Citation and/or comment: The budget outcome of policy proposals is also generally outlined and given quantitative substance on pages 42, 43 and 49 of Mramba’s budget speech, as well as in the sectoral budget speeches made in Parliament. However, on the whole, it is difficult to match quantitative figures with specific policy proposals and usually policy aspects with major budget implications are not made explicit or discussed. There are donor funds such as the President's Emergency Plan for AIDS Relief (PEPFAR) which are not reflected.    a. Non-financial data are presented for all programs.
   b. Non-financial data are presented for programs representing at least two-thirds of, but not all, expenditures.
   c. Non-financial data are presented for programs representing less than two-thirds of expenditure.
   d. No non-financial data are presented.

   Citation and/or comment: The National Public Expenditure Review Annual Consultative Meeting (most recently held in May 2005) is a consultation involving members of civil society, the Policy Forum (non-governmental organizations), trade unions, and the private sector. The executive presents some budget priorities for discussion at this National PR Meeting. However, this meeting is now a one day event and too late in the budget formulation procedure to have any substantive effect on budget making process. Also, the focus at the meeting is on macro budget issues. There is no real opportunity to discuss and define sectoral budget priorities, as these more specific consultations were not held in 2005. The overall PER process, which involves some civil society and donors, is expected to undertake studies that feed into budget preparations, but there is little evidence to demonstrate that a substantive difference is made. Other consultations include engagement with the private sector on tax issues where proposals are invited on tax strategies.

   b. The executive responds to such legislative requests, but its responses are sometimes not appropriate or timely.
   c. The executive responds to such legislative requests, but its responses are typically not appropriate or timely.
   d. The executive responds selectively or ignores such legislative requests.
   e. Not applicable/other (please comment).

   **Citation and/or comment:** In both Parliament sub-committee meetings and budget sessions in Parliament, all members of Parliament (MPs), including minority parties, are given the opportunity to ask questions. However, it is common for there to be a delay on the part of the executive in responding to written requests for information submitted by Parliament. The discussions in the Debating Chamber are a matter of public record through Hansard (the verbatim report of Parliamentary proceedings); however, the written questions are not publicly disclosed until the executive indicates that it is ready to answer. These answers are generally made orally, and, if made in the Debating Chamber, they are recorded in Hansard. However, issues discussed within the Committees are not a matter of public record. This study focuses on the 2005/06 budget year, but it should be noted that there seems to be greater openness in the 2006/07 budget discussions in Parliament.

81. Is the legislature (or the appropriate legislative committee) given information for the budget year on the spending of secret items relating to, for instance, national security and military intelligence?

   a. Yes, the legislature is provided extensive information on all spending on secret items.
   b. Yes, the legislature is provided information on spending on secret items, but some details are excluded.
   c. Yes, the legislature is provided some information on spending on secret items, but it lacks important details.
   d. No, the legislature is provided no information on secret items.
   e. Not applicable/other (please comment).

82. Does the legislature have authority to amend the budget presented by the executive?

   a. Yes, the legislature has unlimited authority to amend the budget.
   b. Yes, the legislature has authority to amend the budget, with some limitations.
   c. Yes, the legislature has authority to amend the budget, but its authority is very limited.
   d. No, the legislature does not have any authority to amend the budget.
   e. Not applicable/other (please comment).

   Citation and/or comment: Although Article 99 of the Constitution allows Parliament to reduce expenditure or the tax burden (but only when authorized by the executive), under the *Parliamentary Standing Orders Part 9: Legislative Procedures for Financial Matters*, Parliament does not have the authority to increase any charge on the Consolidated Revenue Fund unless specifically authorized. A member of parliament can express his or her dissatisfaction by seeking to reduce a Sub-Vote of any Vote by a shilling. Furthermore, of the only five conditions under which the executive may dissolve Parliament, its rejection of the budget is one of them (see article 90(2)(b) of the Constitution).

   a. The approved budget includes program-level detail.

   c. The approved budget includes only departmental totals.
   d. The approved budget includes less information than departmental totals.
   e. Not applicable/other (please comment).

   Citation and/or comment: A great deal of program level detail is provided, but not linked to the activity and outcomes, thereby making it difficult to link the budget with policies. This translates to a loss of Tshs.300 billion (US$ 300 million) per year.” A Public Procurement Regulatory Agency, established to regulate and monitor procurement activities, has posted a website ([www.ppra.go.tz](http://www.ppra.go.tz)) that seems quite comprehensive in its coverage of the process, even offering a subscription to receive “tender alerts.”

A “Supplementary Appropriation Act (No. 5) of 2004,” for the same sum to the same votes, passed in the National Assembly on 13th February, 2004 and received presidential assent on April 14th, 2004 for FY 2003/04. Interestingly, Supplementary Appropriation Acts (No. 18 and 19) of 2001, allocate supplemental budgets for the financial years 1997/98 and 1998/99…it seems that many, if not half, of the Supplementary Appropriation Acts were passed after the end of the relevant financial year (years later for some). 112. How long after the end of the fiscal year are the final expenditures of national departments audited and (except for secret programs) released to the public?

   a. Final audited accounts are released to the public six months or less after the end of the fiscal year.
   b. Final audited accounts are released 12 months or less (but more than six months) after the end of the fiscal year.
   c. Final audit accounts are released more than 12 months, but within 24 months of the end of the fiscal year.
   d. Final audited accounts are not completed within 24 months after the end of the fiscal year or they are not released to the public.
   e. Not applicable/other (please comment).

*Citation and/or comment:* The most recent final audited report, the “Report of the Controller and Auditor General for the Year Ended 30th June, 2003” was signed by the Controller and Auditor General in September, 2004 (page 565), about 14 or 15 months after the end of the corresponding fiscal year, and was in fact only available to the public around March 2005, approximately 6 additional months later.

According to the Public Finance Act (No.6) of 2001, page 16:

“35.- (1) On receipt of the accounts prescribed in section 25 of this Act, the Controller and Auditor General shall cause them to be examined and audited and shall, within a period of nine months or such longer period as the National Assembly may by resolution appoint after the end of the year to which the accounts relate…”

113. Two years after the completion of a fiscal year, what percentage of expenditure has been audited and (except for secret programs) the reports released to the public?

- All expenditures have been audited and the reports released to the public. [a]
- Expenditures representing at least two-thirds of, but not all, expenditure have been audited.
- Expenditures representing less than two-thirds of expenditures have been audited.
- No expenditures have been audited, or the reports have not been released to the public.
- Not applicable/other (please comment).

Citation and/or comment: All expenditures have been audited and the reports released to the public two years after the completion of a fiscal year. For example, the “Report of the Controller and Auditor General for the Year Ended 30th June, 2003,” containing audits of all expenditure, was signed (and then released) by the Controller and Auditor General in September, 2004 (page 565), 15 months after the end of the relevant fiscal year. However, public access to this information is limited and the CAG reports are among the few still not available on the Internet.

Citation and/or comment: Whilst the Controller and Auditor-General (CAG) have discretion to undertake additional audits according to the “Public Finance Act (No. 6) of 2001, Sections 33 and 37, in practice their discretion is very limited. The budget for the CAG and the National Audit Office (NAO) is lodged within the Ministry of Finance and there is no Internet access to the CAG & NAO. Additional audits would have to be recommended and additional funding approved. Added to this are the severe staff resources shortages within the NAO which are well known to the general public through various media reports. The “Public Finance Act 2001” can be seen on the Internet at: www.parliament.go.tz/Polis/PAMS/Docs/6-2001.pdf

Citation and/or comment: Under Vote 45 of the Budget Guidelines (page 63), the Controller and Auditor General (CAG) office’s requirement for the FY 2005/06 was Tshs 8.4 billion, but the ceiling was placed at Tshs. 7 billion. The ceiling, which is placed by the executive, tends to be binding. According to the “Report of the Controller and Auditor General for the Year Ended 30th June, 2003,” page 3:

Control over financial resources to effectively run the Office, has been mandated to the National Audit Office.”

   a. Yes, all audit reports are scrutinized.
   b. Yes, most audit reports are scrutinized.

   d. No, audit reports are not scrutinized.

Citation and/or comment: According to the “Public Expenditure and Financial Accountability Review: Joint Evaluation Report, 23rd May 2005,” page 26:

“The Public Accounts Committee (PAC) now examines the audit reports and completes hearings within 12 months of report issue. However, the time allowed for scrutiny is only 60 days. The PAC finished the review of the 2002/03 audit report in the November 2004 parliamentary session within three months of receiving the report. However the technical-professional capacity of committee members to deal with the subject matter of their remit is generally recognized to be weak and no professional research support is provided. The PAC reports for 2001/02 and 2002/03 plus three special reports (some dating back to 2002) have not been debated by Parliament”

and on page 24:

“Furthermore, the fact that five Public Accounts Committee (PAC) reports have not been debated on a timely basis by Parliament or action taken by the relevant bodies on their recommendations seriously undermines the financial accountability cycle.”
