Budget Oversight:

77 /100

About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

The Open Budget Survey (OBS) is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 9th edition of the OBS covers 125 countries.

Visit www.internationalbudget.org/open-budget-survey for more information, including the full OBS methodology, the 2023 Global Report, findings for all surveyed countries, and the Data Explorer.

Transparency

This part of the OBS measures public access to information on how the central government raises and spends public resources. It assesses the **online availability, timeliness, and comprehensiveness** of eight key budget documents using 109 equally weighted indicators and scores each country on a scale of 0 to 100. **A transparency score of 61 or above indicates a country is likely publishing enough material to support informed public debate on the budget.**

Italy has a transparency score of **76** (out of 100).

Transparency in Italy compared to others

How has the transparency score for Italy changed over time?

Public availability of budget documents in Italy

How comprehensive is the content of the key budget documents that Italy makes available to the public?

KEY	
●	61-100 / 100
●	41-60 / 100
●	1-40 / 100

Key budget document	Document purpose and contents	Fiscal year assessed	Document content score
Pre-Budget Statement	Discloses the broad parameters of fiscal policies in advance of the Executive's Budget Proposal; outlines the government's economic forecast, anticipated revenue, expenditures, and debt.	2023	95
Executive's Budget Proposal	Submitted by the executive to the legislature for approval; details the sources of revenue, the allocations to ministries, proposed policy changes, and other information important for understanding the country's fiscal situation.	2023	79
Enacted Budget	The budget that has been approved by the legislature.	2023	95
Citizens Budget	A simpler and less technical version of the government's Executive's Budget Proposal or the Enacted Budget, designed to convey key information to the public.	2022	33
In-Year Reports	Include information on actual revenues collected, actual expenditures made, and debt incurred at different intervals; issued quarterly or monthly.	2022	56
Mid-Year Review	A comprehensive update on the implementation of the budget as of the middle of the fiscal year; includes a review of economic assumptions and an updated forecast of budget outcomes.	2022	81
Year-End Report	Describes the situation of the government's accounts at the end of the fiscal year and, ideally, an evaluation of the progress made toward achieving the budget's policy goals.	2021	71
Audit Report	Issued by the supreme audit institution, this document examines the soundness and completeness of the government's year-end accounts.	2021	76

Italy's transparency score of **76** in the OBS 2023 is near its score in 2021.

What changed in OBS 2023?

Italy has increased the availability of budget information by:

- Publishing the Citizens Budget online in a timely manner.

Recommendations

Italy should prioritize the following actions to improve budget transparency:

- Improve the comprehensiveness of the Citizens Budget, establish accessible mechanisms to identify the public's requirements for budget information, and increase the number of dissemination methods.
- Improve the comprehensiveness of In-Year Reports by presenting actual expenditures by individual program and more than one classification, and by including information relating to the composition of total actual debt outstanding.

Public Participation

The OBS assesses the formal opportunities offered to the public for meaningful participation in the different stages of the budget process. It examines the practices of the central government’s executive, the legislature, and the supreme audit institution (SAI) using 18 equally weighted indicators, aligned with the Global Initiative for Fiscal Transparency’s [Principles of Public Participation in Fiscal Policies](#) , and scores each country on a scale from 0 to 100.

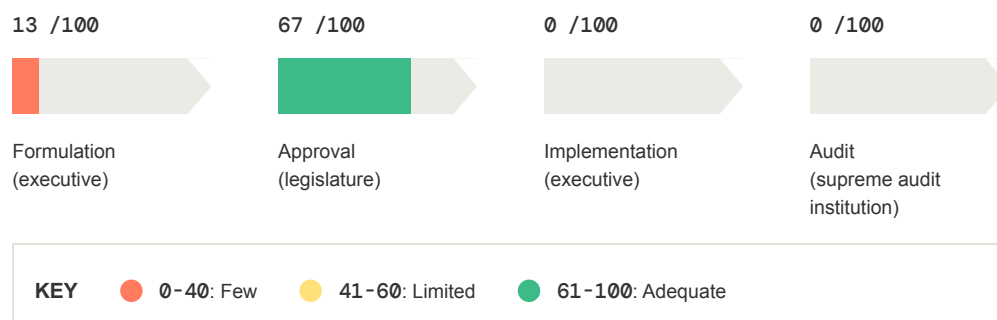

Italy has a public participation score of **15** (out of 100).

Public participation in Italy compared to others

For more information, see [here](#) for innovative public participation practices around the world.

Extent of opportunities for public participation in the budget process

Recommendations

Italy's Ministry of Economy and Finance has established public consultations during budget formulation but, to further strengthen public participation in the budget process, should also prioritize the following actions:

- Pilot mechanisms to monitor budget implementation.
- Expand mechanisms during budget formulation to engage any civil society organization or member of the public who wishes to participate.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Italy's Parliament has established public hearings related to the approval of the annual budget, but should also prioritize the following actions:

- Allow any member of the public or any civil society organization to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Italy's Court of Audit should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Italy, together, provide adequate oversight during the budget process, with a composite oversight score of **77** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Legislative oversight

Audit oversight

KEY ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

Recommendations

Italy's Parliament provides adequate oversight during the planning stage of the budget cycle and adequate oversight during the implementation stage. To further improve oversight, the following actions should be prioritized:

- The Executive's Budget Proposal should be submitted to legislators at least two months before the start of the budget year.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.

To strengthen independence and improve audit oversight by the Italy Court of Audit, the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Italy's independent fiscal institution (IFI) is the Parliamentary Budget Office. Its independence is set in law, and it reports to the legislature. It publishes its own macroeconomic and fiscal forecasts, and its own cost estimates of some new policy proposals.

The indicators on IFIs are not scored in the Open Budget Survey.

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2022 were assessed in the OBS 2023.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Duccio Zola and Giulio Marcon
Sbilanciamoci!
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Italy by a representative of the Ministry of Economy and Finance.
