## About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – affect how equal a society is and the well-being of its people, including whether the most disadvantaged will have real opportunities for a better life. It is critical that governments inform and engage the public on these vital decisions that impact their lives.

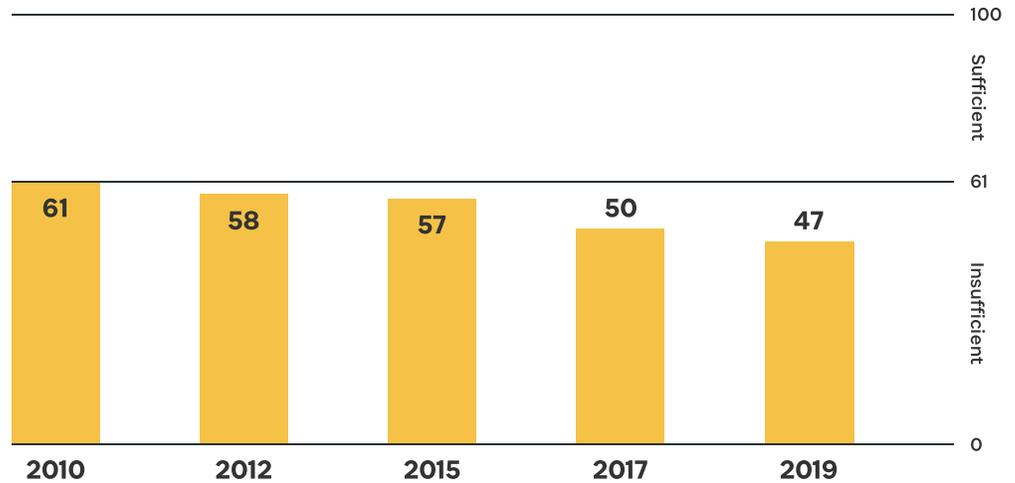

**The Open Budget Survey (OBS)** is the world's only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions such as the legislature and auditor in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 7th edition of the OBS covers 117 countries.

Visit [www.internationalbudget.org/open-budget-survey](http://www.internationalbudget.org/open-budget-survey) for more information, including the full OBS methodology, the 2019 Global Report, findings for all surveyed countries, and the Data Explorer.

## Recommendations

Colombia should prioritize the following actions to improve budget transparency:

- Publish the Citizens Budget online in a timely manner.
- Produce and publish the Mid-Year Review online in a timely manner.
- Include in the Executive's Budget Proposal debt and financial information.
- Include in the Year-End Report performance and macroeconomic information and comparisons between planned revenues and actual outcomes.
- Improve the comprehensiveness of the Audit Report and Pre-Budget Statement.

## Extent of opportunities for public participation in the budget process

few: 0 - 40; limited: 41 - 60; adequate: 61 - 100

## Recommendations

Colombia's Ministerio de Hacienda y Crédito Público has established e-consultations during budget implementation but, to further strengthen public participation in the budget process, should also prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation.
- Expand mechanisms during budget implementation that engage any civil society organization or member of the public who wishes to participate.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Colombia's Congreso de la República has established public hearings related to the approval of the annual budget, but should also prioritize the following actions:

- Allow any member of the public or any civil society organization to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

# Budget Oversight

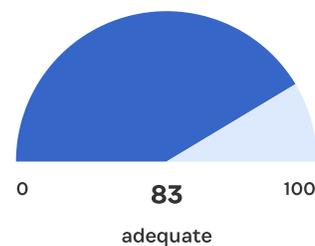

The OBS also examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Colombia, together, provide adequate oversight during the budget process, with a composite oversight score of **72** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

## Legislative oversight

## Audit oversight

weak: 0 - 40; limited: 41 - 60; adequate: 61 - 100

## Recommendations

Colombia's Congreso de la República provides adequate oversight during the planning stage of the budget cycle and limited oversight during the implementation stage. To further improve oversight, the following actions should be prioritized:

- A legislative committee should examine in-year budget implementation and publish reports with their findings online.
- In practice, ensure the legislature is consulted before the executive reduces spending due to revenue shortfalls.
- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Colombia Contraloría General de la República, the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

### **The emerging practice of establishing independent fiscal institutions**

Colombia's independent fiscal institution (IFI) is the Comité Consultivo para la Regla Fiscal. Its independence is set in law, and it reports to the executive.

# Methodology

---

- Only documents published and events, activities, or developments that took place through 31 December 2018 were assessed in the OBS 2019.
- The survey is based on a questionnaire completed in each country by an independent budget expert:  
Mario Martinez  
Fundación Foro Nacional por Colombia. Capítulo Región Central  
Carrera 4A No. 27-62, Bogotá, Colombia  
[coordinacionipd.bog@foro.org.co](mailto:coordinacionipd.bog@foro.org.co)
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Colombia by a representative of the Ministerio de Hacienda y Crédito Público.
