Section Two: The Executive's Budget Proposal

Notes on abbreviations:

BY = budget year (year for which the budget proposals are being made)

BY+1 = one year beyond the budget year

BY-1 = one year before the budget year

Please mark your answer by placing the appropriate letter in the box to the right of the question. For all answers marked "not applicable/other," please provide a brief explanation indicating either why the answer choices provided are not applicable or why another response would be more appropriate.

The Executive's Budget Proposal	
Estimates for the Budget Year and Beyond	
<p>1. Does the executive's budget or any supporting budget documentation present expenditures for the budget year that are classified by administrative unit (that is, by ministry, department, or agency)?</p> <ol style="list-style-type: none"> a. All expenditures are classified by administrative unit. b. Expenditures are classified by administrative unit, but some small units are not shown separately. c. Expenditures are classified by administrative unit, but a significant number of units are not shown separately. d. No expenditures classified by administrative unit are presented. e. Not applicable/other (please comment). <p><u>Citation:</u> Executive's Budget Proposal, pp.105-112</p> <p><u>Comment:</u> The administrative unit breakdown is given for the 2 previous years, as well as for the budget framework statement, the unit's own proposal, and the proposal by the executive.</p> <p><u>Peer Reviewer One Comment:</u> I agree that the appropriate response to this question is "a." The executive's budget proposal is presented expenditures classified by administrative units for the multi-year period. The expenditures for the local branches of the ministries and agencies, as well as secondary schools and kinder gardens are given at the aggregate level.</p> <p><u>Peer Reviewer Two Comment:</u></p>	a

<p>2. Does the executive’s budget or any supporting budget documentation present expenditures for the budget year that are classified by functional classification?</p> <ul style="list-style-type: none"> a. All expenditures are classified by functional classification, and the categorization is compatible with international standards. b. All expenditures are classified by functional classification, but the categorization is not compatible with international standards. c. Some, but not all, expenditures are classified by function. d. No expenditures classified by function are presented. e. Not applicable/other (please comment). <p><u>Citation:</u></p> <p><u>Comment:</u></p> <p><u>Peer Reviewer One Comment:</u> I agree that the appropriate response to this question is “d.” There are no single statistics which presents the budget expenditures classified by function.</p> <p><u>Peer Reviewer Two Comment:</u></p>	<p>d</p>
<p>3. Does the executive’s budget or any supporting budget documentation present expenditures for the budget year that are classified by economic classification?</p> <ul style="list-style-type: none"> a. All expenditures are classified by economic classification, and the categorization is compatible with international standards. b. All expenditures are classified by economic classification, but the categorization is not compatible with international standards. c. Some, but not all, expenditures are classified by economic classification. d. No expenditures classified by economic classification are presented. e. Not applicable/other (please comment). <p><u>Citation:</u> Executive's Budget Proposal, pp. 96-99</p> <p><u>Comment:</u></p> <p><u>Peer Reviewer One Comment:</u> I agree that the appropriate response to this question is “a.” The executive’s budget proposal presented the current expenditures for the budget year and two prior years preceding the budget year classified by economic classification and the capital expenditures presented separately by administrative units (pp 115-123).</p> <p><u>Peer Reviewer Two Comment:</u></p>	<p>a</p>

<p>4. Does the executive’s budget or any supporting budget documentation present expenditures for individual programs for the budget year?</p> <ul style="list-style-type: none"> a. Program-level data are presented for all expenditures. b. Program-level data are presented for at least two-thirds of, but not all, expenditures. c. Program-level data are presented, but for less than two-thirds of expenditures. d. No program-level data are presented. e. Not applicable/other (please comment). <p><u>Citation:</u> Executive's Budget Proposal, pp. 105-112</p> <p><u>Comment:</u> also, 23 out of 35 budget governor's budgets are presented detailed by economic classification</p> <p><u>Researcher’s Response to this Question was “a.”</u></p> <p><u>Peer Reviewer One Comment:</u> A more appropriate response to this question would be “d.” In the executive’s budget the capital expenditure estimates for the individual projects, programs and activities are presented by ministries and agencies. The investment activities financed from the “Development Fund” presented separately and classified by administrative units also. So, in my opinion the executive’s budget presented the expenditure estimates based on the input and administrative units, but not the output or program based data. In the executive’s budget proposal for 2008 presented the pilot program level expenditure estimates for three ministries such as Education, Food and Agriculture, and Labor and Social Security.</p> <p><u>Peer Reviewer Two Comment:</u></p> <p><u>Researcher Response:</u> I would change the answer to “c,” since some of the program level data are available for capital expenditures (pages 75-85)</p> <p><u>IBP Comment:</u> IBP editors chose answer “c” to maintain consistency with the guidance provided to researchers for correctly completing the questionnaire in the <i>Guide to the Open Budget Questionnaire</i>.</p>	<p>c</p>
--	----------

<p>5. In the executive’s budget or any supporting budget documentation, are estimates of the aggregate level of expenditure presented for a multi-year period (at least two years beyond the budget year)?</p> <p>a. Yes, multi-year estimates of aggregate expenditure are presented. b. No, multi-year estimates of aggregate expenditure are not presented. c. Not applicable/other (please comment).</p> <p><u>Citation:</u> Budget Framework Statement, pp. 17-18</p> <p><u>Comment:</u> In Mongolia, prebudget statement includes estimates for three year period (two years beyond budget year), but not the executive budget proposal.</p> <p><u>Researcher’s Response to this Question was “a.”</u></p> <p><u>Peer Reviewer One Comment:</u> A more appropriate response to this question would be “b.” The executive’s budget estimates the aggregate level of expenditures presented for the budget year and three prior years preceding the budget year (Executive’s Budget Proposal 2007, pp 105-112), but not the beyond the budget year. However in the pre-budget statement the aggregate level expenditure estimates are presented for the budget year and two years beyond the budget year.</p> <p><u>Peer Reviewer Two Comment:</u></p> <p><u>Researcher Response:</u> I agree with the peer reviewer, so the answer is “b”</p> <p><u>IBP Comment:</u> IBP editors chose answer “b” to maintain consistency with the guidance provided to researchers for correctly completing the questionnaire in the <i>Guide to the Open Budget Questionnaire</i>.</p>	<p>b</p>

<p>6. In the executive’s budget or any supporting budget documentation, is more detail than just the aggregate level presented for expenditure estimates that cover a multi-year period (for at least two years beyond the budget year)?</p> <ul style="list-style-type: none"> a. Yes, multi-year expenditure estimates are presented for all individual programs, and for one or more expenditure classification (such as functional, economic, or administrative). b. Yes, multi-year estimates are presented for one or more expenditure classification (such as functional, economic, or administrative), but only for some individual programs. c. Yes, multi-year estimates are presented, but only for a portion of one or more of the expenditure classifications (such as some functions, or some administrative units) and/or for only some individual programs. d. No, multi-year estimates are presented for aggregate expenditure only, or they are not presented at all. e. Not applicable/other (please comment). <p><u>Citation:</u> Multi-year estimates are presented for aggregate expenditure only, divided by current and capital expenditures.</p> <p><u>Comment:</u> Budget Framework Statement, pp. 17-18</p> <p><u>Peer Reviewer One Comment:</u></p> <p><u>Peer Reviewer Two Comment:</u></p>	d
<p>7. Does the executive’s budget or any supporting budget documentation identify the different sources of tax revenue (such as income tax or VAT) for the budget year?</p> <ul style="list-style-type: none"> a. All sources of tax revenue are identified individually. b. Sources of tax revenue amounting to at least two-thirds of, but not all, tax revenues are identified individually. c. Sources of tax revenue amounting to less than two-thirds of all tax revenues are identified individually. d. No sources of tax revenue are identified individually. e. Not applicable/other (please comment). <p><u>Citation:</u> Executive's Budget Proposal 2007, p.89</p> <p><u>Comment:</u></p> <p><u>Peer Reviewer One Comment:</u></p> <p><u>Peer Reviewer Two Comment:</u></p>	a

<p>8. Does the executive’s budget or any supporting budget documentation identify the different sources of non-tax revenue (such as grants, property income, and sales of goods and services) for the budget year?</p> <ul style="list-style-type: none"> a. All sources of non-tax revenue are identified individually. b. Sources of non-tax revenue amounting to at least two-thirds of, but not all, non-tax revenues are identified individually. c. Sources of non-tax revenues amounting to less than two-thirds of all non-tax revenue are identified individually. d. No sources of non-tax revenues are identified individually. e. <p>9. In the executive’s budget or any supporting budget documentation, are estimates of the aggregate level of revenue presented for a multi-year period (at least two years beyond the budget year)?</p> <p>a. Yes, multi-year estimates of aggregate revenue are presented. b. No, multi-year estimates of aggregate revenue are not presented. c. Not applicable/other (please comment).</p> <p><u>Citation:</u> Budget Framework Statement 2007, p.18</p> <p><u>Comment:</u> The multiyear estimates are given in the pre-budget statement, or budget framework statement, and not in the executive's budget proposal.</p> <p><u>Researcher’s Response to this Question was “a.”</u></p> <p><u>Peer Reviewer One Comment:</u> A more appropriate response to this question would be “b.” In the executive’s budget the aggregate level revenues are presented for the budget year and four prior years preceding the budget year (Executive’s budget proposal 2007, pp91-95). However in the pre-budget statement the revenue estimates are presented for the budget year and two years beyond the fiscal year. This question asked about the revenue estimates in the executive’s budget, but not about the pre-budget statement, therefore more appropriate answer would be “b.”</p> <p><u>Peer Reviewer Two Comment:</u></p> <p><u>Researcher Response:</u> I agree with the reviewer.</p> <p><u>IBP Comment:</u> IBP editors chose answer “b” to maintain consistency with the guidance provided to researchers for correctly completing the questionnaire in the <i>Guide to the Open Budget Questionnaire</i>.</p>	<p>b</p>

<p>10. In the executive’s budget or any supporting budget documentation, is more detail than just the aggregate level presented for revenue estimates that cover a multi-year period (for at least two years beyond the budget year)?</p> <ul style="list-style-type: none"> a. Yes, multi-year revenue estimates are presented for individual sources of revenue, and by revenue classification (such as tax and non-tax). b. Yes, multi-year estimates are presented by revenue classification (such as tax and non-tax), but only for some individual sources of revenue. c. Yes, multi-year estimates are presented, but only for some individual sources of revenue. d. No, multi-year estimates are presented for aggregate revenue only, or they are not presented at all. e. <p>11. Does the executive’s budget or any supporting budget documentation present data on the total government debt outstanding for the budget year?</p> <p>a. Yes, the data reflect the outstanding debt both at the start of the budget year and at the end of the budget year (and thereby reflect the net borrowing requirement of the budget).</p> <p>b. Yes, the data reflect the outstanding debt at the end of the budget year.</p> <p>c. Yes, the data reflect the outstanding debt at the start of the budget year.</p> <p>d. No, data on the outstanding debt are not presented.</p> <p>e. The foreign debt service information is presented for the budget year and BY-1 and classified by countries of the loan outstanding. For the domestic debt the information such as interest rates and source of the debt issue was presented (pp 114) for the fiscal year only.</p> <p><u>Peer Reviewer Two Comment:</u></p>	<p>c</p>
