About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

The Open Budget Survey (OBS) is the world's only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 9th edition of the OBS covers 125 countries.

Visit <u>www.internationalbudget.org/open-budget-survey</u> for more information, including the full OBS methodology, the 2023 Global Report, findings for all surveyed countries, and the Data Explorer.

Transparency

This part of the OBS measures public access to information on how the central government raises and spends public resources. It assesses the **online** availability, timeliness, and comprehensiveness of eight key budget documents using 109 equally weighted indicators and scores each country on a scale of 0 to 100. A transparency score of 61 or above indicates a country is likely publishing enough material to support informed public debate on the budget.

Dominican Republic has a transparency score of 77 (out of 100).

KEY
61-100 / 100
<pre>41-60 / 100</pre>
<pre>1-40 / 100</pre>

Key budget document	Document purpose and contents	Fiscal year assessed	Document content score
Pre-Budget Statement	Discloses the broad parameters of fiscal policies in advance of the Executive's Budget Proposal; outlines the government's economic forecast, anticipated revenue, expenditures, and debt.	2023	78
Executive's Budget Proposal	Submitted by the executive to the legislature for approval; details the sources of revenue, the allocations to ministries, proposed policy changes, and other information important for understanding the country's fiscal situation.	2023	78
Enacted Budget	The budget that has been approved by the legislature.	2022	95
Citizens Budget	A simpler and less technical version of the government's Executive's Budget Proposal or the Enacted Budget, designed to convey key information to the public.	2023	92
In-Year Reports	Include information on actual revenues collected, actual expenditures made, and debt incurred at different intervals; issued quarterly or monthly.	2022	96
Mid-Year Review	A comprehensive update on the implementation of the budget as of the middle of the fiscal year; includes a review of economic assumptions and an updated forecast of budget outcomes.	2022	44
Year-End Report	Describes the situation of the government's accounts at the end of the fiscal year and, ideally, an evaluation of the progress made toward achieving the budget's policy goals.	2021	79
Audit Report	Issued by the supreme audit institution, this document examines the soundness and completeness of the government's year-end accounts.	2021	62

Dominican Republic's transparency score of **77** in the OBS 2023 is largely the same as its score in 2021.

What changed in OBS 2023?

Dominican Republic has increased the availability of budget information by:

• Increasing the information provided in the Audit Report.

However, Dominican Republic has decreased the availability of budget information by:

Reducing the information provided in the Mid-Year Review.

Recommendations

Dominican Republic should prioritize the following actions to improve budget transparency:

 Improve the comprehensiveness of the Mid-Year Review by including updated expenditure estimates for the budget year underway by any of the three expenditure classifications, as well as updated revenue estimates by category.

Public Participation

The OBS assesses the formal opportunities offered to the public for meaningful participation in the different stages of the budget process. It examines the practices of the central government's executive, the legislature, and the supreme audit institution (SAI) using 18 equally weighted indicators, aligned with the Global Initiative for Fiscal Transparency's Principles of Public Participation in Fiscal Policies, and scores each country on a scale from 0 to 100.

Dominican Republic has a public participation score of 48 (out of 100).

Extent of opportunities for public participation in the budget process

Recommendations

Dominican Republic's Ministerio de Hacienda and Ministry of Economy, Planning and Development have established a council during budget formulation and public consultations during budget implementation but, to further strengthen public participation in the budget process, should also prioritize the following actions:

 Actively engage vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Dominican Republic's Congreso Nacional should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Dominican Republic, together, provide limited oversight during the budget process, with a composite oversight score of **54** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Recommendations

Dominican Republic's Congreso Nacional provides limited oversight during the planning stage of the budget cycle and limited oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget
 Proposal is tabled and approve recommendations for the upcoming budget.
- Legislative committees should examine the Executive's Budget Proposal and publish reports with their analysis online.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.

 A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Dominican Republic Cámara de Cuentas, the following actions are recommended:

- Ensure the supreme audit institution has adequate funding to perform its duties, as determined by an independent body (e.g., the legislature or judiciary).
- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Dominican Republic does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

*These indicators are *not* scored in the Open Budget Survey.

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2022 were assessed in the OBS 2023.
- The survey is based on a questionnaire completed in each country by an independent budget expert:

Katia Lambis

Fundación Solidaridad

klambis@solidaridad.do

 To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Dominican Republic by a representative of the Ministerio de Hacienda.
