TASK 2.1 ■ MAPPING THE COUNTY BUDGET PROCESS AND KEY KENYAN BUDGET DOCUMENTS 45 MINUTES

TASK OBJECTIVES

- ❖ REVIEWING THE STAGES OF THE BUDGET PROCESS AND THE KEY ACTORS INVOLVED DURING EACH STAGE
- ❖ DISCUSSING KEY BUDGET DOCUMENTS AND KNOWING WHEN TO EXPECT THEM

RESOURCES NEEDED

- ✓ Hard/soft copies of Kenyan budget document name cards found in Annex V
- ✓ IBP budget cycle infographic (The budget calendar) available at: http://www.internationalbudget.org/wpcontent/uploads/ibp_kenya_budget_calendar_2015.pdf
- ✓ Flip chart and marker pen

HOW TO RUN THIS TASK

1. Begin with a plenary discussion on the budget process. Introduce the four stages of the budget cycle. Ask the participants to **'List four stages of the budget process, the actors involved in each stage and the roles of each actor'** ((PM, p.56: question 1). Ensure you fill the gaps or take over the discussion where the participants are uncertain.
2. Draw a three column table highlighting the four stages of the budget cycle in the first column then the actors in the second column and label the third column 'key budget documents.'
3. Pass out to individual participants (or groups of two or three) the seven (7) name cards of key Kenyan budget documents and give them 5 minutes to answer question two (2) and three (3) of the task.
4. Let participants pin/ attach the documents to the stage they think the documents correspond to, giving their reasons.
5. Referring to the IBP graphic of the Kenyan budget timeline (Reading 2.2 in the PM, p.61), have a discussion in plenary explaining the timeline in logical order and highlighting the fact that the process is parallel between the national and county governments. As you go, be sure to highlight:
 - a. The statutory deadlines/ timelines on the calendar as per the PFM Act
 - b. The key documents and decisions at both the national and county level
 - c. The role of the public

Emphasize: There are multiple budget years happening at the same time, with one year in formulation, and another in implementation, and another in evaluation all at the same time. That is why we have shown it as an overlapping spiral.

6. Refer the participants to the readings in their manuals (PM, p.57) and indicate that the key budget documents (except the ADP that was discussed earlier in Module 1 session 3) will be discussed at length in future sessions.

BACKGROUND INFORMATION

- The financial year in Kenya starts on July 1 and ends June 30 every year.
- There are four stages of the budget cycle and each stage is led by different arms of the government and independent offices. The table below shows the stages and the state organs.

Table 1: Budget Stages and Lead Actors

Stage	Lead actors
Formulation	The EXECUTIVE , through national ministries and county departments, steers this process. The national treasury and the county treasury play key roles at this stage.
Approval	The ASSEMBLY (national and county) reviews, amends and approves the proposed budget. The national and county Budget and Appropriations (BAC) committees play a key role here.
Implementation	Budget is returned to the EXECUTIVE for implementation with ASSEMBLY oversight. The CONTROLLER OF BUDGET ensures that release of funds is as per the budget, and releases quarterly and annually national and county governments' budget implementation review reports.
Audit and Evaluation	The AUDITOR GENERAL produces an annual report and tables in PARLIAMENT for review and further action. National and county Public Accounts Committees (PACs) play a key role in the oversight process.

- Indicate that oversight is undertaken by the county and national assembly as well as the public throughout the budget cycle.
- The budget process is prescribed under the Constitution, legislation and regulations enacted by Parliament, including the Public Finance Management Act, 2012 (PFM Act) and PFM regulations, as well as the County Government Act, 2012 (CGA).

Question 3 Key county budget documents and their importance in the budget process

Table 4: Description of the Key Kenyan Budget Documents.

Card	Notes	National Government Equivalent
COUNTY ANNUAL DEVELOPMENT PLAN (ADP)	<p>These plans are tabled in the assembly by September 1 each year giving the county 'strategic priorities'; how the county is responding to the changes in the economic environment as well as programmes and capital projects to be undertaken in the relevant FY (PFM S.126).</p> <p>Importance: The law is clear that no project should be in the budget that is not derived from county plans. The ADP is a good opportunity for the public to modify the proposals in the CIDP (5-year plan) and give specifics as to which sectors and particular programmes they want to prioritize in the upcoming FY.</p>	

	(Refer to Task 1.6 on Reflecting on your county's Plan).	
COUNTY FISCAL STRATEGY PAPER (CFSP)	<p>This is a paper giving the county's performance for the current half year, financial projections, sector priorities and sector ceilings for the next year. It gives key economic data and assumptions (such as those related to economic growth or inflation) used in the formulation of the budget for the upcoming year. (PFM S.117).</p> <p>Importance: The CFSP reflects the government's initial thinking about the budget for the coming year, with the understanding that the final budget may take into account new developments that emerge during the budget formulation period, as well as the feedback that the BPS itself will receive from the cabinet, the legislature, civil society, and the public. Nevertheless, the BPS should set the ceilings for sectors and these should generally not change with the budget.</p> <p>(Refer to Task 2.2 below on Reading Your County Fiscal Strategy Paper).</p>	BUDGET POLICY STATEMENT
COUNTY BUDGET PROPOSAL	<p>This is a proposal that is sent to Parliament and should be made available to the public soon thereafter. It should include revenue and expenditure estimates, macroeconomic and debt information, multi-year budget data, and public policy information.</p> <p>Importance: The budget proposal is the primary document through which the government translates its key policy goals into action. In Kenya, note that the revenue collection measures are actually presented separately in the Finance Bill. However, the expenditure level is based on revenue estimates that were already presented in the CFSP (or BPS).</p> <p>Since government takes these decisions (on revenues, expenditures, and debt) on behalf of all citizens, it is essential that it provides a full explanation of its taxation, borrowing, and spending plans before the budget is enacted to allow for informed public debate and informed legislative discussion and approval, and so citizens know how their money is collected and spent.</p>	NATIONAL BUDGET PROPOSAL

	<p>Note: A non-technical version of the budget that is commonly known as the CITIZENS BUDGET should be produced by the government to ease the process of public deliberation.</p> <p>(Refer to Task 2.5 below on 20 Questions About Your Budget).</p>	
<p>COUNTY APPROPRIATION ACT</p>	<p>A document which is passed into law as the budget to be implemented for the upcoming fiscal year. It is also known as the enacted budget for the coming year.</p> <p>Importance: This is the law of the land. It provides the baseline information for any analysis conducted during the budget year. In other words, it is the starting point for monitoring the implementation phase of the budget. It is important to understand any differences between the budget proposal and the appropriation acts, which reflect the changes made by the legislature to the executive’s budget proposal.</p> <p>(Refer to Task 2.5 below on 20 Questions About Your Budget)</p>	<p>NATIONAL APPROPRIATION ACT</p>
<p>COUNTY BUDGET IMPLEMENTATION REPORTS</p>	<p>These are quarterly reports produced and made available by the counties and the Controller of Budget (Constitution Art. 228). These report on actual revenues and expenditures against original targets in the budget, recent economic developments (e.g., growth, inflation, etc.), financing the budget deficit, and public debt.</p> <p>Importance: These reports provide details on budget implementation during the budget year. They provide a periodic measure of the trends in revenues and expenditure totals to date, giving explanations for any significant deviations from expectations. These provide regular information to policy makers, the press, and the public, to allow for problems in budget execution to be dealt with before the year ends (PFM Act, 2012. S. 101).</p> <p>(Refer to Task 4.1 below on 7 Questions About Your County’s Implementation Reports).</p>	<p>NATIONAL BUDGET IMPLEMENTATION REPORTS</p>
	<p>This is a paper reviewing the actual fiscal performance of the previous financial year’ as well as ‘updating the</p>	

<p>COUNTY BUDGET REVIEW AND OUTLOOK PAPER</p>	<p>economic and financial forecast information as compared to the CFSP'. This document falls within two stages: the formulation and evaluation stage. This is because it has a review of past performance, but also outlook for the coming year.</p> <p>Importance: Performance information allows the government, the public and other stakeholders to effectively engage in the next FY budget cycle from an informed point of view. The CBROP provides provisional (proposed) sector ceilings for each sector and allows for informed sector hearings leading to the preparation and approval of the CFSP. In this sense, it is like a draft of the CFSP which allows sectors to prepare reasonable proposals for next year's budget (PFM S. 117).</p> <p>(Refer to Task 2.2 below Reading your CBROP)</p>	<p>NATIONAL BUDGET REVIEW AND OUTLOOK PAPER</p>
<p>COUNTY AUDIT REPORT</p>	<p>This document produced and issued by the country's Supreme Audit Institution (Auditor-General) on an annual basis assesses the government's year-end final accounts and whether public resources were utilized effectively.</p> <p>Importance: Audit Reports (AR) provide the public with an independent account of whether the government's reporting of how it raised revenue (e.g., taxes) and spent public funds during the previous year is accurate. It also indicates whether the government has complied with financial management laws.</p> <p>The AR is a critical element in closing the accountability loop. At the start of the year, the legislature approves a budget that sets out how the government intends to tax, borrow, and spend public money. Thus, at the end of the year, the legislature and public require a credible assurance that the government's account of how it actually implemented the budget can be believed, and whether it remained at all times within the law.</p>	<p>NATIONAL AUDIT REPORT</p>

Note: In a general election year, the budget calendar may be accelerated. This may have an impact on the content of documents. For example, the Budget Policy Statement or County Fiscal Strategy Paper may only have performance information on the first quarter as opposed to the first half year.
