Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

The Open Budget Survey (OBS) is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 9th edition of the OBS covers 125 countries.

Visit [www.internationalbudget.org/open-budget-survey](http://www.internationalbudget.org/open-budget-survey) for more information, including the full OBS methodology, the 2023 Global Report, findings for all surveyed countries, and the Data Explorer.
Transparency

This part of the OBS measures public access to information on how the central government raises and spends public resources. It assesses the online availability, timeliness, and comprehensiveness of eight key budget documents using 109 equally weighted indicators and scores each country on a scale of 0 to 100. A transparency score of 61 or above indicates a country is likely publishing enough material to support informed public debate on the budget.

Guatemala has a transparency score of 64 (out of 100).

</table>

Guatemala's transparency score of 64 in the OBS 2023 is largely the same as its score in 2021.
What changed in OBS 2023?

Guatemala has decreased the availability of budget information by:

- Reducing the information provided in In-Year Reports.

Recommendations

Guatemala should prioritize the following actions to improve budget transparency:

- Include in the Executive's Budget Proposal data on the financial position of the government, for example by including information on extra-budgetary funds and consolidated government finances, tax expenditures, quasi-fiscal activities, and financial and nonfinancial assets, as well as information on performance and policy.

- Improve the comprehensiveness of the Pre-Budget Statement by including a discussion of revenue and expenditure policies and priorities, and by providing updated estimates of government borrowing and debt.

- Expand the inclusiveness and participatory aspects of the Citizens Budget (CB) production process by formalizing one or multiple accessible and citizens-friendly mechanisms to identify the public's requirements for budget information to be included in the CB. Citizens awareness and engagement in the budget process can also be encouraged by publishing "citizens" versions of other key budget documents throughout the budget cycle (e.g. execution, and audit phases), and publicizing the CB via additional methods of dissemination (e.g., social media, TV, and radio programs).
Public Participation

The OBS assesses the formal opportunities offered to the public for meaningful participation in the different stages of the budget process. It examines the practices of the central government’s executive, the legislature, and the supreme audit institution (SAI) using 18 equally weighted indicators, aligned with the Global Initiative for Fiscal Transparency’s Principles of Public Participation in Fiscal Policies, and scores each country on a scale from 0 to 100.

Guatemala has a public participation score of 19 (out of 100).

Public participation in Guatemala compared to others

Global Average 15
Dominican Republic 48
Mexico 30
Guatemala 19
Jamaica 18
El Salvador 13
Honduras 13
Costa Rica 9
Trinidad and Tobago 9
Nicaragua 7

- 41-60: Limited
- 61-100: Adequate

**Recommendations**

Guatemala's Ministerio de Finanzas Públicas has established public consultations during budget formulation but, to further strengthen public participation in the budget process, should also prioritize the following actions:

- Pilot mechanisms to monitor budget implementation.
- Expand mechanisms during budget formulation to: engage any civil society organization or member of the public who wishes to participate, and enable citizens to actively participate in dialogues that have an impact on the budget formulation process.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Guatemala's Congreso de la República has established public hearings related to the approval of the annual budget, but should also prioritize the following actions:

- Allow any member of the public or any civil society organization to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Guatemala's Contraloría General de Cuentas has established mechanisms for the public to assist in developing its audit program. It should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to contribute to relevant audit investigations.
Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Guatemala, together, provide limited oversight during the budget process, with a composite oversight score of 56 (out of 100). Taken individually, the extent of each institution’s oversight is shown below:

**Legislative oversight**

![Legislative oversight chart]

**Audit oversight**

![Audit oversight chart]

**KEY**

- 0 - 40: Few
- 41 - 60: Limited
- 61 - 100: Adequate

Recommendations

Guatemala's Congreso de la República provides adequate oversight during the planning stage of the budget cycle and weak oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The Congreso de la República should debate budget policy before the Executive’s Budget Proposal is tabled and approve recommendations for the upcoming budget.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.
- In practice, ensure the legislature is consulted before the executive shifts funds specified in the Enacted Budget between administrative units or reduces spending due to revenue shortfalls during the budget year.
• A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Guatemala Contraloria General de Cuentas, the following actions are recommended:

• Ensure audit processes are reviewed by an independent agency.

---

**The emerging practice of establishing independent fiscal institutions**

Guatemala does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

*These indicators are *not* scored in the Open Budget Survey.*
Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2022 were assessed in the OBS 2023.

- The survey is based on a questionnaire completed in each country by an independent budget expert:
  Mario Celada
  Centro Internacional para Investigaciones en Derechos Humanos (CIIDH)
  5ta. calle 1-49 zona 1, Ciudad de Guatemala
  mariocelada6@gmail.com

- To further strengthen the research, each country’s draft questionnaire is also reviewed by an anonymous independent expert, and in Guatemala by a representative of the Ministerio de Finanzas Públicas.
