Comments: According to the State Budget Law 2002 (now replaced), the Executive Budget Proposal is not available to the public as OBS methodology. Pursuant to The State Budget Law 2015 (applied since the budget year 2017), state budget estimates’s data and statement notes must be made publicly available when submitting to the National Assembly. However, the budget year starts on the 1 of January and closes on the 31st of December (calendar year) while the EBP for 2017 was submitted to the National Assembly in October of 2016, therefore, the EBP is not publicly available because it still follows the State Budget Law 2002.

**Researcher response:** 1) The documents mentioned in the Article 44 are not EBP. And for the whole articles in chapter VI about publishing state budget document, there is no timetable for EBP. Art 22 of Decree 163 also applies for Budget 2018 onward. so the cut off date of OBI2017 is not respected with this decree. 2) The researcher agrees with the Gov’ comment about the publishing timeline for budget process based on the directive of the Prime Minister for Directive No.14/CT-TTg dated 14/6/2016 on formulation of plan for socio-economic development and Government budget estimates in 2017. But the Directive does not mention a clear timeline, just refers to the State budget law and the Public Investment law in general. ref. Art. Comments: Article 51 of the State Audit Law stipulates that: “1. Report on the yearly final audit outcomes and report on the performance of conclusion and recommendations of the State Audit shall be published in compliance with the Law”

Researcher response: The question is about publishing steps that the executive has taken to address the audit recommendations. The State Audit Institution only publishes audit report and audit recommendations (as per the website: report and annex http://static.sav.gov.vn/Data/admin/File/Tai-lieu/BCKT%202015%20-%20Chinh%20thuc.rar The) new decision of State Audit to track and verify the audit recommendation actions was made (ref. Comments: The legislative agencies at central level include the Ethics Council and the select National Assembly Committees verifying, overseeing related to their tasks, functions regulated by law. They belong to the National Assembly with independent function, give their opinion and independent recommendations, have their own organisation and are provided with with funding to implement their tasks. For example: Budget – Finance Assembly Committee is the agency verifying, overseeing and providing recommendations on the state budget.

IBP comment: The National Assembly cannot be considered an IFI, as an IFI should be non-partisan. IFIs are publicly funded, independent bodies under the statutory authority of the executive or the legislature.

Comments: The line to time to receive the official documents on the State Budget proposal by the Government for approval by the Standing Committee of the National Assembly and the National Assembly is stipulated quite clearly in the State Budget Law, i.e at least 20 days prior to the session of the National Assembly or Standing Committee of the National Assembly. Normally, the National Assembly shall consider decision on the state budget estimates for the next year beginning on the 20th, October.

Researcher response: Given that the EBP was tabled in the National Assembly on October 19th, it is less than three months before the start of the budget year. Hence answer choice "b" remains.

Sources: According to the Law on State Audit Office, Article 10, Clause 8 &9 on Duties of SAV said that: “SAV submits annual consolidated audit reports, implementation of auditors' opinions to the National Assembly, Standing Committee of the National Assembly; sends these reports to the President, the Government, the Prime Minister, Ethnic Council, Committees of the National Assembly; provide audit results for the Ministry of Finance, deputies of the National Assembly, the People's Councils, the People's Committees where audits are carried out, and other agencies as prescribed by law. They also provide explanation of audit results for the National Assembly and other agencies of the National Assembly and publish the results as prescribed by law. These clauses mean those agencies will examine the Audit Report but the law doesn't stipulate specific time of carrying out and publish examination reports with findings and recommendations. eg. Comments: Although I tend to agree with the report writers, the reality is the National Assembly sometimes release their findings about their own checking of SAI's reports to the public and State-run mass media (national television, radio, centrally owned newspapers and specialized magazines),
implying their instructions or request to the SAI. They are not official reports on findings -- like the report writers suggest -- but they are useful and evidence of conducting own reports by the NA committee.

Comments: However, during the process of approving the annual State Budget finalisation, agencies of the National Assembly can refer to the Report of the State Audit Office of Vietnam in the approval of the State Budget finalisation.

IBP comment: The link provided by the researcher show a parliament examining expenditure, not a debate based on the audit report produced by the SAI. Further, the law is not sufficient to prove practice. As there is no further evidence of the legislature examining the audit report, the IBP has revised the score to "d" in agreement with the reviewer.

119: Was the process of appointing (or re-appointing) the current head of the SAI carried out in a way that ensures his or her independence?

a. (100) Yes, the head of the SAI may only be appointed by the legislature or judiciary, or the legislature or judiciary must give final consent before the appointment takes effect.
b. (0) No, the executive may appoint the head of the SAI without the final consent of the legislature or judiciary.

c. (33) The SAI has some discretion, but faces considerable limitations.

d. (0) The SAI has no discretion to decide which audits it wishes to undertake.

Comments: Although the law stipulates that the SAI has full authority in fulfilling its missions and functions, the reality has proved to be different. There exists large investments by state-run conglomerates under direct control of the political system, such as PetroVietnam, Vietnam Coal and Mining, Vinalines and the like, where SAI needs to consult with or receive instructions from the Politburo and/or Central Secretariat to be able to function and receive cooperation of the audit subjects. In fact, SAI has failed to conduct appropriate audits in preventing all major fiscal problems from external debts by SOEs to major expenditure programs to large-scale collapse such as Vinashin. They could only do the job after the problems emerged, and show weaknesses. The answer must be b) and sometimes c)

Comments: The legal framework for annual state budget estimation (state Budget Law and guiding documents, directives of the Prime Minister, circulars guiding for state budget formulation and estimation...) is provided publicly through the websites of the Government, Ministry of Finance, Ministry of Planning and Investment. All important issues or drafted policies/regulations regarding to state budget (such as tax and fee adjustments, etc.) are widely consulted by socio-political organizations, associations, international organizations and people before making the decision (consulting citizen’s views and comments through the mass-media/public communications and through the websites of the relevant/lines ministries). The State Budget Law 2015 regulated that the draft budget for submission to the National Assembly /People's Council at all levels must be made public so that people can participate and give their comments. On the website of Ministry of Finance has also the “Q & A” module/section whereby people can raise any question related to budget policies, as well as questions about any topic/cycle of the whole budget process which must be timely and comprehensively responded to.

Comments: Regarding to the people at grassroots level, the Ministry of Finance (the MOF) has issued a specific regulation on the manner of disclosing budget information to the public in accordance with the feature and condition of each province/commune. Accordingly, the People's Committee at provincial/commune level is responsible for disclosing the revenues and expenditures of commune budget, publicizing financial mobilization and contribution from the people/citizens, and informing comprehensively all government subsidies to the poor and vulnerable people/community. The disclosure's process must be made from the beginning proposal to implemented results, and required all procedures regarding to public disclosure as well as public support to be available for public reference. The manner of budget disclosure is required to be announced to the public through information listed/posted at the Headquarter of People’s Committee or announced through mass-media and communications. Therefore, people (including minority /vulnerable organizations) can easily access budget information to oversight the process of budget implementation/execution. Moreover, people can supervise the budget process through the provincial representative from Vietnam Fatherland Front, People Inspectorate Board, and Community Investment Supervision Board at the province.

Researcher response: There is no evidence in practice about the participation of vulnerable and under-represented parts of the population on the implementation of the annual budget via mass media. For this reason, answer “b” is appropriate.

5. Process and timeline

- **Comprehensive information is provided in a timely manner prior to citizens engagement in both budget formulation and implementation phases.**

**Sources:** The citizen do not participate in the formulation of the annual budget as the State budget law 2015 and other budget legal documents doesn’t mention about participation mechanisms of citizen. No mechanism on feedback during formulation except the Minister of Finance has to respond before the Parliament on budget related issues which is open for public to know. However, Vietnam is representative participation so the question comes from elected representative (parliament members) to the executive and written on website: eg. on debt issues, broadcasted to public: http://www.sav.gov.vn/4392-1-ndt/thu-tuong-tra-loi-chat-van-….
