Section Two: The Executive's Budget Proposal

Notes on abbreviations:

BY = budget year (year for which the budget proposals are being made)

BY+1 = one year beyond the budget year

BY-1 = one year before the budget year

Note 1: The Open Budget Survey research process was carried out over a 12-month period and the final version of the Open Budget Questionnaires reflect decisions made after multiple rounds of discussions between Survey researchers, peer reviewers, and the International Budget Partnership (IBP) (in several countries these decisions also considered comments received from governments). When peer reviewers or governments agreed with the answers provided by researchers, they often provided no comment. Thus for many questions, the section in the questionnaire that should contain peer reviewer comments is left blank. However, if the government did not provide any comments to a question (because it did not dispute the answer), the section within the questionnaire that is meant to reflect government comments specifies the answer that the government agreed with (by default).

Since the IBP continued its discussions with the researchers even after receiving peer reviewer and government comments, for some questions these discussions resulted in a mutual decision to change the answers, even if the peer reviewers and governments agreed with the original answer provided by the researcher. Such changes may have happened as a result of:

1. A more consistent application of the Survey methodology;
2. New information identified by the researcher or by IBP that had a bearing on the answer for a particular question; or
3. Decisions made to ensure cross-country comparability of answers.

For more information on these changes for any question please write to info@internationalbudget.org.

Peer Reviewer One Comment:

Peer Reviewer Two Comment:

Government Comment: Government did not dispute researcher's original answer "a," which the IBP modified for consistency purposes.

IBP Comment: Based on a review of the PTI, IBP editors chose answer "c." In the Three-Year Investment Plan, some aggregate amounts are presented for the period 2009-2011. However, these amounts do not cover all expenses (they only cover investment expenses).

Researcher Response to this Question was "d"

Peer Reviewer One Comment:

Peer Reviewer Two Comment: A more appropriate answer for this question would be "b." While the GPRSF provides the umbrella policy framework, new policies are developed either to respond to new challenges or render the actions towards poverty reduction more effective. These measures are presented in the following annex: Explanatory Annex: "Voted Services – New Measures."

Government Comment: A more appropriate response to this question would be "b." We have a budget presentation in services that was enacted and new measures.

Researcher Response: I suggest the answer should be changed to "b."

IBP Comment: Based on review of comments and document, IBP editors chose answer "b." "Services Votés – Mesures Nouvelles" shows the impact of new proposals (in numbers only, no narrative explanation).

Researcher Response to this Question was "d"

Peer Reviewer One Comment: A more appropriate answer for this question would be "c." The Special Investment Budget, which is the annual tranche of the Three-Year Investment Program (PTI) shows each year the continuation of government investment policies scheduled in the PTI for three years.

Peer Reviewer Two Comment:

Government Comment: Government did not dispute researcher's answer.

Researcher Response: I suggest the answer should remain as I indicated in the questionnaire "d." I chose my answer because the PTI is a series of tables on investments (infrastructures and human resources).

IBP Comment: Based on a review of the documents cited, IBP editors chose answer "d."

This information is limited to appropriations, commitments, and orders to pay. For the purposes of the WAEMU TOFE, DNTCP produces expenditure data each quarter, classified by type and only at the payment stage. These data are used to produce budget execution tracking reports, but at an overly aggregated level. There is no way to establish linkages between the two categories of data (DNTCP, DNCF), nor to produce expenditure statements covering all stages of the expenditure chain. The budget execution tracking reports prepared on the basis of these data are also excessively aggregated. Analytical reports on budget execution during the year are prepared for the purpose of monitoring the policies developed under WAEMU (convergence).
