

Kenya's County Budget Transparency Survey 2022

Wajir County Summary

The County Budget Transparency Survey (CBTS) is an annual survey that assesses the availability of ten key budget documents that, by law, each county is required to publish and publicize annually on their official county websites. Secondly, the survey evaluates the comprehensiveness of the information provided on revenue, different aspects of expenditure, budget performance and public participation, which the PFM Act requires for accountability to the public.

Disclosure of information, with disaggregation and provision of participation opportunities, enables meaningful public participation and quality decision-making. This ensures open access to information for all citizens, including the poor and marginalized, to support their engagement with government budgets and overall development. The CBTS assigns each county a transparency index based on the information it has publicly available.¹
