About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

The Open Budget Survey (OBS) is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 9th edition of the OBS covers 125 countries.

Visit www.internationalbudget.org/open-budget-survey for more information, including the full OBS methodology, the 2023 Global Report, findings for all surveyed countries, and the Data Explorer.

Transparency

This part of the OBS measures public access to information on how the central government raises and spends public resources. It assesses the **online availability, timeliness, and comprehensiveness** of eight key budget documents using 109 equally weighted indicators and scores each country on a scale of 0 to 100. **A transparency score of 61 or above indicates a country is likely publishing enough material to support informed public debate on the budget.**

Ukraine has a transparency score of **38** (out of 100).

What changed in OBS 2023?

Ukraine has decreased the availability of budget information by:

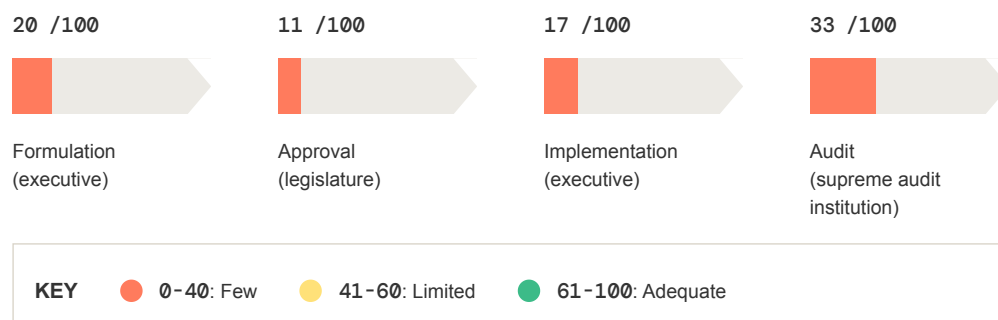

- Producing the In-Year Reports, Year-End Report and Audit Report for internal use only.
- Failing to produce the Citizens Budget.

Recommendations

Ukraine should prioritize the following actions to improve budget transparency:

- Publish the In-Year Reports, Year-End Report and Audit Report online in a timely manner.
- Produce and publish the Pre-Budget Statement, Citizens Budget and Mid-Year Review online in a timely manner.

Extent of opportunities for public participation in the budget process

Recommendations

Ukraine's Ministry of Finance has established pre-budget deliberations during budget formulation and e-consultations during budget implementation but, to further strengthen public participation in the budget process, should also prioritize the following actions:

- Expand mechanisms during budget formulation and implementation to engage any civil society organization or member of the public who wishes to participate.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Ukraine's Parliament has established submissions related to the approval of the annual budget, but should also prioritize the following actions:

- Allow any member of the public or any civil society organization to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Ukraine's Accounting Chamber has established mechanisms for the public to assist in developing its audit program. It should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to contribute to relevant audit investigations.

Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Ukraine, together, provide adequate oversight during the budget process, with a composite oversight score of **76** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Legislative oversight

Audit oversight

KEY ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

Recommendations

Ukraine's Parliament provides adequate oversight during the planning stage of the budget cycle and limited oversight during the implementation stage. To further improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.
- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Ukraine Accounting Chamber, the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Ukraine does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

**These indicators are *not* scored in the Open Budget Survey.*

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2022 were assessed in the OBS 2023.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Volodymyr Tarnay
Independent Consultant

vtarnay@gmail.com
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Ukraine by a representative of the Ministry of Finance.
