

Overview

Transparency:

51 /100

(Open Budget Index score)

Public Participation:

6 /100

Budget Oversight:

61 /100

About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

The Open Budget Survey (OBS) is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 9th edition of the OBS covers 125 countries.

Visit www.internationalbudget.org/open-budget-survey for more information, including the full OBS methodology, the 2023 Global Report, findings for all surveyed countries, and the Data Explorer.

Transparency

This part of the OBS measures public access to information on how the central government raises and spends public resources. It assesses the **online availability, timeliness, and comprehensiveness** of eight key budget documents using 109 equally weighted indicators and scores each country on a scale of 0 to 100. **A transparency score of 61 or above indicates a country is likely publishing enough material to support informed public debate on the budget.**

India has a transparency score of **51** (out of 100).

How has the transparency score for India changed over time?

Public availability of budget documents in India

How comprehensive is the content of the key budget documents that India makes available to the public?

KEY	
●	61-100 / 100
●	41-60 / 100
●	1-40 / 100

Key budget document	Document purpose and contents	Fiscal year assessed	Document content score
Pre-Budget Statement	Discloses the broad parameters of fiscal policies in advance of the Executive's Budget Proposal; outlines the government's economic forecast, anticipated revenue, expenditures, and debt.	2022-23	Not Produced
Executive's Budget Proposal	Submitted by the executive to the legislature for approval; details the sources of revenue, the allocations to ministries, proposed policy changes, and other information important for understanding the country's fiscal situation.	2022-23	57
Enacted Budget	The budget that has been approved by the legislature.	2022-23	28
Citizens Budget	A simpler and less technical version of the government's Executive's Budget Proposal or the Enacted Budget, designed to convey key information to the public.	2022-23	25
In-Year Reports	Include information on actual revenues collected, actual expenditures made, and debt incurred at different intervals; issued quarterly or monthly.	2022-23	67
Mid-Year Review	A comprehensive update on the implementation of the budget as of the middle of the fiscal year; includes a review of economic assumptions and an updated forecast of budget outcomes.	2022-23	56
Year-End Report	Describes the situation of the government's accounts at the end of the fiscal year and, ideally, an evaluation of the progress made toward achieving the budget's policy goals.	2021-22	48
Audit Report	Issued by the supreme audit institution, this document examines the soundness and completeness of the government's year-end accounts.	2020-21	71

India's transparency score of **51** in the OBS 2023 is substantially higher than its score in 2021.

What changed in OBS 2023?

India has increased the availability of budget information by:

- Publishing the Mid-Year Review online.
- Publishing the Year-End Report and Audit Report online in a timely manner.

Recommendations

India should prioritize the following actions to improve budget transparency:

- Produce and publish the Pre-Budget Statement online in a timely manner.
- Include in the Executive's Budget Proposal data on the financial position of the government and data on the macroeconomic forecast.
- Include in the Year-End Report comparisons between planned revenues and actual outcomes, comparisons between planned nonfinancial outcomes and actual outcomes and comparisons between the original macroeconomic forecast and actual outcomes.
- Improve the comprehensiveness of the Citizen's Budget by including contact information for citizen feedback, establishing a formal mechanism to gather public input on what budget information should be included in the Citizen's Budget, and incorporating details on all significant macroeconomic forecasts and policies.
- Improve the comprehensiveness of the Enacted Budget by including information on revenue estimates.

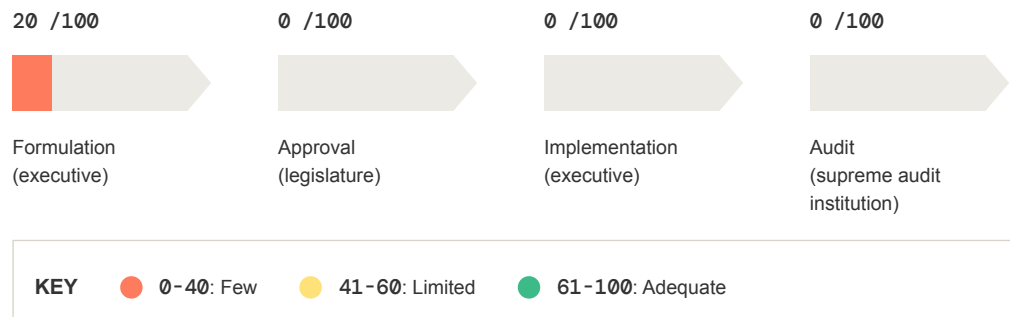

Public Participation

The OBS assesses the formal opportunities offered to the public for meaningful participation in the different stages of the budget process. It examines the practices of the central government's executive, the legislature, and the supreme audit institution (SAI) using 18 equally weighted indicators, aligned with the Global Initiative for Fiscal Transparency's [Principles of Public Participation in Fiscal Policies](#), and scores each country on a scale from 0 to 100.

India has a public participation score of **6** (out of 100).

For more information, see [here](#) for innovative public participation practices around the world.

Extent of opportunities for public participation in the budget process

Recommendations

India's Ministry of Finance has established public consultations during budget formulation but, to further strengthen public participation in the budget process, should also prioritize the following actions:

- Pilot mechanisms to monitor budget implementation.
- Expand the consultations during budget formulation to engage any civil society organization or member of the public who wishes to participate and institutionalize the practice of pre-budget consultations.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

India's Parliament should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

India's Office of the Comptroller and Auditor General should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

Budget Oversight

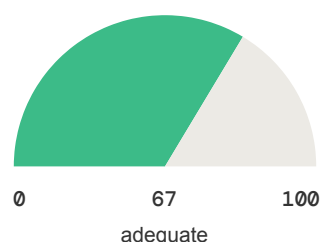

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in India, together, provide adequate oversight during the budget process, with a composite oversight score of **61** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Legislative oversight

Audit oversight

KEY ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

Recommendations

India's Parliament provides limited oversight during the planning stage of the budget cycle and adequate oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.
- In practice, ensure the legislature is consulted before the executive reduces spending due to revenue shortfalls.

To strengthen independence and improve audit oversight by the India Office of the Comptroller and Auditor General, the following actions are recommended:

- Require legislative or judicial approval to appoint the head of the supreme audit institution.
- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

India does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

**These indicators are *not* scored in the Open Budget Survey.*

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2022 were assessed in the OBS 2023.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Nilachala Acharya
Consultant

nilachalaacharya@gmail.com
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert.
