considered publicly available by OBS standards (only 2 was published in time).

Government Reviewer  
Opinion: Disagree  
Suggested Answer:  
b. Yes, In-Year Reports present individual sources of actual revenue accounting for at least two-thirds of, but not all, revenue.  
Comments: It should be noted that there are time lags in fiscal reporting when it comes to disbursements from cooperating partners. For example, a cooperating partner may disburse directly to a project which may cause a delay in reporting.

IBP Comment  
IYR is considered not publicly available; therefore, the researcher’s response is valid.

73. Do the In-Year Reports compare actual year-to-date revenues with either the original estimate for that period (based on the enacted budget) or the same period in the previous year?

GUIDELINES:  
Question 73 asks whether In-Year Reports compare actual revenues to-date with either the enacted levels or actual revenues for the same period in the previous year.  
The OECD recommends that the reports contain the total year-to-date revenues in a format that allows for a comparison with the budget’s forecast revenues (based on enacted levels) for the same period.  
To answer “a,” comparisons must be made for revenues presented in the In-Year Reports.

Answer:  
b. No, comparisons are not made for revenues presented in the In-Year Reports.

https://www.mofnp.gov.zm/?wpdmpro=2022-second-quarter-economic-review (pg 12)  

Comment:  
Comparisons are shown as they relate to 2022 Approved-relevant quarter Target-relevant quarter Outturn-Variance. However IYR are not considered publicly available by OBS standards (only 2 was published in time).
74. Do In-Year Reports present three estimates related to actual government borrowing and debt: the amount of net new borrowing, the total debt outstanding, and interest payments?

GUIDELINES:
Question 74 asks about three key estimates related to borrowing and debt:

- the amount of net new borrowing so far during the year;
- the central government’s total debt burden at that point in the year; and
- the interest payments to date on the outstanding debt.

Debt is the accumulated amount of money that the government borrows. The government can borrow from its citizens and banks and businesses within the country (domestic debt) or from creditors outside the country (external debt). External debt is typically owed to private commercial banks, other governments, or international financial institutions such as the World Bank and the International Monetary Fund.

Net new borrowing is the additional amount of new borrowing that is required for the budget year to finance expenditures in the budget that exceed available revenues. Net new borrowing adds to the accumulated debt. It is distinct from gross borrowing, which also includes borrowing needed to repay existing debt that matured during the budget year; debt that is replaced (or rolled over) does not add to the total of accumulated debt. For the purposes of this question, the deficit may be accepted as a proxy for net new borrowing.

Interest payments on the debt (or debt service costs) are typically made at regular intervals, and these payments must be made on a timely basis in order to avoid defaulting on the debt obligation. Interest payments are separate from the repayment of principal, which occurs only when the loan has matured and must be paid back in full.

To answer “a,” In-Year Reports must present all three estimates of borrowing and debt. For a “b” answer, In-Year Reports must present two of those three estimates. For a “c” answer, IYRs must present one of the three estimates. Answer “d” applies if no information on borrowing and debt is presented in In-Year Reports.

Answer:
d. No, none of the three estimates related to government borrowing and debt are not presented.

Source:

Comment:
Debt position and net financing statistics are provided for to cover all three estimates in question. However IYR in this instance are not considered publicly available by OBS standards (only 2 was published in time).
75. Do In-Year Reports present information related to the composition of the total actual debt outstanding?

(The core information must include interest rates on the debt instruments; maturity profile of the debt; and whether it is domestic or external debt.)

GUIDELINES:
Question 75 focuses on the composition of government debt, asking whether “core” information related to its composition is presented. These core components include:

- interest rates on the debt;
- maturity profile of the debt; and
- whether the debt is domestic or external.

The interest rates affect the amount of interest that must be paid to creditors. The maturity profile indicates the final payment date of the loan, at which point the principal (and all remaining interest) is due to be paid; government borrowing typically includes a mix of short-term and long-term debt. As discussed in Question 74, domestic debt is held by a country’s citizens and banks and businesses, while external debt is held by foreigners. These factors related to the composition of the debt give an indication of the potential vulnerability of the country’s debt position, and ultimately whether the cost of servicing the accumulated debt is affordable.

Beyond these core elements, a government may also provide additional information related to the composition of its debt, including for instance: whether interest rates are fixed or variable; whether debt is callable; the currency of the debt; a profile of the creditors (bilateral institutions, multilateral institutions, commercial banks, Central Bank, etc.); an analysis of the risk associated with the debt; and where appropriate, what the debt is being used to finance.

To answer “a,” In-Year Reports must present all of the core information related to the composition of government debt to-date as well as some additional information beyond the core elements. To answer “b,” In-Year Reports must present all of the core components noted above. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. A “c” answer applies if some information related to the composition of government debt is presented, but some of the core pieces of information are not included. Answer “d” applies if no information is presented on the composition of the debt outstanding in In-Year Reports.

**Answer:**

d. No, information related to composition of total actual debt outstanding is not presented.

**Source:**

**Comment:**
IYR are not considered publicly available by OBS standards (only 2 was published in time).

Noteworthy to mention that some information is provided largely on whether debt is domestic or external (presented in graph form on pg 7 of all three reports cited), interest rates are provided as well. However, maturity profiles and details for other loans (external) are missing hence selection of answer.

76. Does the Mid-Year Review of the budget include an updated macroeconomic forecast for the budget year underway?

GUIDELINES:
Question 76 asks whether the Mid-Year Review includes an updated macroeconomic forecast for the budget year underway, and provides an explanation of the update.

Refer to Question 15 for the components of the macroeconomic forecast presented in the Executive’s Budget Proposal.

To answer "a," the Mid-Year Review must include an updated macroeconomic forecast and explain all of the differences between the initial forecast presented in the Executive’s Budget Proposal and the updated forecast. The explanation must include at least estimates of all differences; a narrative discussion is desirable but not required if estimates of all the differences are provided. To answer "b," the macroeconomic forecast must be updated, but only some of the differences between the initial and updated forecasts are explained. The explanation would be more limited, such as only a narrative discussion of the differences or estimates covering only some of the differences. A "c" response applies if the Mid-Year Review includes an updated macroeconomic forecast, but does not provide an explanation for the revisions. A "d" response applies if the macroeconomic forecast has not been updated.

---

**Answer:**

c. Yes, the estimates for macroeconomic forecast have been updated, but an explanation of the differences between the original and updated forecast is not presented.

**Source:**

**Comment:**
The mid year economic review provides some forecast with some explanations and a section (pg. 51 on prospects for the remainder of the year 2022. However, most developments speak to the period 2021 up to June 2022 with limited predictive estimates.

77. Does the Mid-Year Review of the budget include updated expenditure estimates for the budget year underway?

**GUIDELINES:**

Question 77 asks whether the Mid-Year Review includes updated estimates of expenditure for the budget year underway, and provides an explanation of the update. Please note that year-to-date expenditures as assessed in Question 70 do not qualify as updated estimates of expenditure for the purposes of this indicator.

To answer "a," the Mid-Year Review must include updated expenditure estimates and explain all of the differences between the initial levels presented in the Executive’s Budget Proposal (or the Enacted Budget) and the updated estimates. The explanation must include at least estimates of all differences; a narrative discussion is desirable but not required if estimates of all the differences are provided. The expenditure estimates must be updated, but only some of the differences between the initial and updated estimates are explained. The explanation would be more limited, such as only a narrative discussion of the differences or estimates covering only some of the differences. A "c" response applies if the Mid-Year Review includes updated expenditure estimates, but does not provide an explanation for the revisions. A "d" response applies if the expenditure estimates have not been updated.

---

**Answer:**
d. No, expenditure estimates have not been updated.

**Opinion:** Agree
78. Does the Mid-Year Review of the budget present updated expenditure estimates for the budget year underway by any of the three expenditure classifications (by administrative, economic, or functional classification)?

GUIDELINES:

Question 78 asks if expenditure estimates for the budget year underway in the Mid-Year Review are presented by any one of the three expenditure classifications — by administrative, economic, and functional classifications — which were addressed in Questions 1-5 above. Please note that year-to-date expenditures as assessed in Question 70 do not qualify as updated estimates of expenditure for the purposes of this indicator.

Each of the classifications answers a different question: administrative unit indicates who spends the money; functional classification shows for what purpose is the money spent; and economic classification displays what the money is spent on. Unlike classification by administrative unit, which tends to be unique to each country, functional and economic classifications for government budgeting have been developed and standardized by international institutions. Cross-country comparisons are facilitated by adherence to these international classification standards.

To answer "a," the Mid-Year Review must present expenditure estimates by all three of the expenditure classifications. To answer "b," expenditure estimates must be presented by two of these three classifications. A "c" answer applies if expenditure estimates are presented by one of the three classifications. Answer "d" applies if expenditure estimates are not presented by any of the three classifications in the Mid-Year Review.

Answer:

d. No, the Mid-Year Review does not present expenditure estimates by any expenditure classification.

Source:

Comment:
Year to date expenditure (actuals) is what is presented under expenditure performance (pg 28)

78b. Based on the response to Question 78, check the box(es) to identify which expenditure classifications are included in the Mid-Year Review:

Answer:
None of the above

Source:
79. Does the Mid-Year Review of the budget present updated expenditure estimates for the budget year underway for individual programs?

**GUIDELINES:**

Question 79 asks if expenditure estimates in the Mid-Year Review are presented by program for the budget year underway. Please note that year-to-date expenditures as assessed in Question 70 do not qualify as updated estimates of expenditure for the purposes of this indicator.

**A note for francophone countries:** “Program” level detail is sometimes referred to as *le plan comptable* or *le plan comptable détaillé*. (These data are typically coded in the financial management database, following the chart of budgetary accounts, so that they can be organized by administrative and functional classification.)

To answer "a," the Mid-Year Review must present expenditures for all individual programs, accounting for all expenditures. To answer "b," the Mid-Year Review must present expenditures for individual programs that when combined account for at least two-thirds of expenditures, but not all expenditures. A "c" answer applies if the Mid-Year Review presents programs that account for less than two-thirds of expenditures. Answer "d" applies if expenditures are not presented by program in the Mid-Year Review.

**Answer:**
d. No, the Mid-Year Review does not present expenditure estimates by program.

**Source:**

**Comment:**
Expenditure estimates are updated by Approved-Target-Actuals-Variance-Percentage-Variance and not as UPDATED ESTIMATES

---

80. Does the Mid-Year Review of the budget include updated revenue estimates for the budget year underway?

**GUIDELINES:**
Question 80 asks whether the Mid-Year Review includes updated estimates of revenue for the budget year underway, and provides an explanation of the update. Please note that year-to-date revenues as assessed in Question 73 do not qualify as updated estimates of revenue for the purposes of this indicator.

To answer "a," the Mid-Year Review must include updated revenue estimates and explain all of the differences between the initial levels presented in the Executive’s Budget Proposal (or the Enacted Budget) and the updated estimates. The explanation must include at least estimates of all differences; a narrative discussion is desirable but not required if estimates of all the differences are provided. To answer "b," the revenue estimates must be updated, but only some of the differences between the initial and updated estimates are explained. The explanation would be more limited, such as only a narrative discussion of the differences or estimates covering only some of the differences. A "c" response applies if the Mid-Year Review includes updated revenue estimates, but no explanation for the revisions is provided. A "d" response applies if the revenue estimates have not been updated.

Answer:

b. No, the Mid-Year Review does not present revenue estimates by category.

81. Does the Mid-Year Review of the budget present updated revenue estimates for the budget year underway by category (such as tax and non-tax)?

GUIDELINES:

Question 81 asks whether revenue estimates for the budget year underway in the Mid-Year Review are presented by "category"—that is, whether tax and non-tax sources of revenue are shown separately. Please note that year-to-date revenues as assessed in Question 73 do not qualify as updated estimates of revenue for the purposes of this indicator.

To answer "a," the Mid-Year Review must present revenue estimates classified by category.

Answer:

b. No, the Mid-Year Review does not present revenue estimates by category.

82. Does the Mid-Year Review of the budget present updated individual sources of revenue for the budget year underway?

GUIDELINES:

Question 82 asks whether revenue estimates for individual sources of revenue for the budget year underway are presented in the Mid-Year Review. Please note that year-to-date revenues as assessed in Question 73 do not qualify as updated estimates of revenue for the purposes of this indicator.

To answer “a,” the Mid-Year Review must present all sources of revenue individually, accounting for all revenues, and “other” or “miscellaneous” revenue must account for three percent or less of all revenue. To answer “b,” the Mid-Year Review must present individual sources of revenue that when combined account for at least two-thirds of all revenue, but not all revenue. A “c” answer applies if the Mid-Year Review presents estimates of individual revenue sources that account for less than two-thirds of revenue. Answer “d” applies if individual sources of revenue are not presented in the Mid-Year Review.

Answer:

d. No, the Mid-Year Review does not present individual sources of revenue.

83. Does the Mid-Year Review of the budget include updated estimates of government borrowing and debt, including its composition, for the budget year underway?

GUIDELINES:

Question 83 asks whether the Mid-Year Review includes updated estimates of borrowing and debt, including its composition, for the budget year underway, and provides an explanation of the update.

Refer to Question 13 for details on estimates in the Executive’s Budget Proposal of borrowing and debt. Key estimates related to borrowing and debt include:

- The amount of net new borrowing required during the budget year;
- The central government’s total debt burden at the end of the budget year; and
- The interest payments on the outstanding debt for the budget year.

Refer to Question 14 for details on estimates in the Executive’s Budget Proposal related to the composition of the debt. Core information related to the composition of government debt include:

- interest rates on the debt;
- maturity profile of the debt; and
- whether the debt is domestic or external.

To answer “a,” the Mid-Year Review must include an updated estimates of borrowing and debt, including its composition, and explain all of the differences between the initial estimates presented in the Executive’s Budget Proposal (or Enacted Budget) and the updated estimates. The explanation must include at least estimates of all differences; a narrative discussion is desirable but not required if estimates of all the differences are provided. To answer “b,” the estimates of borrowing and debt must be updated, but only some of the differences between the initial and updated estimates are explained. The explanation would be more limited, such as only a narrative discussion of the differences or estimates covering only some of the differences. A “c” response applies if the Mid-Year Review includes updated estimates, but no explanation for the revisions is provided. A “d” response applies if the estimates of borrowing and debt have not been updated.
b. Yes, estimates of government borrowing and debt have been updated, and information on some of the differences between the original and updated estimates is presented.

Source:
https://www.mofnp.gov.zm/?wpdmpro=2022-mid-year-economic-review (pg 31-34)

Comment:
Reasons for difference between original and updated have been provided, central government debt burden is provided for BY-1 and mid point BY, interest payment for external debt service is also presented. The amount of new net borrowing is not presented.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer:
d. No, estimates of government borrowing and debt have not been updated.
Comments: The net financing is also presented in the EBP and supporting budget documents i.e., net domestic and net external financing.

IBP Comment
IBP notes the reviewer’s comment but agrees with the researcher’s response on the provision of external and domestic debt incurred between January and June 2022, along with interest payment and principal but not net new borrowing. The response “B” remains valid.

84. Does the Year-End Report present the differences between the enacted levels (including in-year changes approved by the legislature) and the actual outcome for expenditures?

GUIDELINES:
Question 84 asks whether the Year-End Report includes estimates of the differences between the enacted levels and actual expenditures for the year, and whether these estimates are accompanied by a narrative discussion.

To answer “a,” the Year-End Report must present estimates of the differences between the enacted levels and the actual outcome for all expenditures, along with a narrative discussion. Answer “b” if estimates of the differences for all expenditures are presented, but a narrative discussion is not included. Answer “c” if estimates of the differences are presented for some, but not all expenditures, regardless of whether a narrative discussion is included. Answer “d” if no estimates of the differences are presented in the Year-End Report.

Answer:
a. Yes, estimates of the differences between the enacted levels and the actual outcome for all expenditures are presented, along with a narrative discussion.

85. Does the Year-End Report present expenditure estimates by any of the three expenditure classifications (by administrative, economic, or functional classification)?

GUIDELINES:
Question 85 asks if expenditure estimates in the Year-End Report are presented by any one of the three expenditure classifications – by administrative, economic, and functional classifications – which were addressed in Questions 1-5 above. Each of the classifications answers a different question: administrative unit indicates who spends the money; functional classification shows for what purpose is the money spent; and economic classification displays what the money is spent on. Unlike classification by administrative unit, which tends to be unique to each country, functional and economic classifications for government budgeting have been developed and standardized by international institutions. Cross-country comparisons are facilitated by adherence to these international classification standards.

To answer "a," the Year-End Report must present expenditure estimates by all three of the expenditure classifications. Answer "b" if expenditure estimates are presented by two of these three classifications. Answer "c" if expenditure estimates are presented by one of the three classifications. Answer "d" if expenditure estimates are not presented by any of the three classifications in the Year-End Report.

Answer:

c. Yes, the Year-End Report presents expenditure estimates by only one of the three expenditure classifications.

86. Does the Year-End Report present expenditure estimates for individual programs?
GUIDELINES:
Question 86 asks if expenditure estimates in the Year-End Report are presented by program. There is no standard definition for the term “program,” and the meaning can vary from country to country. However, for the purposes of answering the questionnaire, researchers should understand the term “program” to mean any level of detail below an administrative unit, such as a ministry or department.

A note for francophone countries: “Program” level detail is sometimes referred to as le plan comptable or le plan comptable détaillé. (These data are typically coded in the financial management database, following the chart of budgetary accounts, so that they can be organized by administrative and functional classification.)

To answer “a,” the Year-End Report must present expenditure estimates for all individual programs, accounting for all expenditures. Answer “b” if the Year-End Report presents expenditures for individual programs that when combined account for at least two-thirds of expenditures, but not all expenditures. Answer “c” if the Year-End Report presents programs that account for only less than two-thirds of expenditures. Answer “d” if expenditures are not presented by program in the Year-End Report.

**Answer:**
d. No, the Year-End Report does not present expenditure estimates by program.

87. Does the Year-End Report present the differences between the enacted levels (including in-year changes approved by the legislature) and the actual outcome for revenues?

GUIDELINES:
Question 87 asks whether the Year-End Report includes estimates of the differences between the enacted levels and actual revenues for the year, and whether these estimates are accompanied by a narrative discussion.

To answer “a,” the Year-End Report must present estimates of the differences between the enacted levels and the actual outcome for all revenues, along with a narrative discussion. Answer “b” if estimates of the differences for all revenues are presented, but a narrative discussion is not included. Answer “c” if estimates of the differences are presented for some, but not all revenues, regardless of whether a narrative discussion is included. Answer “d” if no estimates of the differences are presented in the Year-End Report.

**Answer:**
a. Yes, estimates of the differences between the enacted levels and the actual outcome for all revenues are presented, along with a narrative discussion.

89. Does the Year-End Report present individual sources of revenue?

GUIDELINES:
Question 89 asks whether revenue estimates for individual sources of revenue are presented in the Year-End Report. The question applies to both tax and non-tax revenue.

To answer “a,” the Year-End Report must present all sources of revenue individually, accounting for all revenue, and “other” or “miscellaneous” revenue must account for three percent or less of all revenue. Answer “b” if the Year-End Report presents individual sources of revenue that when combined account for at least two-thirds of all revenue, but not all revenue. Answer “c” if the Year-End Report presents estimates of individual revenue sources that account for less than two-thirds of revenue. Answer “d” if individual sources of revenue are not presented in the Year-End Report.

Answer:
a. Yes, the Year-End Report presents individual sources of revenue accounting for all revenue.

Source:

Comment:
Presented on table starting page 40. Sources are disaggregated on both tax and non-tax revenue.
90. Does the Year-End Report present the differences between the original estimates of government borrowing and debt, including its composition, for the fiscal year and the actual outcome for that year?

GUIDELINES:
Question 90 asks whether the Year-End Report includes estimates of the differences between the original estimates and the actual outcome for the fiscal year for borrowing and debt, including its composition, and whether these estimates are accompanied by a narrative discussion.

Refer to Question 13 for details on estimates in the Executive’s Budget Proposal of borrowing and debt. Key estimates related to borrowing and debt include:
- the amount of net new borrowing required during the budget year;
- the central government’s total debt burden at the end of the budget year; and
- the interest payments on the outstanding debt for the budget year.

Refer to Question 14 for details on estimates in the Executive’s Budget Proposal related to the composition of the debt. Core information related to the composition of government debt include:
- interest rates on the debt;
- maturity profile of the debt; and
- whether the debt is domestic or external.

To answer “a,” the Year-End Report must include estimates of the differences between all of the original estimates of borrowing and debt, including its composition, for the fiscal year and the actual outcome for that year, including a narrative discussion. Answer “b” if the Year-End Report presents estimates of the differences between all of the original estimates of borrowing and debt for the fiscal year and the actual outcome for that year, but does not include a narrative discussion. Answer “c” if estimates of the differences between some but not all of the original estimates of borrowing and debt for the fiscal year and the actual outcome for that year are presented, regardless of whether a narrative discussion is included. A “d” response applies if estimates of the differences are not presented.

Answer:
d. No, estimates of the differences between the original estimates of government borrowing and debt for the fiscal year and the actual outcome for that year is not presented.

Source:

Comment:
The Year-End Report only presents actual outcomes for debt information. There is no comparison of actuals with the original estimates.

90b. Based on the response to Question 90, check the box(es) to identify which estimates of government borrowing and debt, including its composition, have the differences between the original forecast and the actual outcome for the year presented in the Year-End Report:

Answer:
91. Does the Year-End Report present the differences between the original macroeconomic forecast for the fiscal year and the actual outcome for that year?

GUIDELINES:
Question 91 asks whether the Year-End Report includes estimates of the differences between the original macroeconomic forecast for the fiscal year and the actual outcome for that year, and whether these estimates are accompanied by a narrative discussion.

Refer to Question 15 for the components of the macroeconomic forecast in the Executive’s Budget Proposal. Core components include estimates of the nominal GDP level, inflation rate, real GDP growth, and interest rates, although the importance of other macroeconomic assumptions, such as the price of oil, can vary from country to country.

To answer “a,” the Year-End Report must include estimates of the differences between all of the original macroeconomic assumptions for the fiscal year and the actual outcome for that year, including a narrative discussion. Answer “b” if the Year-End Report presents estimates of the differences between all of the original macroeconomic assumptions for the fiscal year and the actual outcome for that year, but does not include a narrative discussion. Answer “b” is also accepted if one of the core elements is not presented but additional information beyond the core elements is presented. Answer “c” if estimates of the differences between some but not all of the original macroeconomic assumptions for the fiscal year and the actual outcome for that year are presented, regardless of whether a narrative discussion is included. A “d” response applies if estimates of the differences are not presented.

Answer:
c. Yes, estimates of the differences between some but not all of the original macroeconomic assumptions for the fiscal year and the actual outcome for that year are presented.

92. Does the Year-End Report present the differences between the original estimates of nonfinancial data on inputs and the actual outcome?

**GUIDELINES:**
Question 92 asks whether the Year-End Report includes estimates of the differences between the original estimates of nonfinancial data on inputs and the actual outcome for the year, and whether these estimates are accompanied by a narrative discussion.

Refer to Question 49 for the nonfinancial data on inputs included in the Executive's Budget Proposal.

To answer "a," the Year-End Report must include estimates of the differences between all of the original estimates of nonfinancial data on inputs and the actual outcome, including a narrative discussion. Answer "b" if the Year-End Report presents estimates of the differences between all of the original estimates of nonfinancial data on inputs and the actual outcome, but does not include a narrative discussion. Answer "c" if estimates of the differences between some but not all of the original estimates of nonfinancial data on inputs and the actual outcome are presented, regardless of whether a narrative discussion is included. A "d" response applies if estimates of the differences are not presented.

**Answer:**
d. No, estimates of the differences between the original estimates of nonfinancial data on inputs and the actual outcome are not presented.

**Source:**

**Comment:**
Original estimates are not presented but only the actual outcomes and compared with BY-1 and BY-2 (in some cases BY-3) information. See social sector developments starting pg 34

93. Does the Year-End Report present the differences between the original estimates of nonfinancial data on results and the actual outcome?

**GUIDELINES:**
Question 93 asks whether the Year-End Report includes estimates of the differences between the original estimates of nonfinancial data on results and the actual outcome for the year, and whether these estimates are accompanied by a narrative discussion. Nonfinancial data on results can include data on both outputs and outcomes, but not on inputs (which are addressed in Question 92).

Refer to Question 50 for the nonfinancial data on results included in the Executive’s Budget Proposal.

To answer “a,” the Year-End Report must include estimates of the differences between all of the original estimates of nonfinancial data on results and the actual outcome, including a narrative discussion. Answer “b” if the Year-End Report presents estimates of the differences between all of the original estimates of nonfinancial data on results and the actual outcome, but does not include a narrative discussion. Answer “c” if estimates of the differences between some but not all of the original estimates of nonfinancial data on results and the actual outcome are presented, regardless of whether a narrative discussion is included. A “d” response applies if estimates of the differences are not presented.

**Answer:**
d. No, estimates of the differences between the original estimates of nonfinancial data on results and the actual outcome are not presented.

**Source:**

**Comment:**
original estimates are not presented only the actual outcomes are presented and these are compared with BY-1 and BY-2 in some cases BY-3 (see starting pg 34 under social sector developments).

94. Does the Year-End Report present the differences between the enacted level of funds for policies (both new proposals and existing policies) that are intended to benefit directly the country’s most impoverished populations and the actual outcome?

**GUIDELINES:**
Question 94 asks whether the Year-End Report includes estimates of the differences between the enacted level of funds for policies that are intended to benefit directly the country’s most impoverished populations and the actual outcome for the year, and whether these estimates are accompanied by a narrative discussion.

Refer to Question 52 for assistance to the most impoverished populations in the Executive’s Budget Proposal.

To answer “a,” the Year-End Report must present estimates of the differences between the enacted level for all policies that are intended to benefit the country’s most impoverished populations and the actual outcome, including a narrative discussion. Answer “b” if the Year-End Report presents estimates of the differences between the enacted level for all policies that are intended to benefit the country’s most impoverished populations and the actual outcome, but does not include a narrative discussion. Answer “c” if estimates of the differences between the enacted level for some but not all of the policies that are intended to benefit the country’s most impoverished populations and the actual outcome are presented, regardless of whether a narrative discussion is included. A “d” response applies if estimates of the differences are not presented.

**Answer:**
d. No, estimates of the differences between the enacted level for policies that are intended to benefit directly the country’s most impoverished populations and the actual outcome are not presented.

Comment: While the Social Sector developments are discussed at length. This is only discussed in terms of nonfinancial outcomes, and not expenditure

95. Does the Year-End Report present the differences between the original estimates of extra-budgetary funds and the actual outcome?

GUIDELINES:
Question 95 asks whether the Year-End Report presents estimates of the differences between the original estimates of extra-budgetary funds and the actual outcome for the year, and whether these estimates are accompanied by a narrative discussion.

Refer to Question 33 for estimates of extra-budgetary funds in the Executive’s Budget Proposal.

To answer “a,” the Year-End Report must include estimates of the differences between all of the original estimates of extra-budgetary funds and the actual outcome, including a narrative discussion. Answer “b” if the Year-End Report presents estimates of the differences between all of the original estimates of extra-budgetary funds and the actual outcome, but does not include a narrative discussion. Answer “c” if estimates of the differences between some but not all of the original estimates of extra-budgetary funds and the actual outcome are presented, regardless of whether a narrative discussion is included. A “d” response applies if estimates of the differences are not presented

Answer: d. No, estimates of the differences between the original estimates of extra-budgetary funds and the actual outcome is not presented.

Comment:

96. Is a financial statement included as part of the Year-End Report or released as a separate report?

GUIDELINES:
Question 96 asks whether a financial statement is included as part of the Year-End Report, or whether it is released as a separate report. The financial statement can include some or all of the following elements: a cash flow statement, an operating statement, a balance sheet, and notes on accounting. For purposes of responding to this question, the financial statement in question does not need to be audited. For an example of a financial statement, see the document "Financial Statements of the Government of New Zealand 2013" (https://treasury.govt.nz/sites/default/files/2013-10/fsanz-year-jun13.pdf)
To answer “a,” a financial statement must either be included in the Year-End Report or must be released as a separate report. Answer “a” applies if a financial statement is released as a separate report, even if the Year-End Report is not publicly available. Answer “b” applies if no financial statement is released either as part of the Year-End Report or as a separate report.

Answer:

b. No, a financial statement is neither part of the Year-End Report nor released as a separate report.

Source:
https://www.mof.gov.zm/?page_id=5250

Comment:
Separate financial reports have been produced before (2010 and 2011, see second link above)
The 2021 financial statement was however not available on the MOFNP website at the time of the research. efforts to search online did not prove futile

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer: c. Not applicable/other (please comment).
Comments: There is a Financial Report called Statement C which highlights government expenditures.

97. What type of audits (compliance, financial, or performance) has the Supreme Audit Institution (SAI) conducted and made available to the public?

GUIDELINES:

Question 97 asks about the types of audits conducted by the Supreme Audit Institution (SAI). There are three basic types of audits:

- Financial audits are intended to determine if an entity’s financial information is accurate (free from errors or fraud) and presented in accordance with the applicable financial reporting and regulatory framework. See ISSAI 200 (https://www.issai.org/pronouncements/issai-100-fundamental-principles-of-public-sector-auditing/) for more detail.
- Compliance audits look at the extent to which the relevant regulations and procedures have been followed. See ISSAI 400 (https://www.issai.org/pronouncements/issai-400-compliance-audit-principles/) for more details.
- Performance audits assess whether activities are adhering to the principles of economy, efficiency, and effectiveness. See ISSAI 300 (https://www.issai.org/pronouncements/issai-300-performance-audit-principles/) for more details.

Financial and compliance audits are more common than performance audits, which usually occur only once a performance framework has been agreed upon. In some countries, the SAI’s mandate limits the type of audit it can conduct.

To answer “a,” the SAI must have conducted all three types of audit — financial, compliance, and performance — and made all of them available to the public. A “b” response applies if the SAI has conducted two of the three audit types, and a “c” applies if it has conducted only one type of audit. Answers “b” and “c” may be selected even if the Audit Report is not publicly available, as long as the SAI has conducted compliance or performance audits and made them available to the public. A “d” response applies if the SAI has not conducted any of the three types of audits, or has not made them available to the public.

Answer:

a. The SAI has conducted all three types of audits (compliance, financial, or performance) and made them available to the public.

Source:
https://www.ago.gov.zm/?wpfb_dl=266

Comment:
98. What percentage of expenditures within the mandate of the Supreme Audit Institution (SAI) has been audited?

GUIDELINES:
Question 98 focuses on the coverage of audits by the Supreme Audit Institution (SAI), asking what percentage of expenditures within the SAI’s mandate has been audited.

The SAI’s mandate is typically defined in statute. Only expenditures related to budgetary central government (ministries, departments, and agencies) that are within the SAI’s mandate should be considered for this question. (Question 99 addresses audits of extra-budgetary funds.) Further, the question does not apply to “secret programs” (for example, security-related expenditures that are confidential). Further, if the mandate gives the SAI the authority to outsource some audits, then those audits count for purposes of this question.

Only the Audit Report identified in Section 1 should be used to answer this question. Financial audits and compliance audits, or a hybrid of the two, can be taken into account to answer this question. Performance audits should not be considered for this question.

To answer “a,” all expenditures within the SAI’s mandate must be audited. A “b” response applies if at least two-thirds, but not all, expenditures within the SAI’s mandate have been audited. A “c” response is appropriate when less than two-thirds of expenditures within the SAI’s mandate have been audited. A “d” response applies when no expenditures have been audited.

Answer:
b. Expenditures representing at least two-thirds of, but not all, expenditures within the SAI’s mandate have been audited.

Source:
OAG staff (query was made in may 2022)

Comment:
OAG audits three quarters of the expenditures within its mandate

99. What percentage of extra-budgetary funds within the mandate of the Supreme Audit Institution (SAI) has been audited?

GUIDELINES:
Question 99 focuses on audits of extra-budgetary funds, asking what percentage of extra-budgetary funds within the mandate of the Supreme Audit Institution (SAI) has been audited. These funds, although technically outside the budget, are governmental in nature and thus should be subject to the same audit requirement as other government programs.

The SAI’s mandate is typically defined in statute. Only expenditures related to extra-budgetary funds within the SAI’s mandate should be considered for this question. (Question 98 addresses audits of budgetary central government.) Further, if the mandate gives the SAI the authority to outsource some audits, then those audits count for purposes of this question.
To answer “a,” all extra-budgetary funds within the SAI’s mandate must be audited. A “b” response applies if extra-budgetary funds accounting for at least two-thirds of, but not all, expenditures associated with extra-budgetary funds within the SAI’s mandate have been audited. A “c” response applies if extra-budgetary funds accounting for less than two-thirds of expenditures associated with extra-budgetary funds within the SAI’s mandate have been audited. A “d” response applies if extra-budgetary funds have not been audited.

Answer:
b. Extra-budgetary funds accounting for at least two-thirds of, but not all, expenditures associated with extra-budgetary funds within the SAI’s mandate have been audited.

Source:
https://www.ago.gov.zm/?page_id=5200
https://www.ago.gov.zm/?wpfb_dl=268

Comment:
All funds received by the treasury (control 99) have to be audited by the OAG. SAI in 2021 undertook audits of parastatal bodies of which ii is cited that not all produced audited financial statements contrary to their enabling acts.

100. Does the annual Audit Report(s) prepared by the Supreme Audit Institution (SAI) include an executive summary?

GUIDELINES:
Question 100 asks whether the annual Audit Report includes an executive summary. Only the Audit Report identified in Section 1 should be used to answer this question. The Audit Report can be a fairly technical document, and an executive summary of the report’s findings can help make it more accessible to the media and the public.

To answer “a,” the Audit Report must include at least one executive summary summarizing the report’s content. Answer “b” applies if the Audit Report does not include an executive summary, or the Audit Report is not made publicly available.

Answer:
a. Yes, the annual Audit Report(s) includes one or more executive summaries summarizing the report’s content.

GUIDELINES:

Question 101 asks whether the executive reports to the public on the steps it has taken to address audit recommendations made by the Supreme Audit Institution (SAI). The ultimate purpose of audits is to verify that the budget was executed in a manner consistent with existing law, and to hold the government accountable for this execution and its future improvement. The extent to which audits achieve the latter depends on whether there is adequate and timely follow-up on the recommendations provided in the SAI’s audit reports.

To answer “a,” the executive must report publicly on the steps it has taken to address all audit findings. A “b” response applies if the executive reports publicly on the steps it has taken to address most, but not all, audit findings. A “c” response applies if the executive reports publicly on the steps it has taken to address only some audit findings. As long as the executive reports publicly on the steps it has taken to address audit finding, answer “a,” “b,” or “c” may be selected, even if the Audit Report is not made publicly available. A “d” response applies if the executive does not report at all on its steps to address audit findings.

Answer:

d. No, the executive does not report on steps it has taken to address audit findings.

Source:
https://diggers.news/local/2022/10/24/5-tourism-operators-used-expired-concession-agreements-for-5-years-ag-report/

Comment:
The executive does not publish such a report. Sometimes statements are released in media but these do not detail steps taken or to be taken by the executive on erring officers.

GUIDELINES:

Question 102 asks whether the Supreme Audit Institution (SAI) or the legislature track actions by the executive to address audit recommendations. After audit results and recommendations are discussed and validated by the legislature, the executive is normally asked to take certain actions to address the audit findings. For accountability purposes, the public needs to be informed about the status of those actions, and steps the executive has taken to address audit recommendations. In addition to the executive reporting on its actions (see Question 101), the SAI and legislature — as the key oversight institutions — have a responsibility to keep the public informed by tracking the executive’s progress in addressing audit recommendations.

To answer “a,” the SAI or legislature must report publicly on what steps the executive has taken to address all audit findings. A “b” response applies if the SAI or legislature reports publicly on what steps the executive has taken to address most, but not all, audit findings. A “c” response applies if the SAI or legislature reports publicly on what steps the executive has taken to address only some audit findings. As long as the SAI or legislature reports publicly on the steps the executive has taken, answer “a,” “b,” or “c” may be selected, even if the Audit Report is not made publicly available. A “d” response applies if neither the SAI nor the legislature reports on the executive’s steps to address audit findings.

Answer:

d. No, neither the SAI nor legislature reports on steps the executive has taken to address audit recommendations.

https://www.ago.gov.zm/?wpfb_dli=266

Comment:
The reports acknowledges that v audit findings mentioned in this Report are those which were not resolved during the audit of accounts for the financial year ended 31st December 2021 and outstanding matters as reported in the Treasury Minute (Action Taken Report) for the period 2012 to 2019 from the Ministry of Finance
103. Is there an Independent Fiscal Institution (IFI) that conducts budget analyses for the budget formulation and/or approval process?

**GUIDELINES:**

Question 103 examines whether an Independent Fiscal Institution (IFI) exists that contributes budget analyses to the budget formulation and/or approval process. According to the Principles for Independent Fiscal Institutions, adopted by the OECD Council in 2014, “independent fiscal institutions are publicly funded, independent bodies under the statutory authority of the executive or the legislature which provide non-partisan oversight and analysis of, and in some cases advice on, fiscal policy and performance”, and with “a forward-looking ex ante diagnostic task”. In practice, they come in two main forms:

- Parliamentary budget offices (also known as PBOs) such as the Congressional Budget Office in the United States (https://www.cbo.gov/), the Parliamentary Budget Office in South Africa (https://www.parliament.gov.za/parliamentary-budget-office), and the Center for Public Finance Studies in Mexico (Centro de Estudios de las Finanzas Públicas, http://www.cefp.gob.mx/); or
- Fiscal councils such as the Office for Budget Responsibility in the United Kingdom (https://obr.uk/) and the High Council for Public Finances in France (Haut Conseil des finances publiques, https://www.hcfp.fr/).

To answer “a,” there must be an IFI, and its independence must be set in law. In addition, it must have sufficient staffing and resources, including funding, to carry out its tasks. Answer “b” applies if an IFI exists, but either its independence is not set in law or its staffing and resources are insufficient to carry out its tasks. Answer “c” applies if an IFI exists, but its independence is not set in law and it lacks sufficient staffing and resources. Answer “d” applies if no IFI exists.

If the answer is “a,” “b,” or “c,” please specify in the comments the name and type of IFI that exists (e.g., parliamentary budget office or fiscal council). If the answer is “a” or “b,” identify the law that guarantees its independence, and provide evidence in support of the assessment of the adequacy of its staffing and resources. This can include the IFI’s total budget allocation over recent years, any press reports that discuss perceived funding shortfalls, assessments by international organizations, and/or information from interviews with staff of the IFI.

**Answer:**
c. Yes, there is an IFI, but its independence is not set in law and its staffing and resources, including funding, are insufficient to carry out its tasks.

**Source:**
https://www.parliament.gov.zm/node/8325

**Comment:**
The Zambia Parliamentary Budget Office was established in 2015 as an interim office under Committee department and was then made into a department in 2017. It was through the support of the EU based on the Provisions of the Planning and Budgeting Policy. It is not set in law but looked at as semi independent.

104. Does the Independent Fiscal Institution (IFI) publish macroeconomic and/or fiscal forecasts?

GUIDELINES:
Question 104 assesses whether an Independent Fiscal Institution (IFI) has a role in producing the macroeconomic forecast (e.g., GDP growth, inflation, interest rates, etc.) and/or the fiscal forecast (revenues, expenditure, deficits, and debt), and if so, what kind of role it has. Macroeconomic and/or fiscal forecasting is a typical core function across IFIs, but their role in forecasting takes several forms (von Trapp et al. 2016, p. 17 and Table 2). Some IFIs produce just a macroeconomic forecast, while others produce a complete fiscal forecast (which also typically requires an underlying macroeconomic forecast). In some cases, the fiscal forecast reflects continuation of current budget policies; such forecasts can be used by the legislature, the media, or the public to assess the projections in the executive’s budget reflecting the government’s policy proposals.

Some IFIs produce the official macroeconomic and fiscal forecasts used in the executive’s budget. In other cases, IFIs do not prepare their own independent forecasts, but rather produce an assessment of the official estimates, or provide an opinion on, or endorsement of, the government’s forecasts. Some others have no role at all in forecasting.

To answer “a”, there must be an IFI that publishes both its own macroeconomic AND fiscal forecasts. Answer “b” applies if an IFI publishes its own macroeconomic OR fiscal forecast (but not both). Answer “c” applies if the IFI does not publish a macroeconomic or fiscal forecast, but rather publishes an assessment of the official forecasts produced by the executive and used in the budget. Choose option “d” if there is no IFI; or if there is an IFI that neither publishes its own macroeconomic and/or fiscal forecasts, nor a commentary on the official forecasts for the budget.

Macroeconomic forecasts may include indicators relating to economic output and economic growth, inflation, and the labor market, amongst others. Fiscal forecasts may include estimates of revenues, expenditures, the budget balance, and debt. If the answer is “a” or “b”, please specify which indicators and estimates are included in the forecasts and whether the forecast is used by government as the official forecast. If the answer is “c,” please describe the nature and depth of the assessment (e.g., the length of the commentary, or whether it covers both economic and fiscal issues).

Answer:
d. No, there is no IFI; or the IFI neither publishes its own macroeconomic and/or fiscal forecasts, nor a commentary on the official forecasts produced by the executive.

Source:
JCTR interaction with the PBO

Comment:
Zambia’s parliamentary budget office to date only carries out analysis of information produced by the executive which is then presented to the Budget committee. The limitation in human resource possess a challenge to the preparation of macroeconomic and fiscal forecasts on broader scale i.e. compared to capacities at MOFNP.

105. Does the Independent Fiscal Institution (IFI) publish its own costings of new policy proposals, to assess their impact on the budget?

GUIDELINES:
Question 105 assesses whether an Independent Fiscal Institution (IFI) has a costing function that involves assessing the budgetary implications of new policy proposals for both revenues and expenditures, and if so, what kind of role it has. Many IFIs have a costing role, but with substantial diversity in the nature and extent of this work (von Trapp et al 2016, pp. 17-18 and Table 2). Some assess virtually all new policy proposals, while others cost only a selection of new policy proposals. Others only publish opinions on, or scrutinize the costings of, budget measures produced by the executive.

To answer “a,” the IFI must publish its own costings of all (or virtually all) new policy proposals. Answer “b” applies if the IFI publishes its own costings, but...
only for major new policy proposals – for instance, only those proposals that cost or save above a certain amount. Answer “c” applies if the IFI publishes its own costings, but only on a limited number of proposals. This could occur, for instance, if the IFI lacked the capacity to assess proposals dealing with certain sectors. Instead of producing a cost estimate, it can also publish an assessment of the estimates produced by the executive. Answer “d” applies if there is no IFI; or if the IFI does not publish its own costings of new policy proposals or provide an assessment of the official costings of new policy proposals.

**Answer:**

d. No, there is no IFI; or the IFI does not publish its own costings of new policy proposals.

**Source:**
PBO staff interactions with JCTR

**Comment:**
Costing policy proposals is one of the functions of the PBO. PBO has not carried out any because of staff and capacity constraints.

---

**106. In the past 12 months, how frequently did the head or a senior staff member of the Independent Fiscal Institution (IFI) take part and testify in hearings of a committee of the legislature?**

**GUIDELINES:**
Question 106 concerns the interaction between two important oversight actors and assesses how frequently the Independent Fiscal Institution (IFI) made high-level inputs to the work of legislative committees. Almost all IFIs interact with the legislature in some form (von Trapp et al. 2016, p. 18), but the intensity of the interaction varies. This question assesses this aspect by asking, with reference to the past 12 months, how frequently the head or a senior staff member of the IFI took part and testified in hearings of a committee of the legislature. The intent is to assess the extent to which the IFI staff member in question was not only present at a meeting of a legislative committee, but was an active participant (as opposed to a passive observer, serving only as a resource when called upon). As evidence to support your answer, you can refer to official records of legislative committees, websites and annual reports of the IFI, press releases and media coverage, for example. Choose answer “a” if this occurred five times or more; “b” for three times or more, but less than five times; and “c” for once or twice. Answer “d” should be selected if the head or a senior staff member of the IFI never took part and testified in hearings of a committee of the legislature, or if there is no IFI.

**Answer:**
b. Sometimes (i.e., three times or more, but less than five times).

**Source:**
Interview with PBO staff

**Comment:**
It was noted that the senior staff of the PBO made presentations to the Expanded Budget Committee, the Budget Committee three times in the past 12 months. This was normally inclined to the budget and MTIP preparation.
107. Does the full legislature and/or a legislative committee debate budget policy prior to the tabling of the Executive’s Budget Proposal?

GUIDELINES:

Question 107 asks whether the legislature debated budget policies prior to the tabling of the Executive’s Budget Proposal for the most recent budget year before the research cut-off date. In general, prior to discussing the Executive’s Budget Proposal for the coming year, the legislature should have an opportunity to review the government’s broad budget priorities and fiscal parameters. Often times this information is laid out in a Pre-Budget Statement, which the executive presents to the legislature for debate. (See Questions 54-58.)

A number of countries conduct a pre-budget debate in the legislature around six months before the start of the budget year. In some cases, they adopt laws that guide the upcoming budget, for example the Budget Guidelines Law in Brazil and the Spring Fiscal Policy Bill in Sweden. A pre-budget debate can serve two main purposes: 1) to allow the executive to inform the legislature of its fiscal policy intentions by presenting updated reports on its annual and medium-term budget strategy and policy priorities; and 2) to establish “hard” multi-year fiscal targets or spending ceilings, which the government must adhere to when preparing its detailed spending estimates for the upcoming budget year.

To answer “a,” the full legislature must debate budget policy prior to the tabling of the Executive’s Budget Proposal and approve recommendations for the upcoming budget.

Answer “b” applies if a legislative committee (but not the full legislature) debates budget policy prior to the tabling of the Executive’s Budget Proposal, and approves recommendations for the budget. Option “b” also applies if, in addition to the action by the committee, the full legislature also debates budget policy in advance of the budget, but does not approve recommendations.

Answer “c” applies if the full legislature and/or a legislative committee debates budget policy prior to the tabling of the Executive’s Budget Proposal, but does not approve recommendations for the budget. Answer “d” applies if neither the full legislature nor any legislative committee debate budget policy prior to the tabling of the Executive’s Budget Proposal.

In your comment, please indicate the dates of the budget debate, and if both the full legislature and a legislative committee held a debate. Note that a debate does not need to be open to the public, but a public record of the meeting or a public notice that the meeting occurred is required. In addition, please indicate whether the budget debate was focused on a Pre-Budget Statement published by the Executive. If the Executive did not publish a Pre-Budget Statement, then please indicate what served as the focus of the legislature’s debate (for instance, a report released by an IFI or some other institution).

Answer:
d. No, neither the full legislature nor any legislative committee debate budget policy prior to the tabling of the Executive’s Budget Proposal.

Source:
Interaction with PBO staff

Comment:
Debates took place in the house after presentation of the EBP. However, the Planning and Budget committee did scrutinize the 2023-2025 Medium Term Budget Plan and 2023 Annual Budget Green Paper where stakeholders such as JCTR provided feedback (on July 27th 2022). Outcomes of stakeholder feedback and ultimately the committee report are not known.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Disagree
Suggested Answer:
b. Yes, a legislative committee debates budget policy prior to the tabling of the Executive’s Budget Proposal, and approves recommendations for the upcoming budget.

Comments: There are Cabinet meetings prior to the presentation of the budget where recommendations for the upcoming budget tabled.

IBP Comment
IBP notes the government reviewer’s comment on the Cabinet meetings. However, the Cabinet is an executive, not the legislative, and the question assesses legislative efforts on budget discussion. The researcher’s response of “D” remains valid. https://www.znbc.co.zm/news/cabinet-approves-2024-budget/?fbclid=IwAR1CkyzwMRSygJEvthDu1ydUNQeKIAFL74Ljd8SSoJO3T8vaU0kRfZx4
108. How far in advance of the start of the budget year does the legislature receive the Executive’s Budget Proposal?

GUIDELINES:

Question 108 examines how far in advance of the start of the most recent budget year the legislature receives the Executive’s Budget Proposal. International good practice recommends that the Executive’s Budget Proposal should be submitted to the legislature far enough in advance to allow the legislature time to review it properly, or at least three months prior to the start of the fiscal year. (See, for instance, Principle 2.2.2 of the IMF’s Fiscal Transparency Handbook (2018) (https://www.elibrary.imf.org/view/IMF069/24788-9781484331859/24788-9781484331859/24788-9781484331859.xml).

For the purposes of responding to this question, if – and only if – the most recent budget submission occurred later than usual as a result of a particular event, such as an election, please use a more normal year as the basis for the response. If, however, delays have been observed for more than one budget year, and the legislature has not received the Executive’s Budget Proposal in a timely manner on more than one occasion in the last three years, then “d” will be the appropriate answer.

To answer “a,” the legislature must receive the Executive’s Budget Proposal at least three months in advance of the start of the budget year. Answer “b” applies if the legislature receives the Executive’s Budget Proposal at least two months, but less than three months, before the start of the budget year. Answer “c” applies if the legislature receives the Executive’s Budget Proposal at least one month, but less than two months, before the start of the budget year. Answer “d” applies if the legislature does not receive the Executive’s Budget Proposal at least one month prior to the start of the budget year, or does not receive it at all.

Answer:

a. The legislature receives the Executive’s Budget Proposal at least three months before the start of the budget year.

109. When does the legislature approve the Executive’s Budget Proposal?

GUIDELINES:

Question 109 examines when the legislature approves the Executive’s Budget Proposal. International good practice recommends that the Executive’s Budget Proposal should be approved by the legislature before the start of the fiscal year the budget proposal refers to. This gives the executive time to implement the budget in its entirety, particularly new programs and policies.

In some countries, the expenditure and revenue estimates of the Executive’s Budget Proposal are approved separately; for purposes of this question, at least the expenditure estimates must be approved. Further, approval of the budget implies approval of the full-year budget, not just a short-term continuation of spending and revenue authority.

To answer “a,” the legislature must approve the Executive’s Budget Proposal at least one month before the start of the budget year. Answer “b” applies if the legislature approves the Executive’s Budget Proposal less than one month in advance of the start of the budget year, but at least by the start of the budget year. Answer “c” applies if the legislature approves the Executive’s Budget Proposal less than one month after the start of the budget year. Answer “d” applies if the legislature approves the Executive’s Budget Proposal more than one month after the start of the budget year, or does not approve the budget.

Answer:

b. The legislature approves the budget less than one month in advance of the start of the budget year, but at least by the start of the budget year.

Source:
110. Does the legislature have the authority in law to amend the Executive’s Budget Proposal?

**GUIDELINES:**

Question 110 examines the legislature’s power to amend—as opposed to simply accept or reject—the budget proposal presented by the executive. This question is about legal authority rather than actions the legislature takes in practice. The legislature’s powers to amend the budget can vary substantially across countries.

The “a” response is appropriate only if there are no restrictions on the right of the legislature to modify the Executive’s Budget Proposal, including its right to change the size of the proposed deficit or surplus. The “b” response would be appropriate if, for instance, the legislature is restricted from changing the deficit or surplus, but it still has the power to increase or decrease funding and revenue levels. The more limited “c” response would apply if, for instance, the legislature can only re-allocate spending within the totals set in the Executive’s Budget Proposal or can only decrease funding levels or increase revenues. Finally, response "d" would apply if the legislature may not make any changes (or only small technical changes), or if amendments must first be approved by the executive. In these cases, the legislature is essentially only able to approve or reject the budget as a whole. If the answer is "b" or "c", please indicate the nature of the amendment powers available to the Parliament and how they are limited.

**Answer:**

c. Yes, the legislature has authority in law to amend the Executive’s Budget Proposal, but its authority is very limited.

**Source:**

Constitution of Zambia

Interactions with PBO staff

**Comment:**

The provisions are that the National Assembly shall not amend the total amount of estimates of revenue and expenditure but may vary estimates of revenue and expenditure.

In practice, Cabinet Members e.g. the Minster of Finance, who also is an MP, can propose changes to the Budget Estimates and these have been approved. But moving funds from one head to another proves complex as each committee tends to defend their budget. Movements within a head therefore tend to be more common.

**Peer Reviewer**

Opinion: Agree

**Government Reviewer**

Opinion: Agree

**Suggested Answer:**

b. Yes, the legislature has authority in law to amend the Executive’s Budget Proposal, with some limitations.

**Comments:** The legislature body backstops recommended estimates. However, this mostly applies to variation of funds within the proposed estimates.

**IBP Comment**

IBP agrees with the researcher.
### 111. During the most recent budget approval process, did the legislature use its authority in law to amend the Executive’s Budget Proposal?

**GUIDELINES:**
Question 111 assesses whether any formal authority of the legislature to amend the Executive’s Budget Proposal is used in practice. The responses to this question should be determined based on action by the legislature related to the Enacted Budget used in the OBS. Choose answer “a” if the legislature used its authority in law to amend the Executive’s Budget Proposal during the most recent budget approval process, and amendments were adopted (all, or at least some of them). Answer “a” also applies if the legislature used its authority in law to amend the Executive’s Budget Proposal, but the amendments were rejected by executive veto. Answer “b” applies if the legislature used its authority in law to propose amendments to the Executive’s Budget Proposal, but none of these amendments were adopted. Answer “c” applies if the legislature has the authority in law to amend the budget, but no amendments were proposed during its consideration. Answer “d” applies when the legislature does not have any authority to amend the budget (that is, Question 110 is answered “d”).

If the answer is “a” or “b”, please specify in the comments the number of amendments introduced by the legislature (and in the case of an “a” response, the number adopted, or if applicable, information about an executive veto) and describe their nature. For example, did the amendments result in an increase or decrease of the deficit? What were the most significant amendments to revenues and to expenditures in terms of the sums involved? How did amendments affect the composition of expenditures? If the answer is “a,” please specify which amendments were adopted, and provide evidence for it.

| Answer | c. No, while the legislature has the authority in law to propose amendments to the Executive's Budget Proposal, no amendments were offered. |
| Source | PBO staff |
| Comment | Article 202 (4)  
In practice it is seen that Cabinet Members e.g. the Minister of Finance, who also is an MP, can propose changes to the Budget Estimates and these have been approved. However moving funds from one head to another proves complex as each committee will defend their budget.  
In the last budget sitting, the legislature only dealt with amendments that the Minister of Finance moved. None of the Committees and individual members moved any amendments despite having the power to do so as long as they do not affect the total budget figure (appropriation bill passed after the all three readings). |

**Opinion:** Agree

### 112. During the last budget approval process, did a specialized budget or finance committee in the legislature examine the Executive's Budget Proposal?

**GUIDELINES:**
Question 112 assesses the role of a specialized budget or finance committee during the budget approval stage. Effective committee involvement is an essential condition for legislative influence in the budget process. Specialized committees provide opportunities for individual legislators to gain relevant expertise, and to examine budgets and policy in depth. Yet, the involvement of committees differs across legislatures. Some legislatures have separate committees to examine spending and tax proposals, while others have a single finance committee. Not all legislatures have a specialized budget or finance committee to examine the budget. In addition, there can be differences in the time available for the committee’s analysis of the budget.

A report with the committee’s findings and recommendations is intended to inform the debate in the full legislature, therefore it must be published before the legislature has adopted the budget.

**Response “a” requires that, in the last budget approval process, a specialized budget or finance committee had one month or more to examine the Executive’s Budget Proposal, and it published a report with findings and recommendations prior to the budget being adopted. Response “b” applies where such a committee examined the draft budget and published a report, but within a shorter timeframe of less than one month. Response “c” applies if a committee examined the budget (without regard to the time period), but did not publish a report prior to the adoption of the budget. Response “d” applies where a**
specialized budget or finance committee did not examine the Executive’s Budget Proposal.

Please specify in your comment the name of the committee and the number of days it had available to examine the budget. For bicameral legislatures where one house or chamber has greater constitutional authority in budgetary matters, the question applies to the house or chamber (usually the upper or second one) that is decisive. For bicameral legislatures with co-equal houses or chambers, the question should be answered with reference to the one that achieves the higher score for this question. In the case of bicameral legislatures, please note the relevant arrangements in each house or chamber. If applicable, provide a copy of the report. Please note also if a report is published, but only after the budget has been adopted.

**Answer:**

b. Yes, a specialized budget or finance committee had less than one month to examine the Executive’s Budget Proposal, and it published a report with findings and recommendations prior to the budget being adopted.

**Source:**

PBO staff

**Comment:**

The Expanded Budget Committee is given 10 days to examine the EBP.

113. During the last approval process, did legislative committees, responsible for particular sectors (e.g., health, education, defense, etc.), examine spending in the Executive’s Budget Proposal related to the sector for which they are responsible?

**GUIDELINES:**

Question 113 assesses the role of committees of the legislature that are responsible for particular sectors (e.g., health, education, defense, etc.) during the budget approval stage. The role of sectoral committees differs across legislatures. Some legislatures do not involve them in the budget approval process, while others do. In addition, the time available for committee analysis differs.

A report with the committee’s findings and recommendations is intended to inform the debate in the full legislature, so therefore must be published before the legislature has adopted the budget. Response “a” requires that sector committees had one month or more to examine the Executive’s Budget Proposal, and published a report with findings and recommendations prior the budget being adopted. Response “b” applies where such committees examined the draft budget and published a report, but within a shorter timeframe of less than one month. Response “c” applies if sectoral committees examined the budget (without regard to the time period), but did not publish a report prior to the adoption of the budget. Response “d” applies where sectoral committees did not examine the Executive’s Budget Proposal.

Please note that the examination of sectoral budgets by a specialized budget or finance committee is assessed in Question 112 and should not be considered for this question.

Please provide in the comments a brief overview of the committee structure and specify the number of days that sectoral committees had available to examine the budget and to publish their reports. For bicameral legislatures where one house or chamber has greater constitutional authority in budgetary matters, the question applies to the house or chamber (usually the upper or second one) that is decisive. For bicameral legislatures with co-equal houses or chambers, the question should be answered with reference to the one that achieves the higher score for this question. In the case of bicameral legislatures, please note the relevant arrangements in each house or chamber. If applicable, provide a sample copy of at least one of the reports. Please note if a report is published, but only after the budget has been adopted.

For purposes of responding to this question, use those sectoral committees that are best performing – that is, the ones that examine the budget the longest and that publish reports.

**Answer:**
d. No, sector committees did not examine the Executive’s Budget Proposal.

114. In the past 12 months, did a committee of the legislature examine in-year implementation of the Enacted Budget during the relevant budget execution period?

GUIDELINES:
Question 114 is about legislative oversight of budget execution. It assesses whether and how often a committee examined the implementation of the budget during the budget execution period (i.e., financial year) for which it was approved, and whether this resulted in an official report with findings and recommendations. This question does not apply to the ex post review of implementation following the end of the budget year as part of the audit stage, which is assessed separately. Nor does it apply to the legislature’s review of the budget that it may undertake as part of the process of considering a supplemental budget during the year. In-year monitoring by the legislature will be affected by the frequency that the executive publishes In-Year Reports.

To answer “a,” a committee must have examined in-year implementation of the Enacted Budget at least three times during the course of the relevant budget year and published reports with findings and recommendations. Answer “b” applies where this occurred only once or twice during the year.

Exception: If a legislature is in session only twice during the year, and it examines the implementation of the budget during both sessions, then it would be eligible for an “a” response.

Choose “c” if a committee examined in-year implementation (without regard to frequency), but did not publish any report with findings and recommendations. Answer “d” applies where no committee examined in-year implementation.

If the answer is “a” or “b,” please specify the name of the committee and when it reviewed budget implementation, and provide a copy of its report(s). If the answer is “c,” please specify the name of the committee and when it reviewed budget implementation.

For purposes of responding to this question, if more than one committee holds in-year reviews of the budget, use the committee that is best performing – that is, the one that examines in-year implementation the most times and that publishes a report.

Answer:

d. No, a committee did not examine in-year implementation.

115. Does the executive seek approval from the legislature prior to shifting funds between administrative units that receive explicit funding in the Enacted Budget, and is it legally required to do so?

GUIDELINES:
Question 115 examines whether the executive seeks approval from the legislature prior to shifting funds between administrative units, and whether it is legally required to do so.

In some countries, the executive has the power in law to adjust funding levels for specific appropriations during the execution of the budget. This question examines rules around shifting funds between administrative units (ministries, departments, or agencies) or whatever funding unit (or "vote") is specified in the Enacted Budget.

The conditions under which the executive may exercise its discretion to shift funds should be clearly defined in publicly available regulations or law. In addition, the amount of funds that the executive is allowed to transfer between administrative units should not be so excessive as to undermine the accountability of the executive to the legislature.

To answer "a," the executive is required by law or regulation to obtain prior legislative approval before shifting funds between administrative units, and it does so in practice. Answer "b" applies if the executive obtains legislative approval before shifting funds between administrative units, but is not legally required to do so. Answer "c" applies if the executive is legally required to receive legislative approval before shifting funds, but does not do so in practice. Answer "d" applies if legislative approval is not legally required for the executive to shift funds between administrative units and the executive does not obtain legislative approval in practice. Answer "d" also applies if the executive is authorized to shift an amount considered so excessive as to undermine accountability (roughly equal to 3 percent of total budgeted expenditures). A "d" response applies if the legislature only approves the shifting of funds after it has already occurred.

In the comments, please indicate any law or regulation that provides the executive with standing authority to shift funds between administrative units and, if so, describe that authority. Similarly, legislative approval for shifting funds between administrative units typically occurs with the adoption of legislation such as a supplemental budget. But if other formal procedures for gaining approval from the legislature exist, then please provide information about that approval process.

Answer:
d. There is no law or regulation requiring the executive to obtain approval from the legislature prior to shifting funds between administrative units, and in practice the executive shifts funds between administrative units before obtaining approval from the legislature.

Source:
https://www.parliament.gov.zm/node/7513

Comment:
Line ministries vary funds within the Ministry with the permission of the Secretary to the Treasury and once approval is received the information is conveyed to the Office of the Auditor General. Parliament only passes supplementary budgets but in some cases this is done after the spending by the ministry has already occurred.

Article 39 of the Public Finance management Act No. 1 of 2018 states: Variation of Funds: 39. Where additional expenditure on one item can be met from savings on another item within the appropriation, funds may be varied as shall be prescribed.

However Regulations that guide the varying of funds according to this law are not available.
116. Does the executive seek approval from the legislature prior to spending excess revenue (that is, amounts higher than originally anticipated) that may become available during the budget execution period, and is it legally required to do so?

**GUIDELINES:**

Question 116 examines whether the executive receives approval from the legislature prior to spending excess revenue, and whether it is legally required to do so. Good practice requires the legislature to approve changes in revenue or expenditure relative to the Enacted Budget. For example, if additional revenue is collected unexpectedly during the year, which often happens in oil/mineral-dependent countries, and it was not accounted for in the Enacted Budget, there should be a procedure in place to ensure that the legislature approves any proposed use of these “new” funds. If such requirements are not in place, the executive might deliberately underestimate revenue in the budget proposal it submits to the legislature, in order to have additional resources to spend at the executive’s discretion, with no legislative control.

To answer “a,” the executive is required by law or regulation to obtain prior legislative approval before spending any funds resulting from higher-than-expected revenues, and it does so in practice. Answer “b” applies if the executive obtains legislative approval before spending excess revenue, but is not legally required to do so. Answer “c” applies if the executive is legally required to receive legislative approval before spending excess revenue, but does not do so in practice. Answer “d” applies if prior legislative approval is not legally required for the executive to spend excess revenue and the executive does not obtain legislative approval in practice. A “d” response applies if the legislature only approves the additional spending after it has already occurred.

Typically, legislative approval of additional spending beyond what was reflected in the Enacted Budget would occur with the adoption of a supplemental budget. But other formal procedures for getting approval from the legislature in advance of it adopting the supplemental budget may exist. If that is the case, then please provide information about that approval process.

**Answer:**
d. There is no law or regulation requiring the executive to obtain approval from the legislature prior to spending excess revenues, and in practice the executive spends these funds before obtaining approval from the legislature.

**Source:**
https://www.parliament.gov.zm/node/7513

**Comment:**
Article 28 of the Public Finance Management Act No. 1 of 2018 states that general revenues shall all be transmitted to the Consolidated fund. General revenues is described as includes income accruing to the Republic through taxes, fees, fines, levies, charges, sale of Government property and shares, loans, donations and grants raised from within or outside Zambia due to the Republic;

For release of this revenue, an Appropriation Act must be passed before parliament (Article 30). However there is no specific mention of how funds in excess of the projected revenues may be used or released.

**Peer Reviewer**

**Opinion:** Agree

**Government Reviewer**

**Opinion:** Disagree

**Suggested Answer:**
b. The executive obtains approval from the legislature prior to spending excess revenue, but is not required to do so by law or regulation.

**Comments:** For context, if the Appropriations Act for a financial year is insufficient to meet expenditures e.g., high than projected releases from cooperating partners, then there is need for supplementary funding to accommodate that expenditure. This is in line with Article 203 (2) of the Constitution of Zambia (Amendment) Act No. 2 of 2016.

**IBP Comment**

IBP agrees with the researcher. While the Article 203 (1-3) addresses the Minister’s function in seeking supplementary expenditure, it does not however speak to excess revenue collected within the year after the budget has been enacted. For cross-country comparability and as in previous rounds, the response 'D' remains.

117. Does the executive seek approval from the legislature prior to reducing spending below the levels in the Enacted Budget in response to revenue shortfalls (that is, revenues lower than originally anticipated) or other reasons during the budget execution period, and is it legally required to do so?

**GUIDELINES:**

Question 117 examines whether the executive receives approval from the legislature prior to cutting spending below the levels in the Enacted Budget in
response to revenue shortfalls or for any other reason, and whether it is legally required to do so. Good practice requires the legislature to approve changes in revenue or expenditure relative to the Enacted Budget. For example, if less revenue is collected unexpectedly during the year, the legislature should approve or reject any proposed reductions in expenditures that are implemented as a result. If such requirements are not in place, the executive might substantially change the composition of the budget at the executive’s discretion, with no legislative control.

Typically, legislative approval of proposals to reduce spending below the levels reflected in the Enacted Budget would occur as part of the supplemental budget. But other formal procedures for getting approval from the legislature in advance of it adopting the supplemental budget may exist. If that is the case, then please provide information about that approval process.

To answer “a,” the executive is required by law or regulation to obtain prior legislative approval before implementing spending cuts in response to revenue shortfalls or for other reasons, and it does so in practice. Answer “b” applies if the executive received legislative approval before implementing such cuts, but is not legally required to do so. Answer “c” applies if the executive is legally required to obtain legislative approval before implementing such cuts, but does not do so in practice. Answer “d” applies if legislative approval is not legally required for the executive to implement such cuts and the executive does not obtain such approval in practice. A “d” response applies if the legislature only approves the spending cuts after they have already occurred.

Answer:

b. The executive obtains approval from the legislature prior to reducing spending below enacted levels, but is not required to do so by law or regulation.

118. Did a committee of the legislature examine the Audit Report on the annual budget produced by the Supreme Audit Institution (SAI)?

GUIDELINES:

Question 118 is about post oversight following the implementation of the budget. It probes whether a committee examined the Audit Report on the annual budget produced by the Supreme Audit Institution (SAI), and whether this resulted in an official report with findings and recommendations. A key issue is how soon after the SAI releases the report does the legislature review it. This question does not apply to the legislative scrutiny of in-year implementation of the Enacted Budget during the relevant budget execution period, which is assessed separately. Also, the question is asking specifically about the SAI’s annual report on the execution of the budget, not about other audit reports that the SAI may produce. (This is the Audit Report used for responding to Question 98.)

To answer “a,” a legislative committee must have examined the annual Audit Report within three months of it being released by the SAI, and then published a report (or reports) with findings and recommendations. (Note that the three-month period should only take into account time when the legislature is in session.)

Answer “b” applies when the committee examines it within six months of it being released (but more than three months), and then published a report with its findings and recommendations. Choose “c” if a committee examined the annual Audit Report more than six months after it became available or it did not publish any report with findings and recommendations. Answer “d” applies where no committee examined the annual Audit Report.

If the answer is “a” or “b,” please specify the name of the committee and when it reviewed the Audit Report, and provide a copy of its report(s). If the answer is “c,” please specify the name of the committee and when it reviewed budget implementation. Answers “a,” “b,” or “c” may be selected if the Audit Report is produced by the SAI but not made publicly available.

Answer:

c. Yes, a committee examined the Audit Report on the annual budget, but it did so after the report had been available for more than six months or it did not publish any report with findings and recommendations.

https://www.parliament.gov.zm/sites/default/files/documents/committee_reports/Report%20of%20the%20Public%20Accounts%20Committee%20on
119. Was the process of appointing (or re-appointing) the current head of the SAI carried out in a way that ensures his or her independence?

**GUIDELINES:**
Question 119 concerns the appointment process of the current head of the Supreme Audit Institution (SAI). Appointment procedures vary greatly across countries, as well as across different types of SAIs. Moreover, conventions and informal practices can greatly affect the de facto independence of the head of the SAI. While these factors make it difficult to devise a single metric against which all SAIs can be assessed with regard to this particular aspect, this question focuses on whether the legislature or judiciary must appoint or approve the appointment of the head of the SAI as a way to ensure the SAI's independence from the executive. However, if the appointment is carried out in another way that nonetheless ensures the independence of the SAI head, then that approach could also be considered.

To answer “a,” the legislature or judiciary must appoint (or re-appoint) the head of the SAI, or approve the recommendation of the executive, as a way that ensure his or her independence from the executive. (As noted above, alternative approaches may also be acceptable.) Choose “b” if the appointment process does not ensure the independence of the head of the SAI, e.g. the executive may appoint the head of the SAI without the final consent of the legislature or judiciary.

Irrespective of which answer you selected, provide a description of how the head of the SAI is appointed.

| Answer: | a. Yes, the head of the SAI may only be appointed by the legislature or judiciary, or the legislature or judiciary must give final consent before the appointment takes effect. |
| Comment: | The current Auditor General's appointment was ratified by Parliament in December 2019 as per provisions of the Constitution Amendment Act of 2016. The Act does provide that the AG should be appointed by the Republican President subject to the ratification of Parliament. The specific provisions in the Constitution of Zambia (Amendment) [No. 2 of 2016 are:
   -249. (1) There shall be an Auditor-General who shall be appointed by the President, on the recommendation of the State Audit Commission, subject to ratification by the National Assembly.
   -250. (2) The Auditor-General shall not be subject to the direction or control of a person or an authority in the performance of the functions of office. Constitution Amendment Act 2016 |

Opinion: Agree
120. Must a branch of government other than the executive (such as the legislature or the judiciary) give final consent before the head of the Supreme Audit Institution (SAI) can be removed from office?

GUIDELINES:

Question 120 covers the manner in which the head or senior members of the SAI may be removed from office. This question draws on best practices identified in the Lima Declaration of Guidelines on Auditing Precepts (http://internationalbudget.org/wp-content/uploads/LimaDeclaration.pdf), including measures intended to guarantee the office’s independence from the executive.

To answer “a,” the head of the SAI may only be removed by the legislature or judiciary, or the legislature or judiciary must give final consent before the head of the SAI is removed. For example, the legislature or judiciary may give final consent following a certain external process, such as a criminal proceeding. So while the executive may initiate a criminal proceeding, the final consent of a member of the judiciary — or a judge — is necessary to render a verdict of wrongdoing that may lead to the removal from office of the head of the SAI. Answer “b” applies if the executive may remove the head of the SAI without the final consent of the judiciary or legislature.

Answer:

a. Yes, the head of the SAI may only be removed by the legislature or judiciary, or the legislature or judiciary must give final consent before he or she is removed.

Source:

Comment:
The provisions for the removal of the head of the Zambian SAI is provided for in the constitution on the same grounds and procedure that apply to a judge. Zambia has not had any precedent of an Auditor General removed from his/her office

121. Who determines the budget of the Supreme Audit Institution (SAI)?

GUIDELINES:

Question 121 asks who determines the budget of the Supreme Audit Institution (SAI). To ensure objective audits of government budgets, another important component of the SAI’s independence from the executive is the extent to which the SAI’s budget is determined by a body other than the executive, and whether the SAI has adequate resources to fulfill its mandate.

Answer “a” applies if the funding level is broadly consistent with the resources the SAI needs to fulfill its mandate, AND either the SAI determines its own budget and then submits it to the executive (which accepts it with little or no change) or directly to the legislature, or the budget of the SAI is determined directly by the legislature or judiciary (or some independent body). Answer “b” applies if the SAI’s budget is determined by the executive (absent a recommendation from the SAI), and the funding level is broadly consistent with the resources the SAI needs to fulfill its mandate. Answer “c” applies if the legislature or judiciary (or some independent body) determines the SAI’s budget, but the funding level is not consistent with the resources the SAI needs to fulfill its mandate. Answer “d” applies if the executive determines the SAI’s budget, and the funding level is not consistent with the resources the SAI needs to fulfill its mandate. Please provide evidence in support of the assessment that the funding level is or is not broadly consistent with the resources the SAI needs to fulfill its mandate.

Answer:

c. The budget of the SAI is determined by the legislature or judiciary (or some independent body), but the funding level is not consistent with the resources the SAI needs to fulfill its mandate.
OAG interaction with staff

Comment:
Staff shared that the budget ceilings are received from the Ministry of Finance as is done for other MPSAs, they then submit a budget in line with this ceiling which is usually approved with minimal changes. Staff also noted that the information on constraints from the Main Report of the AG would also be relevant (pg 2)

*The staffing position in the Office has been improving over the years. However, the Office has not yet attained optimum levels required to audit the Ministries, Provinces and Agencies

*During the period under review, the Office faced a challenge of inadequate and aging fleet of motor vehicles required for use in executing our mandate as most of the vehicles were procured during the period from 2007 to 2015. Consequently, this has continued to negatively impact the targeted time of completing the audit activities. Although the Office received support from government and cooperating partners to procure motor vehicles, the gap still exits

122. Does the Supreme Audit Institution (SAI) have the discretion in law to undertake those audits it may wish to?

GUIDELINES:
Question 122 explores the scope of the investigative powers of the Supreme Audit Institution (SAI) as prescribed in law.

Question 97 asks which of the three types of audits — financial, compliance, and performance — the SAI conducts. This question asks if the SAI is constrained by law (rather than by a lack of capacity or an inadequate budget) from undertaking any form of audit or investigating irregularities in any program or activity.

There are numerous examples of limitations. For instance, some SAIs are not permitted by their legal mandate to audit joint ventures or other public-private arrangements. Others are only allowed to undertake financial audits, precluded from conducting performance or value-for-money audits. The SAIs in some countries do not have the legal mandate to review arrangements involving oil or stabilization funds, or other types of special or extra-budgetary funds. The SAI may also not have the ability to audit commercial projects involving the public and private sector.

To answer “a,” the SAI must have full discretion in law to decide which audits to undertake. Answer “b” applies if some limitations exist, but the SAI enjoys significant discretion to undertake those audits it wishes to. Answer “c” applies if the SAI has some discretion, but significant legal limitations exist. Answer “d” applies if the SAI has no power at all to choose which audits to undertake

Consulting the Lima Declaration of Guidelines on Auditing Precepts (http://internationalbudget.org/wp-content/uploads/LimaDeclaration.pdf) may be useful in answering this question as its provisions serve to define the appropriate scope of a SAI’s legal mandate and jurisdiction.

Answer:
a. The SAI has full discretion to decide which audits it wishes to undertake.

Constitution of Zambia

Comment:
123. Are the audit processes of the Supreme Audit Institution (SAI) reviewed by an independent agency?

GUIDELINES:

Question 123 assesses whether and to what extent the audit processes of the Supreme Audit Institution (SAI) are subject to review by an independent agency. The latter could be a peer SAI, an international organization, an academic institution with relevant expertise, or an independent domestic agency with quality assurance functions in the area of financial reporting.

To answer "a," an independent agency must conduct and publish a review of the audit processes of the SAI on an annual basis. Answer "b" applies if a review was carried out within the past five years, and published, but it is not conducted annually, but. Choose answer "c" if the SAI has an internal unit that reviews the audit processes of the SAI on a regular basis, but an independent agency does not conduct such a review. Answer "d" applies if the audit processes of the SAI are reviewed neither by an independent agency nor by a unit within the SAI.

If the answer is either "a" or "b," please specify the name of the independent agency and when last it conducted such a review, and provide a copy of the published report. If the answer is "c," please specify the name of the unit within the SAI that is tasked with conducting such reviews.

Answer:

b. Yes, an independent agency conducts and publishes a review of the audit processes of the SAI at least once in the past five years, but not annually.

Interview with OAG staff May 2023
https://publikationen.sida.se/contentassets/8326e0464b474ad8bdaf9943f8221905/de2018_15_62154en.pdf

Comment:

Zambia’s OAG audit processes are reviewed by an independent agency every year with reports being internal and shared with senior management of the OAG. These reports are not publicly published.

Evaluation of the African Organisation of English speaking Supreme Audit Institutions (AFROSAI-E) specifically on Page 14 and throughout the report does evidently show that that Zambia was last assessed in 2018.

At the time of this survey, there was no information online regarding the audit except that AFROSAI-E had made a call for tenders for the 2021 audit.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Agree

IBP Comment

Based on further check with consideration for AFROSAI-E’s evaluation of Zambia OAG, the evaluation is not done annually. However, it is established that AFROSAI-E conducts an independent review of the OAG’s activities. As such, this is revised from "A" to "B. 
124. In the past 12 months, how frequently did the head or a senior staff member of the Supreme Audit Institution (SAI) take part and testify in hearings of a committee of the legislature?

**GUIDELINES:**
Question 124 concerns the interaction between two important oversight actors and assesses how frequently the Supreme Audit Institution (SAI) made high-level inputs to the work of legislative committees. Many SAIIs interact with the legislature in some form, but the nature and intensity of the interaction varies. This question probes this aspect by asking, with reference to the past 12 months, how frequently the head or a senior staff member of the SAI took part and testified in hearings of a committee of the legislature. The intent is to assess the extent to which the SAI representative in question was not only present at a meeting of a legislative committee, but was an active participant (as opposed to a passive observer, serving only as a resource when called upon). You can refer to official records of legislative committees, websites and annual reports of the SAI, press releases and media coverage, for example. Choose answer "a" if this occurred five times or more; "b" for three times or more, but less than five times; "c" for once or twice, and "d" for never.

**Answer:**
a. Frequently (i.e., five times or more).

**Source:**

https://www.parliament.gov.zm/sites/default/files/documents/committee_reports/Report%20of%20the%20Public%20Account%20Committee%20on%20the%20Report%20of%20the%20Auditor%20General%20on%20the%20Accounts%20of%20the%20Republic%20for%20the%20Financial%20Year%202020.pdf

**Comment:**
The AG and the person acting in their place is a permanent witness of the Public Accounts Committee and attends all the meetings called. In as far as publicly available documents. The SAI is acknowledge by the chairperson of the Public Accounts committee for having provided input during the deliberations of the committee on financial year ending December 2020 and the utilization of COVID-19 resources (July 2020-Oct 2021). Deliberations were held in July 2022.

125. Does the executive use participation mechanisms through which the public can provide input during the formulation of the annual budget (prior to the budget being tabled in parliament)?

**GUIDELINES:**
This question reflects the GIFT principles on “Inclusiveness” and “Timeliness” and assesses the extent to which the participation mechanism(s) used by the executive are truly interactive and involve a two-way conversation between citizens and the executive.

The drafting of this question and its answers are partially drawn from the IAP2 Spectrum of Public Participation, in particular with regards to the concepts of “involvement” (option “a” in the responses) and “consultation” (option “b”). See:

Please consider only participation mechanisms that the Ministry of Finance, lead budget agency, or central coordinating agency designated by the government to implement participation mechanisms (“the executive”) is currently using to allow the public to participate in the formulation of the annual budget, including annual pre-budget discussions. Participation mechanisms used only by line ministries should not be used to answer this question. If there is more than one mechanism used by the executive, please select the deepest or most interactive mechanism that reflects the government’s efforts to incorporate citizens’ input into the formulation of the annual budget. The participation mechanisms can involve a range of different issues, such as spending and tax policy, funding and revenue levels, and macro-fiscal planning.

To answer “a,” the executive must use open participation mechanisms that involve the public in the formulation of the annual budget. This means that a public process is in place whereby CSOs and/or individual members of the public and government officials interact, and have the opportunity to express their...
opinions to each other in what can be considered a public dialogue between them (i.e., in-person and online discussion forums). Additionally, the mechanism should be open to any CSO and/or individual members of the public who wish to participate. By selecting this answer, the researcher must present evidence to support the presence of a public dialogue among citizens and government officials. Examples include public meetings and online deliberative exchanges.

Answer "b" applies if an open consultation mechanism is in place whereby members of the public (i.e., individuals and/or CSOs as well as academics, independent experts, policy think tanks, and business organizations) can provide their input in the formulation of the annual budget. This answer applies if the government is using a mechanism that is structured and well established, and not ad-hoc. The researcher must present evidence to support the presence of consultative processes through which the executive seeks out inputs from citizens. Examples include surveys, focus groups, report cards, published policy consultation exercises, and online platforms that government officials actively manage to solicit inputs.

Answer "c" applies if the executive has established a mechanism or mechanisms to allow citizens to participate in the budget formulation phase, but:

1) The mechanisms are not structured and happen only on ad-hoc basis, or not regularly.

and/or

2) The executive consults with and/or interacts with, citizens, but there is discretion in who is allowed to participate, and the executive determines fully or partially such selection process by inviting specific groups (for example by making an open call but just to experts from a particular sector, or naming specific organizations). While it is not possible for all citizens and/or CSOs to participate in this or other phases of the budget process, options "a" and "b" apply if the government does not exercise any discretion in determining who is allowed to participate. While there is likely going to be self-selection, it is important that the selection is not made by the executive.

In cases where there is discretion in who is allowed to participate, to select answer choice "c", there should be some sort of public record (held in public, minutes of meetings released to public) so that all CSOs and individual members of the public can have knowledge of the meeting, who participated, and what was discussed.

Examples of mechanisms that might qualify as a "c" response include hotlines, Facebook announcements, and one-off meetings with NGOs in which there is a public record.

The researcher must present evidence to support selection of a "c" response.

Answer "d" applies if the requirements for a "c" response or above are not met or if the executive does not use public participation mechanisms during the budget formulation stage.

---

**Answer:**

a. Yes, the executive uses open participation mechanisms through which members of the public and government officials exchange views on the budget.

**Source:**

**Comment:**

Broad based consultations were held at both national and provincial level between May and June 2022. At provincial level, centres namely Livingstone, Solwezi, Kitwe, Ndola and Kabwe were visited with proceedings streamed live on the MOFNP for some centres. Submissions from stakeholders compiled with those from all other regions of the country were used to develop the draft Medium Term Budget Plan (MTBP) submitted to Cabinet ahead of the final presentation of the 2023 National Budget to Parliament in September, 2022.

At national level a consultative meeting was held on 28th and 29th June. Stakeholders who expressed interest were accorded slots (private, business community, associations, CSOs and limited citizens).

Use of Cluster Advisory groups as well as provincial hearings on the budget.

The Ministry uses radio, tv, newspapers and social media (whatsapp messages and facebook mainly) to ask people to participate. Anybody is allowed to come and make submissions and it is not restricted to invited guests. For Cluster advisory groups the discussions involve exchange with government, as for the district platforms government entities are present but most of the time to take note and hear the views of the people after making initial remarks on the budget process. NDCC meetings to an extent in looking at the 8th National Development Plan launched in 2022 looked at priorities area that included the FY 2023.

A 2022 Mid-Year Budget & Economic Performance and the 2023-2025 Medium Term Budget Plan Symposium was also held in August 2022.
126. With regard to the mechanism identified in question 125, does the executive take concrete steps to include vulnerable and under-represented parts of the population in the formulation of the annual budget?

GUIDELINES:
This question reflects the GIFT principle of "inclusiveness", and examines the executive's effort to actively reach out to citizens who are from socially vulnerable groups and/or underrepresented in national processes. The emphasis here is on the executive's efforts to seek out the views of members of the public from socially vulnerable groups and/or who are underrepresented in the process.

To answer "a," the executive must actively seek out individuals from at least one vulnerable and underrepresented community and/or civil society organization representing vulnerable and underrepresented individuals and communities. The researcher must provide evidence to show the government's efforts and actions. The researcher must speak with the relevant government official(s), and subsequently double check with an alternative source, such as representatives of vulnerable/underrepresented groups.

Answer "b" applies if the executive does not take concrete steps to incorporate vulnerable/underrepresented individuals, or organizations representing them, into participation mechanisms or if the executive does not use public participation mechanisms during the budget formulation stage.

**Answer:**
b. The requirements for an "a" response are not met.

**Source:**
https://www.facebook.com/zambiafinanceministry/posts/387078866779500/?paipv=0&eav=AfZdjfXTw5WEm4QZRmIo-g-8qjVH0VCP1ic0t66Kp0SeeXkVxkVYisEFYW4x0gPwI_rdr

**Comment:**
An inclusive approach has been pursued. One would note that the NDCC has representation of woman groups, person’s with disability and youth among others. However reach is sometimes limited especially if the groups do not make an effort to express interest.

Additionally, while line ministries such as the Ministry of Community Development and Social Services have institutions under its supervision such as the Zambia Agency for Persons with Disabilities which represents differently abled persons and submits its submissions on the annual budgets through the Ministry of Community Development and Social Services. The absence of a feedback loop mechanism does not detail the level to which input was incorporated into the preparation of the budget.

Answer has been selected in light of more inclusive approaches that can be undertaken by the government.
During the budget formulation stage, which of the following key topics does the executive’s engagement with citizens cover?

For the purpose of this question, key topics are considered to be:

1. Macroeconomic issues
2. Revenue forecasts, policies, and administration
3. Social spending policies
4. Deficit and debt levels
5. Public investment projects
6. Public services

**GUIDELINES:**
This question reflects the GIFT principles of “Transparency” and “Timeliness”. Please consider all of the mechanisms currently used by the executive to promote public participation during the formulation of the annual budget.

Please note that while the public engagement can/may cover other topics - and for this reason the other questions assessing the executive’s engagement with the public during budget formulation can be answered on the basis of engagement on topics other than the six listed above - for the purpose of answering this question, “key topics” are considered to be only the ones listed above. If the executive’s engagement with the public covers topics other than the six listed above, please specify these topics in the comments.

Note also that this question assesses only the coverage of public engagement (i.e., “what issues is the public invited to engage on?”) and issues related to the depth of engagement or selectivity of engaged are not dealt with by this question.

If written materials about the public engagement, such as an invitation, do not specify the coverage of the public engagement, but the researcher has personally participated in the engagement, s/he may respond to this question based on firsthand experience of the coverage of the public engagement.

Answer “d” applies if requirements for a “c” response or above are not met or if the executive does not use public participation mechanisms during the budget formulation stage.

| Answer: | c. The executive’s engagement with citizens covers at least one (but less than three) of the above-mentioned topics. |
| Source: | https://www.znbc.co.zm/news/govt-starts-2023-budget-consultations/ |
| Comment: | Citizens or rather stake holders were asked to submit tax, non-tax and expenditure proposals, for review and possible inclusion in the 2023 National Budget and the 2023 to 2025 MTEF. Zambia is operating under the 8th National Development Plan which is organised under four themes/pillars (https://www.sh.gov.zm/wp-content/uploads/2022/09/EIGHTH-NATIONAL-DEVELOPMENT-PLAN-2022-2026-05-07-2022.pdf) Revenue and expenditure measures are discussed within these key pillars which are:  
1) Economic transformation and job creation.  
2) Human and Social Development,  
3) Environmental Sustainability,  
4) Good governance environment  
The discussions on national development plans are annual and they are linked to the budget for the upcoming year. Within the outlined themes of the plan, consultations are made on both revenue and expenditure measures which cover all topics 1, 2, 3, 5 and 6 except deficit and debt which require more specialized knowledge and may not be discussed at length. |

Based on the evidence submitted by the researcher, the response “B” is adjusted to “C”. The conversation on tax and non-tax revenue and
128. Does the executive use participation mechanisms through which the public can provide input in monitoring the implementation of the annual budget?

GUIDELINES:
This question reflects the GIFT principles on “Inclusiveness” and “Timeliness” and assesses the extent to which the participation mechanism(s) used by the executive are truly interactive and involve a two-way conversation between citizens and the executive.

The drafting of this question and its answers are partially drawn from the IAP2 Spectrum of Public Participation, in particular with regards to the concepts of “involvement” (option “a” in the responses) and “consultation” (option “b”). See: https://cdn.ymaws.com/www.iap2.org/resource/resmgr/foundations_course/IAP2_P2_Spectrum_FINAL.pdf.

Please consider only participation mechanisms that the Ministry of Finance, lead budget agency, or central coordinating agency designated by the government to implement participation mechanisms (“the executive”) is currently using to allow the public to participate in monitoring the implementation of the annual budget. If the executive has designated a central coordinating agency to implement participation mechanisms throughout the national budget process, researchers may consider these mechanisms. Participation mechanisms used only by line ministries should not be used to answer this question. If there is more than one mechanism used by the executive, please select the deepest or most interactive mechanism that reflects the government’s efforts to incorporate citizens’ input into the implementation of the annual budget. The participation mechanisms can involve a range of different issues, such as revenue administration, public service delivery, public investment project implementation, including procurement, and the administration of social transfer schemes.

To answer “a,” the executive must use open participation mechanisms that involve the public in the implementation of the annual budget. This means that a public process is in place whereby CSOs and/or individual members of the public and government officials interact, and have the opportunity to express their opinions to each other in what can be considered a public dialogue between them (i.e., in-person and online discussion forums). Additionally, the mechanism should be open to any CSO and/or individual members of the public who wish to participate. By selecting this answer, the researcher must present evidence to support the presence of a public dialogue among citizens and government official. Examples include public meetings, online deliberative exchanges, procurement complaint mechanisms, and social monitoring and dialogue.

Answer “b” applies if an open consultation mechanism is in place whereby members of the public (i.e., individuals and/or CSOs as well as academics, independent experts, policy think tanks, and business organizations) can provide their input on the implementation of the annual budget. This answer applies if the government is using a mechanism that is structured and well established, and not ad-hoc. The researcher must present evidence to support the presence of consultative processes through which the executive seeks out inputs from citizens. Examples include public hearings, surveys, focus groups, report cards, and online platforms that government officials actively manage to solicit inputs.

Answer “c” applies if the executive has established a mechanism or mechanisms to allow citizens to provide input on budget implementation, but:

1) The mechanisms are not structured, happen only on ad-hoc basis, or not regularly.

and/or

2) The executive consults with and/or interacts with, citizens, but there is discretion in who is allowed to participate, and the executive determines fully or partially such selection process by inviting specific groups (for example by making an open call but just to experts from a particular sector, or naming specific organizations). While it is not possible for all citizens and/or CSOs to participate in this or other phases of the budget process, options “a” and “b” apply if the government does not exercise any discretion in determining who is allowed to participate. While there is likely going to be self-selection, it is important that the selection is not made by the executive.

In cases where there is discretion in who is allowed to participate, to select answer choice “c,” the researcher must have evidence that the government is holding participation mechanisms that have some sort of public record (held in public, minutes of meetings released to public) so that all CSOs and members of the public can have knowledge of the meeting, who participated, and what was discussed.

Examples include hotlines, Facebook announcements, one-off meetings with NGOs in which there is a public record.

The researcher must present evidence to support selection of a “c” response.

Answer “d” applies if the requirements for a “c” response or above are not met or if the executive does not use public participation mechanisms during the budget implementation stage.

Answer:
c. Yes, the executive uses participation mechanisms during the budget implementation phase, but either these mechanisms capture only some ad-hoc views, or the executive invites specific individuals or groups for budget discussions (participation is not, in practice, open to everyone).
Comment:
Following the enactment of the Planning and Budgeting Bill in 2020 this has been guaranteed to some extent as the law prescribes for use of open participation mechanisms through which members of the public provide their inputs on budget implementation. This has been noted during budget performance update briefings that have been held by the MOFNP (quarterly basis). The ministry has also engaged through multi stakeholder briefings on debt restructuring (impacting budget revenue). Mainly done through the official MOFNP Facebook page.

Occasionally district monitoring is also done where citizens and community Based Organisations participate in the monitoring, reports were not available for this. Also MOFNP organizes quarterly Cluster advisory group meetings (now co-chaired by line ministries and CSOs in the 8th NDP) which are an interface between government and civil society on budget implementation.

IBP Comment
IBP agrees with a C response as the MOFNP hosted a Midyear Budget and Economic Performance Symposium on August 5, 2022, for stakeholders from the private sector, the public sector, civil society, and the media. There was a presentation followed by a panel discussion, reflections shared by stakeholders, and a question and answer session.

https://www.facebook.com/zambiafinanceministry/videos/482387586705120

129. With regard to the mechanism identified in question 128, does the executive take concrete steps to receive input from vulnerable and underrepresented parts of the population on the implementation of the annual budget?

GUIDELINES:
This question reflects the GIFT principle of "Inclusiveness", and examines the executive’s effort to actively reach out to citizens who are from socially vulnerable groups and/or underrepresented in national processes. The emphasis here is on national government’s efforts to obtain input from members of the public who are from socially vulnerable groups and/or underrepresented in national processes during the implementation of the annual budget.

To answer "a," the executive must actively seek out individuals from at least one vulnerable and underrepresented community and/or civil society organization representing vulnerable and underrepresented individuals and communities. The researcher must provide evidence to show the government’s efforts and actions. The researcher must speak with the relevant government official(s), and subsequently double check with an alternative source, such as representatives from vulnerable/underrepresented groups.

Answer "b" applies if the national executive does not take concrete steps to incorporate vulnerable/underrepresented individuals, or organizations representing them, into participation mechanisms or if the executive does not use public participation mechanisms during the budget implementation stage.

Answer:

b. The requirements for an "a" response are not met.

Source:
Interactions with MOFNP staff

Comment:
While government has made efforts to engage with vulnerable and underrepresented groups through various organisations that speak to these populations as espoused in the NDP documents. There are however still no concrete efforts with demonstrable evidence that government did engage with these groups during budget implementation. Some public forums were indicated as open to all citizens which may not guarantee participation of vulnerable groups.
Participation (women and elderly) in some cases takes the form of being facilitated by non-state actors such as Civil Society for Poverty Reduction, Women’s Lobby, NGOCC, Support to older person Zambia. This was verified by JCTR interactions with these non-state actors.

130. During the implementation of the annual budget, which of the following topics does the executive’s engagement with citizens cover?

For the purpose of this question, key topics are considered to be:

1. Changes in macroeconomic circumstances
2. Delivery of public services
3. Collection of revenue
4. Implementation of social spending
5. Changes in deficit and debt levels
6. Implementation of public investment projects

GUIDELINES:
This question reflects the GIFT principles of “Transparency” and “Timeliness”. Please consider all of the mechanisms currently used by the executive to promote public participation during the implementation of the annual budget.

Please note that while the public engagement can/may cover other topics – and for this reason the other questions assessing the executive’s engagement with the public during budget implementation can be answered on the basis of engagement on topics other than the six listed above – for the purpose of answering this question, “key topics” are considered to be ONLY the ones listed above. If the executive’s engagement with the public covers topics other than the six listed above, please specify these topics in the comments.

Note also that this question assesses only the coverage of public engagement (i.e., “what issues is the public invited to engage on?”) and issues related to the depth of engagement or selectivity of engaged are not dealt with by this question.

If written materials about the public engagement, such as an invitation, do not specify the coverage of the public engagement, but the researcher has personally participated in the engagement, s/he may respond to this question based on firsthand experience of the coverage of the public engagement.

Answer “d” applies if requirements for a “c” response or above are not met or if the executive does not use public participation mechanisms during the budget implementation stage.

Answer:
b. The executive’s engagement with citizens covers at least three (but less than six) of the above-mentioned topics.

Source:
https://www.zamstats.gov.zm/?tmstv=1683524959&v=9373#
https://www.facebook.com/zambiafinanceministry/posts/pfbid0YSCYDnDoQcSzYJQAPrP1EQP8TYv2TFg7HEAsqvhDzJYmgBkwHYKK3UGHb4VwahKI
https://www.mofnp.gov.zm/?page_id=3795

Comment:
Discussions focussed on at least 3 of the six topics as some of the topics were not dealt with at length or only reached a limited audience (i.e. those with access to smart phones).

1. Changes in macroeconomic circumstances; Discussed during budget performance briefings and symposiums. Additionally agencies under the ministry such as the Zambia Statistics Agency provide monthly inflation developments.
2. Collection of revenue; Done by MOFNP in 2022 through press statements on budget execution. Zambia Revenue Authority additionally provide this information.
3. Implementation of social spending: Done by MOFNP in 2022 through press statements on budget performance
4. Changes in deficit and debt levels: Debt quarterly bulletins and media briefings held with the media on the IMF programme
5. Implementation of public investment projects; This was a topic when the MOFNP shared additional measures have been taken by the Government of the Republic of #Zambia to address the current debt challenges – beyond the debt restructuring process. Cabinet, at its sitting on Thursday, 28th
July, 2022, took measures to discontinue some loan financed projects.

Government Reviewer
Opinion: Agree

IBP Comment
IBP notes the researcher's evidence and notes that the Midyear Budget & Economic Performance & 2023-2025 Medium Term Budget Plan Symposium engaged the public on at least 3 of the 6 topics listed above.

131. When the executive engages with the public, does it provide comprehensive prior information on the process of the engagement, so that the public can participate in an informed manner?

Comprehensive information must include at least three of the following elements:

1. Purpose
2. Scope
3. Constraints
4. Intended outcomes
5. Process and timeline

GUIDELINES:
This question relates to the GIFT principle of "Openness," and addresses whether the executive provides relevant information on the process of the engagement before public participation takes place, in order to help citizens engage effectively. The question addresses whether the "rules of the public engagement" are clearly spelled out, in advance and in detail, so that those members of the public who want to engage know how to do so, in terms of when they can do so, what they are expected to provide input on, by when, to whom, etc. This question does not cover the substance of the engagement, which is covered by questions 127 and 130.

Non-comprehensive information means that the government provides information that includes at least one but less than three of the elements listed above.

Purpose refers to a brief explanation of why the public engagement is being undertaken, including the executive's objectives for its engagement with the public.

Scope refers to what is within the subject matter of the engagement as well as what is outside the subject matter of the engagement. For example, the scope may include how a current policy is administered but exclude the specifics of the policies themselves.

Constraints refers to whether there are any explicit limitations on the engagement. An example of a constraint could be that any policy changes must not cost (or forgo revenue) more than a specific amount or have no net fiscal cost.

Intended outcomes refers to what the executive hopes to achieve as a result of the engagement. Examples of intended outcomes could be revising a policy to better reflect citizen or service-user views or to improve the way in which a particular program is administered.

Process refers to the methods by which the public engagement will take place and the discrete steps in the process. For example, the process may simply be a one-off Internet-based consultation, with a summary published of public inputs and the official response. The process may involve simultaneous or overlapping steps, and may be conducted in one round or in two or more rounds of engagement.

Timeline refers to the specific dates on which the discrete steps in the process will take place, or during which they will be completed, and clear start and end dates for the overall engagement.

Answer “d” applies if the executive does not use public participation mechanisms during the budget implementation or formulation stage.

Answer:
c. Information is provided in a timely manner in both or one of the two phases, but it is not comprehensive.

Source:
Comment:
The formulation stage provides more comprehensive information compared to the implementation phase. For example, process and timelines beyond the planning and budgeting act provisions are not usually provided in the implementation phase. Use of print media sometimes may limit reach as newspaper in Zambia are sold.

132. With regard to the mechanism identified in question 125, does the executive provide the public with feedback on how citizens’ inputs have been used in the formulation of the annual budget?

GUIDELINES:
This question reflects the GIFT principles of “Transparency” and “Sustainability”, and examines the extent to which the executive provides information to citizens on which public inputs were received, which ones are used in the formulation of the annual budget, and how/why.

By “written record”, we mean a document that is produced and released by the lead budget agency (Ministry of Finance, Treasury) that has set up and holds the participation activity.

Answer “a” applies when the executive provides a written document with:
- The inputs (e.g., a written transcript) received from the public and
- A detailed report on how the inputs were used or not used (such report should include information on which inputs were used or not used, why, and how)

Answer “b” applies when the executive provides a written document that includes:
- The inputs (e.g., a written transcript) received from the public and
- A not-so-detailed report, such as a document with a few paragraphs, on how public inputs were used or not used. This document only gives a general idea on how those inputs were used or not used.

Answer “c” applies when the executive provides a written document that includes:
- The inputs (e.g., a written transcript) received from the public or
- A report (being it detailed or not-so-detailed) on how public inputs have been used or not used.

Answer “d” applies if the requirements for a “c” response or above are not met or if the executive does not use public participation mechanisms during the budget formulation stage.

Answer:
d. The requirements for a “c” response or above are not met.

Source:
Interactions with MOFNP staff

Comment:
Staff shared that after input is received from various stakeholders, it is minuted and discussed. Which proposals are taken up and which are not are noted and a report is prepared. However, government does not share this report with the public. The feedback loop currently does exist and may therefore in the recycling of submissions.
133. With regard to the mechanism identified in question 128, does the executive provide the public with information on how citizens' inputs have been used to assist in monitoring the implementation of the annual budget?

**GUIDELINES:**

This question reflects the GIFT principles of "Transparency" and "Sustainability", and examines the extent to which the executive provides information to citizens on which public inputs were received during the implementation of the annual budget, which ones are taken into account to improve budget monitoring, and how/why.

By "written record", we mean a document that is produced and released by the lead budget agency (Ministry of Finance, Treasury) that has set up and holds the participation activity.

Answer "a" applies when the executive provides a written document with:
- The inputs (e.g., a written transcript) received from the public and
- A detailed report on how the inputs were used or not used (such report should include information on which inputs were used or not used, why, and how)

Answer "b" applies when the executive provides a written document that includes:
- The inputs received (e.g., a written transcript) from the public and
- A not-so-detailed report, such as a document with a few paragraphs, on how public inputs were used or not used. This document only gives a general idea on how those inputs were or were not taken into account by the executive during budget monitoring.

Answer "c" applies when the executive provides a written document that includes:
- The inputs (e.g., a written transcript) received from the public or
- A report (being it detailed or not-so-detailed) on how public inputs have been used or not used.

Answer "d" applies if the requirements for a "c" response or above are not met or if the executive does not use public participation mechanisms during the budget implementation stage.

**Answer:**
d. The requirements for a "c" response or above are not met.

**Source:**
Interactions with MOFNP staff

**Comment:**
Staff shared that after input is received from various stakeholders, it is minuted and discussed. Which proposals are taken up and which are not are noted and a report is prepared. However, government does not share this report with the public. The feedback loop currently does exist and may therefore in the recycling of submissions.
134. Are participation mechanisms incorporated into the timetable for formulating the Executive's Budget Proposal?

GUIDELINES:

This question reflects the GIFT principles on "Sustainability," "Timeliness" and "Complementarity" and addresses whether the executive is able to link participation mechanisms to the administrative processes that are used to create the annual budget.

Please note that "timetable" refers to a document setting deadlines for submissions from other government entities, such as line ministries or subnational government, to the Ministry of Finance or whatever central government agency is in charge of coordinating the budget's formulation. This document is sometimes referred to as the budget calendar and is the same document referenced in Question 53.

Answer "a" applies if the national executive establishes a clear set of guidelines that enable citizens and civil servants to understand when participation mechanisms should be used to enable citizen inputs to be incorporated into the annual budget. For answer choice "a", the timetable must be available to the public prior to the budget preparation process beginning.

Answer "b" applies if the executive does not establish a clear set of guidelines that enable citizens and civil servants to understand when participation mechanisms should be used to enable citizen inputs to be incorporated into the annual budget or if the executive does not use public participation mechanisms during the budget formulation or implementation stage.

Answer: b. The requirements for an "a" response are not met.

Source:
https://www.mofnp.gov.zm/?page_id=5100

Comment:
The Budget Process timeline as outlined in Part IV of The National Planning and Budgeting Act, No. 1 of 2020. This is available on the MOFNP website where it does highlight the 2022 budget policy priorities. Limitations exist in as far as this being available at ministerial level as when MOFNP shares a call circular with MPSAs (Ministries, Provinces and Spending Agencies) on when citizens are to be engaged in various consultations, this is nor made public. Information on Ministerial submissions is made available to the Technical Working Groups for the National Development Planning processes to which Civil Society belongs.

Peer Reviewer
Opinion: Agree

Government Reviewer
Opinion: Agree

IBP Comment
IBP was unable to establish evidence that the government incorporated into the timetable clear guidelines on engagement. While the call for budget engagement is in the agenda shared by the researcher, there is no basis for an "A" response. This is revised this to "B"

135. Do one or more line ministries use participation mechanisms through which the public can provide input during the formulation or implementation of the annual budget?

GUIDELINES

While questions 125 – 134 focus only on participation mechanisms that the Ministry of Finance, lead budget agency, or central coordinating agency currently use to allow the public to participate in the national budget process, this question asks about participation mechanisms used by line ministries to allow the public to participate in national budget processes. Thus, participation mechanisms used by the Ministry of Finance, lead budget agency, or central coordinating agency should not be used to answer this question. If there is more than one mechanism used by a line ministry or if multiple line ministries use participation mechanisms, please select the deepest or most interactive mechanism that reflects the government’s efforts to incorporate citizens' input into the formulation and/or implementation of the annual budget.

This question reflects the GIFT principles on "Inclusiveness" and "Timeliness" and assesses the extent to which the participation mechanism(s) used by the executive are truly interactive and involve a two-way conversation between citizens and the executive.
The drafting of this question and its answers are partially drawn from the IAP2 Spectrum of Public Participation, in particular with regards to the concepts of “involvement” (option “a” in the responses) and “consultation” (option “b”). See: https://cdn.ymaws.com/www.iap2.org/resource/resmgr/foundations_course/IAP2_P2_Spectrum_FINAL.pdf

To answer “a,” a line ministry must use open participation mechanisms that involve the public in the formulation or implementation of the annual budget. This means that a public process is in place whereby CSOs and/or individual members of the public and government officials interact, and have the opportunity to express their opinions to each other in what can be considered a public dialogue between them (i.e., in-person and online discussion forums). Additionally, the mechanism should be open to any CSO and/or individual members of the public who wish to participate. By selecting this answer, the researcher must present evidence to support the presence of a public dialogue among citizens and government officials. Examples include public meetings and online deliberative exchanges.

Answer “b” applies if an open consultation mechanism is in place whereby members of the public (i.e., individuals and/or CSOs as well as academics, independent experts, policy think tanks, and business organizations) can provide their input in the formulation or implementation of the annual budget. This answer applies if the government is using a mechanism that is structured and well established, and not ad-hoc. The researcher must present evidence to support the presence of consultative processes through which a line ministry seeks out inputs from citizens. Examples include surveys, focus groups, report cards, published policy consultation exercises, and online platforms that government officials actively manage to solicit inputs.

Answer “c” applies if a line ministry has established a mechanism or mechanisms to allow citizens to participate in the budget formulation phase, but:

1) The mechanisms are not structured and happen only on ad-hoc basis, or not regularly.

and/or

2) A line ministry consults with and/or interacts with, citizens, but there is discretion in who is allowed to participate, and the line ministry determines fully or partially such selection process by inviting specific groups (for example by making an open call but just to experts from a particular sector, or naming specific organizations). While it is not possible for all citizens and/or CSOs to participate in this or other phases of the budget process, options “a” and “b” apply if the government does not exercise any discretion in determining who is allowed to participate. While there is likely going to be self-selection, it is important that the selection is not made by the executive.

In cases where there is discretion in who is allowed to participate, to select answer choice “c”, there should be some sort of public record (held in public, minutes of meetings released to public) so that all CSOs and individual members of the public can have knowledge of the meeting, who participated, and what was discussed.

The researcher must present evidence to support selection of a “c” response.

Examples of mechanisms that might qualify as a “c” response include hotlines, Facebook announcements, and one-off meetings with NGOs in which there is a public record.

Answer: 
d. The requirements for a “c” response or above are not met.

Source: 
MOFNP Staff

Comment: 
Asides with the MOFNP no such mechanisms present.

136. Does the legislature or the relevant legislative committee(s) hold public hearings and/or use other participation mechanisms through which the public can provide input during its public deliberations on the formulation of the annual budget (pre-budget and/or approval stages)?

GUIDELINES: 
This question reflects the GIFT principle on “Sustainability,” “Transparency,” and “Complementarity” and assesses the extent to which the participation...
mechanism(s) used by the legislative are interactive and involve a two-way conversation between citizens and the legislature, rather than being limited to allowing the public to attend or hear public budget deliberations.

Please consider participation mechanisms that the legislature (both in its whole institution or its relevant budget/public accounts/finance committees) has put in place and is using to allow the public to participate in their deliberations on the annual budget. This includes deliberations during the pre-budget phase (i.e., when the executive is still in the process of formulating the draft budget) and the budget discussions after the budget has been tabled to parliament and before it is approved. In the comment box, please specify during which stage of the budget cycle the legislature has put in place a public participation mechanism.

Mechanisms through which members of the public reach out to individual Members of Parliament as opposed to the legislature (both in its whole institution or its relevant budget/public accounts/finance committees) or unofficial hearings organized by a subset of committee members should not be considered in answering this question.

If there is more than one mechanism, please select a mechanism that best shows/reflects the legislature’s efforts to incorporate citizens into the formulation of the annual budget. The participation mechanisms can involve a range of different issues, such as revenues, policy selection, and macro-fiscal planning (please note that the issue of coverage is covered in a subsequent question).

To answer “a,” the legislature must hold public hearings where citizens are allowed to testify. This answer applies only if the legislature does not exercise discretion in determining which citizens and/or CSOs can testify (for example, participation takes place on a first-come-first-served basis).

Answer “b” should be selected if the following applies:

- The legislature holds public hearings on the budget;
- Testimony is not allowed from members of the public or CSOs; but
- There are other means used by the legislature to receive and collect views from citizens and CSOs on the budget, and the legislature does not exercise discretion in determining which citizens and/or CSOs can provide input. The researcher must provide evidence to support the presence of those alternative processes through which the legislature seeks inputs from citizens. For example, there should be a public record indicating that views from citizens and the public were sought.

Answer “c” should be selected if the following applies:

- The legislature holds public hearings on the budget;
- Testimony is not allowed from members of the public or CSOs;
- No other means are used by the legislature to receive and collect views/input from citizens and CSOs on the budget, but
- The legislature invites a few individuals/groups to provide input (through public hearings or elsewhere)
- The legislature has a provision (via standing orders or in law) through which the public can submit their inputs, and members of the public or CSOs actively use it to submit opinions on the budget.

Answer “d” applies if the requirements for a “c” response or above are not met or if the legislature does not use public participation mechanisms during its deliberations on the annual budget.

Answer:

- Yes, public hearings on the budget are held. No testimony from the public is provided during the public hearings, and there are no other mechanisms through which public contributions are received, but the legislature invites specific individuals or groups to testify or provide input (participation is not, in practice, open to everyone).

(list of witness in appendix 1)

PBO staff

Comment:
The Budget committee of the National Assembly of Zambia does routinely invite selected CSOs (for meetings and submissions) to solicit their opinion on the draft EBP. For the year in question post COVID more groups were able to appear before the expanded budget committee.

Members of the public are given opportunity to appear before a national assembly. Every year, NAZ committees come up with topical issues which is published in newspapers/online. the 10 day limitation on the budget process limits this
137. During the legislative deliberations on the annual budget (pre-budget or approval stages), which of the following key topics does the legislature's (or relevant legislative budget committee) engagement with citizens cover?

For the purpose of this question, key topics are considered to be:

1. Macroeconomic issues
2. Revenue forecasts, policies, and administration
3. Social spending policies
4. Deficit and debt levels
5. Public investment projects
6. Public services

GUIDELINES:
This question reflects the GIFT principles of “Transparency” and “Timeliness”. Please consider the range of mechanisms currently used by the legislature to promote public participation during legislative deliberations on the annual budget.

Please note that while the public engagement can/may cover other topics, for the purpose of answering this question, “key topics” are considered to be only the ones listed above. If the legislature's engagement with the public covers topics other than the six listed above, please specify these topics in the comments.

Note also that this question assesses only the coverage of public engagement (i.e., "what issues is the public invited to engage on?") and issues related to the depth of engagement or selectivity of engaged are not dealt with by this question.

If written materials about the public engagement, such as an invitation, do not specify the coverage of the public engagement, but the researcher has personally participated in the engagement, s/he may respond to this question based on firsthand experience of the coverage of the public engagement.

Answer “d” applies if the requirements for a “c” response or above are not met or if the legislature does not use public participation mechanisms during its deliberations on the annual budget.

Answer:
b. The legislature seeks input on at least three (but less than six) of the above-mentioned topics.

Source:

Comment:
Foreword of the report of the committee details that input was sought on; reports on sector budget analyse agriculture, land, water, macro-economic framework, revenue envelope, expenditure side, concerns and recommendations.

Opinion: Agree

IBP Comment
IBP acknowledges the Committee's report. However, given the question is on the discussion between citizens and parliament, Section 8.0 speaks to the focus. As such, only issues relating to Social Spending Policies, Public Services and bits of tax (revenue) were discussed, making it a "B". Therefore, IBP revised the response from “A” to “B”.

Opinion: Agree
138. Does the legislature provide feedback to the public on how citizens' inputs have been used during legislative deliberations on the annual budget?

GUIDELINES:
This question reflects the GIFT principles of “Transparency” and “Sustainability”, and examines the extent to which the legislature provides information to citizens on which public inputs were received and how inputs were used during legislative deliberations (please note that these deliberations can refer to the pre-budget and approval phases). By “written record” in this question, we mean a document that is produced and released by the legislature.

Answer “a” applies when the legislature provides a written document with:
- The inputs received from the public (e.g., a written transcript) and
- A detailed report on how the inputs were used or not used (such report should include information on which inputs were used or not used, why, and how).

Answer “b” applies when the legislature provides a written document that includes:
- The inputs received from the public (e.g., a written transcript) and
- A not-so-detailed report on how public inputs were used or not used. This document only gives a general idea on how those inputs were used or not used in legislative deliberations on the annual budget (please note that these deliberations refer to the pre-budget and approval phases).

Answer “c” applies when the legislature makes available a video recording of the relevant legislative session or provides a written document that includes:
- The inputs received from the public (e.g., a written transcript) or
- A report (being it detailed or not-so-detailed) on how public inputs have been used or not used.

Answer “d” applies if the requirements for a “c” response or above are not met or if the legislature does not use public participation mechanisms during its deliberations on the annual budget.

Answer:
a. Yes, the legislature provides a written record which includes both the list of the inputs received from the public and a detailed report of how the inputs were used during legislative deliberations on the budget.

JCTR past experience with National Assembly
Comment:
The report of the committee is written and at times shared on the website. The 2022 report (on the 2023 national budget) was shared on the website in October 2022. Part III of the document discusses stakeholder concerns while and Part IV provides committee's observations and recommendations. Additionally, the Committee does share with stakeholders written acknowledgement (via letters) of submissions received.

IBP Comment
IBP acknowledges the Committee's Report on the 2023 National Budget:

139. Does the legislature hold public hearings and/or use other participation mechanisms through which the public can provide input during its public
deliberations on the Audit Report?

GUIDELINES:
This question reflects the GIFT principle on "Sustainability," "Transparency," and "Complementarity" and assesses the extent to which the participation mechanism(s) used by the legislative are interactive and involve a two-way conversation between citizens and the legislature, rather than being limited to allowing the public to attend or hear public budget deliberations.

A key constitutional role of the legislature in almost all countries is to oversee the government’s management of public resources. While the Supreme Audit Institution is responsible for checking the government’s accounts and publishing the outcome of their audits, for accountability purposes it is essential that the legislature reviews and scrutinizes those reports, and checks on whether the executive is taking the appropriate corrective actions based on the Supreme Audit Institution’s recommendations.

Holding public hearings to review audit findings allows the public to learn more about how the government has managed its resources for the budget years that have ended, and demand accountability in case of mismanagement and irregularities. Reviewing and discussing those reports in public is therefore a key responsibility of a legislature.

Please note that by "Audit Report" we refer to the same audit report assessed in the transparency section of this Survey, i.e., one of the eight key budget documents that all governments (in this case, the Supreme Audit Institution) must produce, according to best practice.

Please consider participation mechanisms that the legislature (both in its whole institution or its relevant budget/public accounts/finance committees) have put in place and using to allow the public to participate in their deliberations on the Audit Report.

Mechanisms through which members of the public reach out to individual members of parliament as opposed to the legislature (both in its whole institution or its relevant budget/public accounts/finance committees) or unofficial hearings organized by a subset of committee members should not be considered in answering this question.

To answer "a," the national legislature must hold public hearings where citizens are allowed to testify. This answer applies only if the legislature does not exercise discretion in determining which citizens and/or CSOs can testify (for example, participation takes place on a first-come-first-served basis).

Answer "b" should be selected if the following applies:

- The legislature holds public hearings on the budget;
- No testimony is allowed from the public; BUT
- There are other means used by the legislature to receive and collect views from citizens and CSOs on the budget, and the legislature does not exercise discretion in determining which citizens and/or CSOs can provide input. The researcher must provide evidence to support the presence of those alternative processes through which the legislature seeks inputs from citizens. For example, there should be a public record indicating that views from citizens and the public were sought.

Answer "c" should be selected if the following applies:

- The legislature holds public hearings on the budget;
- No testimony is allowed from the public;
- No other means are used by the legislature to receive and collect views/input from citizens and CSOs on the budget, BUT
- The legislature invites a few individuals/groups to provide input (through public hearings or elsewhere)

Answer "d" applies if the requirements for a "c" response or above are not met or if the legislature does not use public participation mechanisms during its deliberations on the Audit Report.

Answer:

- d. The requirements for a "c" response or above are not met.

Comment:
Testimony is only heard from controlling officers from MPSAs. Committee sittings are however broadcast live to allow the public to follow the proceedings and also attend the hearing but not contribute.

140. Does the Supreme Audit Institution (SAI) maintain formal mechanisms through which the public can suggest issues/topics to include in the SAI’s audit program (for example, by bringing ideas on agencies, programs, or projects that could be audited)?

**GUIDELINES:**
This question assesses whether the Supreme Audit Institution (SAI) has established mechanisms through which the public can provide suggestions on issues/topics to be included in its audit program. When deciding its audit agenda, the SAI may undertake audits for a sample of agencies, programs, and projects in the country; and such a selection could be based on complaints and suggestions made by members of the public. To receive such suggestions, the SAI may create formal mechanisms, like setting up a website, hotline, or office (or assigning staff to liaise with the public).

Please note that formal mechanisms that do not explicitly seek the public’s input in the audit program (such as general comment submission boxes on the SAI’s website) should not be considered for this question.

**Answer:**

b. The requirements for an "a" response are not met.

**Comment:**

No formal written down mechanisms exist, however as a public office citizens are welcome to make suggestions to the OAGs office including under provisions of whistle blowing.

---

141. Does the Supreme Audit Institution (SAI) provide the public with feedback on how citizens’ inputs have been used to determine its audit program?

**GUIDELINES:**

This question reflects the GIFT principles of “Transparency” and “Sustainability”, and examines the extent to which the Supreme Audit Institution provides information to citizens on which public inputs were received, which ones are used to determine the Supreme Audit Institution’s audit program. By “written record” in this question, we mean a document that is produced and released by the Supreme Audit Institution.

Answer “a” applies when the Supreme Audit Institution provides a written document with:

- The inputs received from the public and
- A detailed report on how the inputs were used or not used (such report should include information on which inputs were used or not used, why, and how).

Answer “b” applies when the SAI provides a written document that includes:

- The inputs received from the public and
- A not-so-detailed report on how public inputs were used or not used. This document only gives a general idea on how those inputs were used or not used to determine the SAI’s annual audit program.

Answer “c” applies when the SAI provides a written document that includes:
142. Does the Supreme Audit Institution (SAI) maintain formal mechanisms through which the public can contribute to audit investigations (as respondents, witnesses, etc.)?

GUIDELINES:
This question mirrors question 140, but instead of covering public assistance in formulating the SAI’s audit program, it focuses on whether the Supreme Audit Institution has established mechanisms through which the public can participate in audit investigations. In addition to seeking public input to determine its audit agenda, the SAI may wish to provide formal opportunities for the public and civil society organizations to participate in the actual audit investigations, as witnesses or respondents.

Answer:
b. The requirements for an “a” response are not met.
